Proceedings

OF THE

Government of His Highness the Maharaja of Mysore

AUGUST 1911.

BANGALORE:
PRINTED AT THE GOVERNMENT PRESS.
1911.

CONFIDENTIAL

CONTENTS FOR AUGUST 1911.

PART I, IN EXTENSO.

I. REVENUE.

PAGES

SECTION 1—LAND REVENUE.

No. R. 1131-40—L. R. 205-10-2, dated 15th—

Amending Rule 8 of the Land Revenue Rules prescribing the form of security to be furnished by certain Revenue officers 1

No. R. 1272-81—L. R. 98-10-5, dated 22nd—

Directing that extracts from Maramat Administration Reports submitted by Deputy Commissioners to the Chief Engineer, in so far as they deal with tanks, be appended to the District Revenue Administration Reports for scrutiny by the Revenue Commissioner 2

No. R. 1271—L. R. 142-10-7, dated 22nd—

Approving of the several proposals made by the Revenue Commissioner in the disposals of the lands in the Bangalore Taluk, which had been acquired for the Malegal Water-Supply Project ... ... 1—14

SECTION 2—LAND SURVEY.—*Nil.*

SECTION 3—AGRICULTURE.—*Nil.*

SECTION 4—FORESTS.

No. R. 974-83—Ft. 139-10-2, dated 4th—

Explaining that, in inam villages, the bonus payable on the removal of mature sandal trees should be paid to kadim tenants in the case of lands held by them, and to the inamdar in other cases 1

SECTION 5—REVENUE MISCELLANEOUS.—*Nil.*

II. FINANCIAL.

SECTION 1—GENERAL FINANCE.

No. Fl. 544-87—G. F. 541-10-2, dated 5th—

Sanctioning the State Budget Estimates for 1911-12 ... ... 1—2

No. Fl. 602—G. F. 204-10-6, dated 7th—

Amending the rules for operating on the Dewan's Account with the Bank of Madras and Messrs. Coutts & Co., London ... ... 1—6

SECTION 2—SEPARATE REVENUE.

No. Fl. 749-57—S. R. 84-10-1, dated 17th—

Empowering the Amildars to receive applications for refund of the value of the spoiled stamp papers under the Stamp Regulation. 1

No. Fl. 869-79—S. R. 8-10-2, dated 25th—

Passing orders regarding the unauthorized cutting and removal of leaves from date trees and of dead date wood without a license... 2

SECTION 3—BANKING.

No. Fl. 639—B. 45-10-4, dated 8th—

Sanctioning the alteration of Rule 7 of the Insurance Rules 1

SECTION 4—SALARIES AND ALLOWANCES.

No. Fl. 895-938—S. & A. 644-10-2, dated 28th—

Passing orders on the Dasara Representative Assembly Subject No. 192 of 1910 *re* malnad allowance and quarters to officials of all Departments ... 1

PAGES

SECTION 5—CIVIL ACCOUNTS.—*Nil.*

SECTION 6—CENSUS.—*Nil.*

III. JUDICIAL AND LEGISLATIVE.

SECTION 1—LEGISLATION.—*Nil.*

SECTION 2—COURTS.

No. J. 482-6—Cts. 44-11-1, dated 5th—

Ordering that a District and Sessions Court be established in Bangalore with Civil and Criminal jurisdiction over the Revenue Districts of Bangalore, Kolar and Tumkur 1

No. J. 610-15—Cts. 44-11-4, dated 17th—

Issuing instructions in regard to the accommodation, establishment, furniture, etc., required for the new District and Sessions Court, Bangalore Division... 2—4

SECTION 3—PRISONS AND JAILS.—*Nil.*

SECTION 4—REGISTRATION.—*Nil.*

SECTION 5—POLICE.—*Nil.*

IV. LOCAL FUNDS AND SANITARY.

SECTION 1—LOCAL BOARDS.—*Nil.*

SECTION 2—MUNICIPAL.—*Nil.*

SECTION 3—MEDICAL.

No. 1671-3—Med. 241-10-7, dated 28th—

Reviewing the Report on the working of the Special Hospitals in Mysore for the year 1910 1

SECTION 4—SANITARY.—*Nil.*

SECTION 5—EDUCATION.

No. 1455-6—Edn. 46-11-6, dated 16th—

Placing on record the appreciation by Government of the services of the late Mr. Weir, Inspector-General of Education in Mysore 1

No. 1408-9—Edn. 312-10-2, dated 15th—

Sanctioning the Budget Estimates of the Industrial and other Special Schools in Mysore for the year 1911-12 ... ... 1—8

No. 1501-2—Edn. 324-10-6, dated 19th—

Sanctioning the additional expenditure required for the Central College, Bangalore during the year 1911-12 8

SECTION 6—EXAMINATION.—*Nil.*

V. GENERAL.

SECTION 1—REPORTS—*Nil.*

SECTION 2—PRESS.—*Nil.*

SECTION 3—MISCELLANEOUS.

N. G. 843-7—G. M. 36-11-17, dated 7th—

Sanctioning the budget estimates of the three Committees of the Mysore Economic Conference for the year 1911-12 ... ... 1—2

No. G. 854-901—G. M. 130-10-138, dated 8th—

Forwarding to the Heads of Departments and Deputy Commissioners of Districts, for information and guidance, the statement showing the name, designation and other particulars of Government servants, of and above the rank of peons, dismissed from service during the quarter ending the 31st March 1911 ... ... 3—4

VI. MILITARY.

No. Mily. 230—278-10-2, dated 23rd—

Directing, with certain modifications, that the proposal of the Inspecting Officer, Hyderabad and Mysore Imperial Service Cavalry and Mysore Transport Corps, in the matter of the accelaration of the supply of ball ammunition to the Mysore Imperial Service Lancers, be adopted in future ... 1

PAGES

VII. MUZRAI.

No. 334-41—Muz. 74-11-1, dated 1st—

Calling for certain details of Dharmadarsis proposed to be appointed to major Muzrai institutions 1

No. 399-401—Muz. 56-11-2, dated 11th—

Fixing a scale of expenditure in the Sri Gangadhareswaraswami temple at Sivaganga in the Nelamangala Taluk ... ... 1—3

No. 436-8—Muz. 35-11-2, dated 17th—

Fixing a scale of expenditure in the Sri Lakshminarayanaswami temple founded by one Shroff Venkatanarayana Setti in Seringapatam ... ... 5—7

VIII. PUBLIC WORKS.

No. 715-23—7182-90, dated 8th—

Passing orders on the application of the Mysore Fruit Syndicate for water-supply to their vineyards near Sankey's Reservoir at Bangalore ... 1—8

No. 761-799—7648-86, dated 23rd—

Ruling that the custody of all unoccupied buildings will hereafter rest with the Public Works Department 9

IX. RAILWAYS.

No 63—Ry. F. 47-11-12, dated 2nd—

Ordering the acquisition and handing over to the Madras and Southern Mahratta Railway the land required for watering arrangements at Sivané Station 1

X. GEOLOGICAL.

No. Geol. 411-443, dated 22nd—

Directing the issue of certain rules under the Mysore Mines Regulation, IV of 1906 ... ... 1—24

No. 445-474, dated 22nd—

Directing that all general and underground plans or sections of mines in Mysore, deposited with the Chief Inspector of Mines in accordance with Rule 180 of the Rules under the Mysore Mines Regulation, IV of 1906, and all other information obtained thereunder shall be regarded as confidential ... 1

PART I.

Proceedings of the Government of His Highness the Maharaja of Mysore, Land Revenue, dated 15th August 1911.

READ—

Rule 8 of the Land Revenue Rules prescribing the amount and kind of security to be furnished by certain Revenue officers.

No. R. 1131-40—L. R. 205-10-2, DATED BANGALORE, 15TH AUGUST 1911.

ORDER THEREON.—The Government of His Highness the Maharaja are of opinion that Rule 8 of the Land Revenue Rules, which permits of security being offered by certain officers in the shape of immovable property, should be modified, and are pleased to direct that in all cases of future appointments to the offices mentioned in Rule 8 (*a*), the officers concerned should be required to furnish their securities by deposit of cash in Government Treasuries, or in the Government Savings Banks or by deposit of Government paper duly endorsed and accompanied by a power to sell. The following notification will be published amending Rule 8 of the Land Revenue Rules accordingly.

C. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rev. Depts.

To—The Revenue Commissioner in Mysore.
The Comptroller, Mysore Government.
The Deputy Commissioners of Districts.

NOTIFICATION.

No. R. 1141—L. R. 205-10-3, dated 15th August 1911.

In exercise of the powers conferred by Section 233 of the Land Revenue Code, the Government of His Highness the Maharaja of Mysore are pleased to direct under Section 22, that Rule 8 of the rules under the Land Revenue Code, issued with Notification No. 264—R. 122, dated the 10th July 1901, be amended as follows:—

(i) Substitute the following for Rule 8 (*b*):—

"The security required should be furnished within one month after the date of appointment, either by deposit of cash in a Government Treasury or Government Savings Bank or by deposit of Government paper duly endorsed and accompanied by a power to sell, and the appointment will be liable to be cancelled if the prescribed security is not so furnished by him."

(ii) Omit Rules 8 (*d*), (*e*) and (*f*).

(iii) Number the Rules (*g*) and (*h*) as (*d*) and (*e*).

By Order,
C. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rev. Depts.

To—The Compiler, *Mysore Gazette*, for publication.

Exd.—C. V.

Proceedings of the Government of His Highness the Maharaja of Mysore, Land Revenue, dated 22nd August 1911.

READ—

Letter No. 1357, dated the 26th August 1910, from the Deputy Commissioner of the Kolar District, submitting for information, a copy of the Maramat Administration Report of the Kolar District for the year 1909-10, submitted to the Chief Engineer.

(2) Letter No. 9979, dated the 30th November 1910, from the Chief Engineer of Mysore, forwarding the Maramat Administration Reports of the other districts, with the intimation that paras 43 to 46 of the Public Works Administration Report already submitted to Government, contain a review of the operations connected with the Minor Tanks Restoration Scheme.

(3) Correspondence ending with letter No. 10900, dated the 21st April 1911, from the Revenue Commissioner in Mysore, stating that the reports in question are being submitted to the Chief Engineer by Deputy Commissioners in the capacity of Public Works disbursers, and that, if, as desired by Government, the work done by Revenue officers in this connection should be scrutinized in his office, a copy of the Deputy Commissioner's report submitted to the Chief Engineer, will have to be forwarded to his (Revenue Commissioner's) office also.

No. R. 1272-81—L. R. 98-10-5, DATED BANGALORE, 22ND AUGUST 1911.

ORDER THEREON.—Government consider it very desirable that the District Maramat Administration Reports, so far as they deal with tanks, should be scrutinized by the Revenue Commissioner, so that he may be in a position to judge whether the expenditure in each district is commensurate with local wants and Revenue officers have taken as much interest as is expected of them in carrying out the work entrusted to their charge. They, therefore, direct that extracts from the said reports relating to tanks, be appended to District Revenue Administration Reports submitted to the Revenue Commissioner. The Deputy Commissioners may, if necessary, embody in their Revenue Administration Reports any general remarks they may wish to make and leave details to be gathered from the Appendix. There will thus be one uniform set of materials on which the Revenue Commissioner and the Chief Engineer can draw for their own reports.

2. Government take this opportunity to impress upon Deputy Commissioners and their subordinate officers, that they attach particular importance to the periodical inspection of all tanks, both major and minor, and the specific mention in their reports of the tanks inspected and points noticed by them. Their attention is also invited to the marginally noted Standing Orders on the subject, which should be strictly adhered to.

(1) Rules 8 to 12 of the Tank Maintenance Rules, as revised by Government Order No. R. 6251-61—Agri 626-03-6, dated the 15th December 1903

(2) Government Oder No. 1996-363-2013 80 (D. P. W.), dated the 8th May 1888.

(3) Government Order No. 3273-80—641-88 (D. P. W.), dated the 13th July 1888.

(4) Government Order No. 7249 57—P. F 5 97, dated 14th April 1899.

(5) Government Order No. 8148 56—R. 2912, dated 30th May 1900

(6) Government Order No. Pet 164 72, dated 31st August 1901

C. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rev. Depts.

To—The Revenue Commissioner in Mysore.

The Chief Engineer of Mysore (returning the District Maramat Administration Reports forwarded by him).

The Deputy Commissioners of Districts.

Exd.—C. V.

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ AGAIN—

Government Order No. R. 2965-6—L. R. 142-10-2, dated the 8th November 1910, stating that of the lands acquired in the Bangalore Taluk for the Malegal Water-Supply Project and lying undisposed of, the sales of such of them as did not fetch the upset price fixed by Government cannot be confirmed, and requesting the Revenue Commissioner to take the necessary steps for the most profitable disposal of these lands as well as those that had been given out for temporary cultivation, if the occupants failed to return the amount of compensation that was originally paid for them.

READ—

The following letter No. 10628, dated the 17th April 1911, from the Revenue Commissioner in Mysore:—

I have the honor to submit the following report on the results of the sale, recently held of the lands acquired for the Malegal Project. In order to give a connected view of the whole transaction, I shall give a brief history of the acquisition of the lands and of the steps taken for their disposal.

2. In November 1893, on the requisition of the Residency, (the late) Mr. B. G. Krishniengar, was placed on special duty for the acquisition of lands required for the Malegal Project sanctioned by the Government of India for the separate supply of water to the Civil and Military Station, independently of the Hessarghatta Reservoir, the cost thereof being met out of Rs. 2,33,000 placed at the disposal of the Mysore Durbar by the Government of India. The necessary declaration statements required under the Land Acquisition Regulation were published in the *Mysore Gazette* on the 18th January 1894 (*vide* Notification No. 10206—R. 1053, dated 29th December 1893) and lands shewn in the statement furnished below were acquired at the cost mentioned therein, before December 1895:—

Area		Particulars	Compensation amount sanctioned by Collector	Amount paid	Balance
		1	2	3	4
A.	g.		Rs. a. p.	Rs. a. p.	Rs. a. p.
6,689	...	Total extent required as catchment area from 17 villages	.....	.....	.....

1		Collector's award objected to, but not taken to court	70 0 0	.....	.....
		Total ...	.....	1,16,930 11 1	.....

3. But subsequently in December 1895 the project was abandoned, negotiations having been completed between the British Government and the Durbar for the supply of water from the Hessarghatta Reservoir itself to the Civil and Military Station. Thereupon, further acquisition was dispensed with and measures had to be taken to dispose of the lands acquired already and these measures which might be regarded as having been commenced in 1896 have dragged on for 15 years now and cannot be said to have been yet completed fully.

4. In January 1896 the Secretary to the Government requested the Deputy Commissioner, Bangalore, to give his opinion on various matters *re* disposal of the acquired lands. In February 1896 the Deputy Commissioner, in reply to the above, enclosed a memorandum prepared by Mr. N. Narasimha Iyengar, Assistant Commissioner, solicited instructions on the points raised therein and requested orders of Government as to whether the lands might

be returned at once to those who repaid the full amount of compensation minus the 15 per cent added for compulsory acquisition. The Deputy Commissioner was of opinion that in the case of others the amounts might have to be regarded as *Takavi* recoverable on the security of the lands in six instalments extending over so many years. As the memorandum of the Assistant Commissioner contains full information, I quote the following passages therefrom to show the main issues raised then and the estimate of loss then formed :—

"I convened on the 3rd instant (February 1896) a meeting of the residents of the several villages and sounded the raiyats in the matter. Out of 129 persons who were present 78 persons agreed to take back their respective lands and repay the compensation money on the condition that they were allowed sufficient time to do so. Forty-seven persons desired to be given various times ranging from 10 to 20 years for the repayment of the compensation money. Thirteen persons came forward to repay it whenever demanded and eighteen persons required 5 years' time. As some of the houses acquired and compensated for were long ago abandoned, they are now in a state of utter disrepair so that their owners are not willing to take them back repaying compensation money. In some other cases even the materials of the houses have been removed to distant places and it would be too much to expect that the house owners would, under these circumstances, come back to their abandoned places and resettle, paying back to Government the compensation amount. It is very probable that a good portion of the money spent for compensating house owners cannot be recovered from them. The best plan to adopt in the case of houses and house sites appears to be to sell them by public auction. As regards lands acquired and compensated for, it would only be fair to give them back to such of the former owners as are willing to retake them repaying the compensation awarded, allowing in cases of necessity some concession either in the shape of discount or time for repayment. But lands which will not be taken back may be sold to the best advantage of Government at a public auction. As the lands are situated very near Bangalore, very probably, there will not be any serious loss to Government as in the case of houses. The probable loss to Government in the case of houses would be very nearly three-fourths of the money spent, *viz.*, Rs. 9,117 in acquiring them, but in the case of lands it might be estimated at about 20 per cent. As the lands were acquired compulsorily, the owners were paid 15 per cent more than the estimated value of the lands. This probably will not be recovered now. Compensation was paid also in respect of certain trees standing on the acquired lands reserving the trees to Government. Rupees 7,748 were thus paid. A portion of this amount may be recovered either from persons retaking the lands on which the trees stand or by selling them away by public auction. Rupees 2,829 were paid as nominal compensation for loss of prospective advantages for immature trees permitting the owners to remove them. This item must be considered as irrecoverable loss. The probable loss to Government by lands will be about Rs. 25,000 and the total loss both by lands and houses about Rs. 37,000."

5. In August 1896, the Government ordered that; as the final orders of Government of India had not been received, the lands, houses and other properties acquired for the scheme should be retained in possession of the Deputy Commissioner who may allow temporary occupation for that year. Subsequently the final orders of the Government of India having been received, the Durbar ordered in September 1896 the inclusion temporarily of the lands reserved in the Malegal and Nagarbhavi villages in the Hulbanni sale of that year; and in September 1897 the Forest plantation in the Nagarbhavi village which had been acquired was ordered by Government to be given back to the Forest Department. In November 1897, the Government asked the Deputy Commissioner again to furnish information on the following points :—(1) How many people were willing to take back all their lands without choosing only the good ones, (*a*) by repayment of the whole amount received by them from Government and (*b*) by repayment of a smaller amount; (2) particulars of loss involved in each case; (3) whether repayment cannot be expected in a lump sum and if not, what arrangements the Deputy Commissioner would propose in that respect; and (4) the extent of loss apprehended in the case of lands which could not be disposed of as above but have to be sold by auction. The Government also ordered the deputation of an Assistant Commissioner specially for collecting the above information. The Government were of opinion that it was not desirable to sell portions of the land acquired without arranging simultaneously for the disposal of the remainder.

6. In 1898, the plague broke out at Bangalore for the first time and this outbreak seems to have completely thrown into the back-ground the work in connection with the sale of the lands; for in October 1900, the Deputy Commissioner, Bangalore, reported to Government that the condition of the people had not sufficiently improved after the disastrous effects of plague and that it was necessary to wait for some time longer. In March 1901, the Government regretted the delay on the part of the Deputy Commissioner and ordered that Mr. Seetharamiah, Assistant Commissioner and the Amildar of Bangalore Taluk should be deputed

Land Revenue, dated 22nd August 1911.

for the work and monthly progress reports should be submitted. In October 1901, the Deputy Commissioner submitted the first report on the sale of lands enclosing a statement and memorandum prepared by the Amildar, from which the following figures are taken:

	Extent	Assessment	Compensation
	A. g.	Rs. a. p	Rs. a. p.
(1) Total extent acquired and compensated for	2,846 16	2,344 15 0	10,4,774 7 1
(2) Lands given back to raiyats on condition of repaying the amount	156 26½	194 12 0	6,547 2 0
(3) Lands let out for temporary cultivation	1,048 37	922 15 0	44,102 0 2
(4) Lands lying waste	1,640 31	1,227 4 0	54,125 4 11

**N.B.*—Out of this amount Rs. 3,451-4-0 had been recovered and time was granted for repaying the balance. It was stated that most of the owners of the houses had pulled them down and removed the materials and only a few houses were in the occupancy of raiyats.

7. In October 1902, the Government called for further information on the subject by means of a docket, but this was not communicated to the Revenue Commissioner whose office had been newly established in the month of August of that year. There is a break in the file of papers now available to me and it does not appear that the Deputy Commissioner submitted any information in response to the above order of Government, nor is this office aware of what had occurred in this connection till a reference was made to me by the Deputy Commissioner on 10th April 1907, in connection with the darkhast application of Mr. Simpson for some lands in the Nagarbhavi village. After calling for the connected papers from the Deputy Commissioner, I requested him to obtain the orders of Government himself as the Government had dealt with the lands in question without reference to this office. Accordingly, the Deputy Commissioner submitted a report to the Government. On the 26th August 1908 in their No. R. 1311-2—L. R. 52-08-2, Government passed a detailed order. In this order the Government regretted that since 1902, no report was furnished by the Deputy Commissioner and the matter was completely lost sight of in the Deputy Commissioner's office. In para 2 it is stated that, "as reported by the Deputy Commissioner "out of 5,706 acres acquired in 14 villages only 177 acres have been given out for cultivation permanently, 961 acres for temporary cultivation and 1,406 acres have been leased out to the British Army Department for Grass Farm in accordance with orders of Government, dated 27th August 1907, and that 3,161 acres were lying waste. The Government in conclusion directed (1) that those lands lying waste (including those applied for by Mr. Simpson) be disposed of by public auction, on condition that no bid fetching below 50 per cent of the amount of compensation should be accepted, (2) that lands given out for temporary cultivation may be confirmed to the present occupants on payment of the compensation amount and that otherwise they may be resumed and disposed of as unoccupied lands, (3) that lands undisposed of by auction may be reserved for disposal in the usual course under the darkhast rules as applications are received from time to time, and (4) that information on the following among other points should be furnished:—

(*a*) Whether full amount of compensation has been recovered from those who have taken back their lands for permanent cultivation;

(*b*) total amount originally spent on the acquisition of lands;

(*c*) the amount realised by the disposal of the lands, and (*d*) the resulting loss to Government in the transaction. The report received from the Deputy Commissioner in reference to the above order of Government was forwarded unofficially to me in August 1910, whereupon I stated after examination of the file that "sustained and intelligent efforts had not been made for disposing of the lands to the best advantage," that the Deputy Commissioner and the Assistant Commissioners specially deputed for the purpose did not go about the work in the right way and that the circumstances of the raiyats should be investigated and the terms of purchase negotiated with due regard to the means of persons desirous of taking up the lands. I also observed that I had no opportunity to supervise the sales and that I was not in favour of confirming the sales for less than 50 per cent of the compensation and advocated the sale of the lands given out for temporary cultivation as also the lands rented out to the Military Department as well as of the remaining lands so as to make up as much of the amount paid for compensation as possible. The Government on the 8th November 1910 passed their Order No. R. 2965-6—L. R. 142-10-2, in which they generally concurred with my views and approved of the confirmation of sale in regard to 130 acres and 29 guntas which had fetched Rs. 3,639 as against Rs. 5,666 originally paid as compensation and of the grant of the Survey Nos. 58 of Malegal and 38 of Nagarabhavi village to the darkhastdars who had deposited the upset price. They did not consider it necessary to interfere at present with the lands leased to the Military Department "who are now paying an all-round rent of 12 annas per acre to be raised after two years to one rupee per acre, as it is

doubtful whether much more revenue will be realised if they are made available for cultivation." They finally requested the Revenue Commissioner to take necessary steps for the profitable disposal of the lands, the sale of which had been disallowed, as also of other lands.

8. *Accounts.*—On receipt of the above Government Order, I sent for all the papers connected with the Malegal Project. The main difficulty was to find out the lands already disposed of and the amount of money recovered out of the compensation amount originally paid by Government. Some of the papers and account books had been mislaid in the District and Sub-Division Offices. The papers available in the Taluk Office were in confusion and there was no official conversant with the facts as they had occurred. Hence it was with considerable difficulty that the following statement was got prepared from the materials available :—

	Extent	Assessment	Compensation paid by Government	Amount realised or due
1	2	3	4	5
	A. g.	Rs. a. p.	Rs. a. p.	Rs. a. p.
Total extent of lands and village sites with houses standing thereon acquired as per figures furnished by Mr K. G Shamanna	5,706 31	..	..	..
Increase in extent as per resurvey	74 35	..	...	..

N. B—These figures are only approximate and may have to be slightly modified on receipt of further references.

9. *Conference with the Deputy Commissioner and other local officers.*—After a preliminary inspection of some of the lands in Yesvantapur and Peenya, I had a conference with the Deputy Commissioner, Sub-Division Officer and Amildar to discuss the best mode of disposal of these lands. It was arranged that the dates of sale should be fixed in the early part of December so that the people might be able to inspect the lands with the crops standing thereon and have an idea of their quality. In addition to the usual Notification of sale published in the *Mysore Gazette* dated 24th November 1910, I had handbills drawn up showing the extent of lands to be sold in the several villages with a rough sketch map exhibiting the position of the villages and the several roads, etc., and had these handbills and advertisements circulated widely in the Bangalore City and Cantonment.

10. *Terms offered to owners.*—The sale of the land was commenced on 6th December 1910 at Peenya Camp. Myself, the Deputy Commissioner, the Sub-Division Officer and the Amildar were present. The raiyats of Laggere, Peenya and other neighbouring villages, officials, merchants and others from the City and Cantonment attended in large numbers. I explained to the assembled people the procedure to be followed. They were distinctly told at the outset that it was not the intention of Government to deprive the original hakdars of the possession of the lands even if a profit could be made thereby, but that Government was only anxious to realise a reasonable amount in order to protect itself from loss. Having

Land Revenue, dated 22nd August 1911.

regard to the great rise in the market price of lands and the fact that the owners had had possession of the more fertile lands for nearly 12 or 13 years without repaying the sums which they had received from Government for compensation, though this option had been given to them, the following general conditions were proposed for the return of the lands to the owners or their representatives:—

(1) *Conditions of sale.*—The khatedars to be given preference, provided they took back all the lands and agreed to pay the full compensation amount together with simple interest thereon at 4 per cent for 10 years.

Proviso.—The compensation paid on account of malki (such as trees, wells, embankments, etc.) was, if large, to be deducted from the original compensation and only the present value of standing trees was required to be paid in addition to the net compensation paid for the land with 4 per cent on account of interest.

(2) The owners or purchasers were required to deposit ¼ of the amount on the date of sale.

(3) It was provided that the balance of the purchase money might be paid in annual instalments with compound interest at 5 or 6 per cent according to orders of Government.

(4) If khatedars were not agreeable to the said terms, the cultivator of the land or the nearest relative of the khatedar would be permitted to take up the lands on the same terms

(5) If even these were not willing, the lands to be put up to auction, the khatedars and tenants being at liberty to compete.

(6) The auction purchaser to be free to take possession of the lands lying waste at once and of the cultivated lands after the standing crops were harvested, subject to confirmation of the sales by Government, but they would be liable for Kandayam only from 1911-12, the kandayam due on the occupied lands only to be paid by the cultivators for the current year.

11. *Objection of the raiyats.*—The raiyats demurred to pay interest on the compensation amount and declined to take back all the lands that were formerly in their khate.

As regards the first objection, the raiyats were told that, as they had had the use of the compensation amount ever since they received it from Government and as, if they had taken back the land paying back the compensation in accordance with Government Order dated 2nd August 1908, the Government would have derived interest thereon, it was but right that they should pay at least simple interest at 4 per cent and that otherwise, they would be better off than those who had already taken back the lands after repaying the compensation.

As regards the second objection, it was explained that as both good and bad lands had been acquired on payment of an average rate of compensation, they could not expect to get back the good lands at the average cheap rate, leaving the Government to bear the heavy loss on the inferior lands.

Owing to the sinister instigation of some mischievous persons among them, some of the Laggere raiyats were obstinate and refused to accede to these reasonable conditions. Their statements were recorded and the lands in the holding of a few among them were put up to auction and bought up by outsiders fetching prices which compared favourably with the terms offered to the owners. Then the more reasonable villagers showed a readiness to fall in with my views.

12. *Sales.*—As these preliminary discussions occupied some time, only a few lots were sold on the first day. On the 2nd and 3rd days of the sale at the Peenya Camp, most of the owners and khatedars took up their lands on the terms first offered to them. Some of the raiyats whose lands were sold by auction on the first day, found out their mistake and requested me to cancel the sales and restore the lands to them. In a few cases I did so after persuading the auction purchasers to consent to the step.

In conducting the sales I allowed a relaxation of the terms of the above conditions whenever it was found that it would press hardly upon poor raiyats. For example, helpless widows and minor children of deceased khatedars were allowed to keep only so much portion of the khate lands as they could cultivate without difficulty on the terms mentioned above.

(2) In deserving cases of hardship the whole or portion of interest was excused.

(3) One baujar land was given free of cost to a destitute woman and another survey number for which a fair price was not forthcoming was given free of cost to the temple of Sri Narasimhaswami at Laggere at the request of the raiyats.

(4) In some cases adjoining 'kharab' or assessed waste were added to the lands sold in order to meet the convenience of the purchasers.

13. The sales of lands were held at the Peenya Camp on the 6th, 7th and 8th December, at Sajjepalya Camp on the 9th, 10th and 11th idem and at the Taluk Office, Bangalore, on the 12th and 21st December 1910 in order to wind up the deferred sales and to dispose of petty takrars. The people had been previously informed that no takrars preferred after the 21st December 1910 would be heard. The results of sales of lands in the several villages are detailed in statement marked Appendix IV herewith submitted. Matters worth notice in the sale proceedings at the different camps are also briefly referred to in the remarks column against each village, but the financial results of the sales in each village will be briefly reviewed hereunder and points requiring orders of Government will also be stated.

14. *Results of sales.*—In the following remarks the order of the villages follows the sale notification without reference to the dates of sale.

I. LANDS.

(1) *Yesvantapur.*—An extent of 146 acres 21 guntas assessed at Rs. 174-4-0 was disposed of by sale and by private negotiation for Rs. 7,672-12-0 against a compensation amount of Rs. 5,873-8-0 which resulted in a gain to Government to the extent of Rs. 1,799-4-0. One Survey No. 62 measuring 2 acres 25 guntas could not be disposed of as the land is in the holding of a raiyat who stated that it was given to him in exchange for certain lands of his taken up for other purposes. Further references have been called for and on receipt of the same this case will be disposed of.

		Rs.	a.	p.
Extent	149 acres 6 guntas			
Assessment		178	4	0
Compensation of land ...		5,971	8	0
Compensation on account of malki		611	8	0

(2) *Jarakabandekaval.*—Only one survey number which was remaining undisposed of was given back to the khatedar for Rs. 875 realising a profit of Rs. 249-8-0 to Government.

		Rs.	a.	p.
Extent . .	18 acres 2 guntas			
Assessment		21	8	0
Land compensation ...		625	8	0
Malki		...		

(3) *Kethmarnahalli.*—Only two Survey Nos. 161 and 160-4 measuring 2 acres 7 guntas with an assessment of Rs. 2-8-0 were remaining undisposed of. Survey No. 161 and another Government assessed waste Survey No. 163 measuring 1 acre 8 guntas bearing an assessment of Rs. 1-4-0 were sold jointly at the request of the bidder as the latter contained some honge trees. Thus by the sale of the whole extent of 3 acres 15 guntas a sum of Rs. 232 was realised against a compensation of Rs. 77 paid at the time of acquisition.

		Rs.	a.	p.
Extent	3 acres 15 guntas			
Assessment		3	12	0
Land compensation ..		77	0	0
Malki		106	9	0

(4) *Sajjepalya.*—As the malki (*i.e.*, trees) for which a compensation amount of Rs. 668-12-0 had been paid was stated to have mostly disappeared, the lands alone were sold subject to the payment of the value of the existing malki on a fair valuation. In the sale it fetched Rs. 865, resulting in a loss of Rs. 160-4-0.

		Rs.	a.	p
Extent . . .	34 acres			
Assessment		42	0	0
Compensation for land . .		1,025	4	0
Compensation for malki ...		668	12	0

(5) *Sreeganthakaval.*—The principal khatedar in this village gave me much trouble. Some of the raiyats had emigrated to other villages leaving most of their lands overgrown with lantana. The good and bad lands had to be sold together by private negotiation and after a great deal of trouble, I was able to secure only Rs. 2,234, being about three-fourths of the compensation paid for land alone. A portion of the compensation paid for malki will be recovered from the auction purchasers, but it will not be much.

		Rs.	a.	p.
Extent	97 acres 13 guntas			
Assessment		65	14	0
Compensation for land . .		2,886	1	0
Compensation for malki .		596	0	0

(6) *Mallathahalli.*—Soon after the acquisition of lands in this village most of the raiyats emigrated to other parts and the lands were lying waste since then. In the sales the lands fetched Rs. 739-4-0 or a little over 50 per cent.

		Rs.	a.	p.
Extent	58 acres 26 guntas			
Assessment		39	1	0
Compensation for land ..		1,410	4	8
Compensation for malki ..		40	0	0

(7) *Malegal.*—An extent of 170 acres 2 guntas bearing an assessment of Rs. 179, for which a compensation of Rs. 5,479 had been paid, excluding malki, was sold for Rs. 5,182, the loss to Government being the trifling sum of Rs. 297. Owing to the sparseness of population, it was with very great difficulty that even this amount could be realised. Much of the malki was said to be not forthcoming and so the lands were sold subject to

		Rs.	a.	p.
Extent	180 acres 25 guntas			
Assessment . .		195	12	0
Compensation for land ...		5,811	0	0
Compensation for malki ...		1,448	14	0

Land Revenue, dated 22nd August 1911.

Survey No. 36		Rs.	a.	p.
Extent	10 acres 4 guntas			
Assessment		15	0	0
Compensation for land		342	12	0
Compensation for malki		170	0	0

payment of the value of existing trees, etc. One Survey No. 36 could not be disposed of as the khatedar complained that he did not receive the compensation amount. Further information has been called for and the matter will be disposed of separately. Another Survey No. 40-1 also could not be disposed of as the malki on the land for which Rs. 245 had been paid was reported to have been removed. This had to be specially enquired into before the sale of the land.

Survey No. 40—1		Rs.	a.	p.
Extent	19 guntas			
Assessment		1	12	0
Compensation for land		19	0	0
Compensation for malki		245	14	0

(8) *Nagarbhavi.*—The whole extent was disposed of for Rs. 3,985 as against Rs. 4,762-4-6 paid for land alone. The loss to Government is Rs. 777-4-0. This is partly due to lands lying banjar for a long time and partly to remission of interest in the case of the khatedars who had lost all their property by an accidental fire some time back.

		Rs.	a.	p.
Extent	156 acres 1 gunta			
Assessment		198	4	0
Compensation for land		4,762	1	6
Compensation for malki		1,231	0	0

In this case no compensation is expected on account of malki as the flourishing garden with a bungalow at the time of acquisition is in a ruined condition and the lands were sold with the trees as they stood.

(9) *Sanegaravanahalli.*—Out of this, an extent of 7 acres 5 guntas is reported to have been given to a raiyat of Sivanahalli in exchange for his lands at Kethamaranahalli acquired for the Military Grass Farm. An extent of 36 acres 15 guntas could not be disposed of as the khatedar contended that though the award was made and cheque issued in his name, the amount was not paid to him. Information has been called for on the above points and this case will be disposed of separately. The remaining extent of 172 acres 6 guntas was sold for Rs. 7,335-8-0, the loss to Government being Rs. 708-2-0. In many cases in this village the interest was excused. One Survey No. 45 (dry and garden), for which a compensation amount of Rs. 2,888 had been paid, fetched only Rs. 1,250 as the garden was in a very bad condition.

		Rs.	a.	p.

Compensation for land		8,013	10	0
Compensation for malki		1,168	12	0

(10) *Peenya.*—The greater portion of this extent was lying banjar and the villagers were not willing to take them up paying back to Government the heavy amount of compensation. For this reason, only 77 acres 11 guntas bearing an assessment of Rs. 67-12-0 were disposed of for Rs. 2,400 against a compensation amount of Rs. 2,477. The loss to Government is very little and calls for no remark.

		Rs.	a.	p.
Extent	118 acres 32 guntas

Compensation for land		1927	1	0
Compensation for malki		...		

The remaining extent of 71 acres 21 guntas was reserved for the marginally noted purposes.

	A	G
1. Included in the Hessarghatta pipe line	0	9
2. Lands reserved for sites for Holeyar houses	6	9
3 Special gomal	49	5
4. Service inam	12	12
5. Reserved for future disposal	3	26

A few words of explanation are necessary as regards items 2 to 5.

(i) In order to encourage the backward classes to settle here and take up lands for agricultural purposes two Survey Nos. 46 and 45 measuring 6 acres 9 guntas were reserved for the Holeyars to build houses. The Amildar has been directed to prepare a plan of the place and to sell sites to them at a fair price. I hope to realise a decent sum.

(ii) There is a tunnel across the Tumkur road in the seventh mile and a jungle stream flowing through it has been steadily causing erosion of the lands and rendering them unfit for cultivation. So no bids were forthcoming for a few survey numbers on the border of this *Halla*. I think the erosion could be checked and the bed of the stream and the uneven grounds on either sides could be gradually converted into an undulating grass plot forming a fair-sized block of gomal with trees standing here and there. I explained to the raiyats of the Peenya village that this extent would be given to them as special gomal land if they would consent to plant honge and other trees the leaves of which are fit for manure and also to grow grass, and that, in case the raiyats declined to take it up either for the whole village or for a body of raiyats, the land would be given to one or more raiyats on certain conditions. None would come forward,

I wish to try and improve this bit by Government agency as an object lesson to raiyats and shall take the necessary action for the purpose.

(iii) An extent of 12 acres 12 guntas comprising Survey Nos. 84 and 88, for which there was no demand, was reserved for the Service Inam of the Toti and Thalwar of this village, as their lands have been cut up and rendered unfit for cultivation by the jungle stream referred to above.

(iv) Survey No. 83-2 measuring 3 acres 26 guntas, for which a compensation of Rs. 146 had been paid, has been reserved for future disposal, as no reasonable bids were received.

(11) *Laggere.*—This was the first village taken up for sale and the raiyats gave me the greatest trouble, *vide* para 11. An extent of 516 acres 6 guntas bearing an assessment of Rs. 419-2-0 was disposed of for Rs. 13,037-0-6 against a compensation of Rs. 14,545-5-7, the loss to Government being Rs. 1,508-5-1. Even this small loss is mainly due to strong opposition of the raiyats to the sales and partly to many of the lands especially gardens having been left waste since their acquisition.

		Rs.	a.	p.
Extent	536 acres 7 guntas			
Assessment ...	432	2	0	
Compensation for land ...	14,661	10	4

One Survey No. 70 in this village was given free of price to an old destitute Holeyar woman.

	Survey No. 70.	Rs.	a.	p.
Extent	4 acres 38 guntas			
Assessment	2	8	0	
Compensation	146	8	0	

Another Survey No. 126, for which no proper bids were received, was given to the temple of Sree Narasimha Swami at Laggere, as the raiyats represented that the present inam was not sufficient to maintain the worship in the temple, on the condition that the land should be registered in the name of the temple and that the shanbhog or other influential person should be responsible for the payment of the kandayam of the land. I request that my action may be kindly approved. The remaining extent of 20 acres 1 gunta was reserved for future disposal as proper bids were not received during the sale.

	Survey No. 126	Rs.	a.	p.
Extent ...	6 acres 22 guntas			
Assessment	4	8	0	
Compensation	242	0	0	

12. *Nallakadeyanahalli (Kayamgutta).*—The whole extent was given back to the mortgagee of the Kayamgutta village for Rs. 135 or at a profit of Rs. 40 to Government, as the Kayamguttadar did not care for the land.

Extent .. ... 2 acres 15 guntas
Compensation ... ... Rs. 95

13. *Jodi Kempapur.*—An extent of 27 acres 24 guntas of Madyaka land in this village was acquired and a compensation of Rs. 1,104 had been fixed. But out of this amount only Rs. 687-3-10 is stated to have been paid to some of the vrittidars and the remaining amount was not claimed before the acquisition proceedings were stopped. The proportionate extent of land for this amount will be 17 acres 7 guntas. I offered to return the land on payment by the vrittidars of this amount with 40 per cent interest. But the vrittidars who had received the compensation amount or any other vrittidars did not come forward to take back the land on behalf of the whole body and there was no good reason why any one vrittidar should be permitted to rebuy the lands for individual benefit. I decided, therefore, to have the land sold on 12th December 1910 as a jodi land subject to the confirmation of sale by Government. In the sale it fetched Rs. 1,800 giving nearly a profit of 200 per cent on the amount originally paid. I beg that this sale may be approved on the original jodi tenure, the jodi amount being fixed in proportion to the jodi now paid for the whole village.

Extent ... ... 17 acres 7 guntas.
Assessment ... ...
Compensation for land ... Rs. 687-3-10
Compensation for malki. ... ...

14. *Hegganhalli (Kayamgutta).*—These lands formed a portion of the Hegganhalli kayamgutta village and had been acquired on payment of a heavy compensation of Rs. 5,011. But the lands being situated in an arid tract and far from Bangalore, they had been lying unoccupied all along. During resurvey operations the whole extent was formed into two survey numbers with an assessment as noted in the margin and added on to Sreegandha Kaval, a Sirkar village. There seemed to be little chance of their being sold as assessed land and so I put it to the assembled people to say whether they would go in for them if sold as kayamgutta land on payment of a proportionate gutta. They were ready and the result of the sale speaks for

Extent ... 61 acres 16 guntas.
Assessment ... ... Rs. 59-0-0
Compensation for land .. Rs. 5,011-8-0
Compensation for malki ... ...

Survey No.	Extent. A.	g.	Assessment
82	24	28	Rs. 59
76	36	28	Kharab

Land Revenue, dated 22nd August 1911.

itself. The two survey numbers were sold in a block, subject to the confirmation of Government, and realised Rs. 2,710, the loss being Rs. 2,301-8-0. I beg that my action may be confirmed.

II. Houses.

The total amount of compensation paid to owners of houses is Rs. 12,156-4-0 for 1,564¼ ankanams. In many cases the owners had emigrated to other villages after disposing of or removing the roofs and materials thereof. In other cases, the houses had been allowed to crumble down and in one village, *viz.*, Nagarbhavi, the houses had been destroyed by fire. The few houses which were occupied by the owners themselves and which were in fair condition were returned to the owners on payment of a decent price but there was no demand for the rest. So houses comprising 601¼ ankanams were sold for Rs. 3,741-4-0 being more than 50 per cent on the compensation of Rs. 5,980-8-0 paid therefor. The loss must be considered light under the circumstances.

Number of houses 1,564¼ ankanams besides vacant sites.
Compensation ... ... Rs. 12,156-4-0

In the Nagarbhavi village, where all houses are reported to have been destroyed by fire and the present houses have been newly built by the raiyats, I have permitted confirmation of the sites to the respective owners at a fair upset price to be fixed hereafter by the Sub-Division Officer after inspection.

As regards the remaining houses (or more properly ruins or sites) in the several villages, the Amildar has been directed to note in the khaneshumari accounts the amounts due as compensation against respective numbers so that it may be taken into consideration when applications are received for the sites hereafter.

III. Lands leased out to the British Military Grass Farm.

It will be seen from para 8 that an extent of 851 acres 8 guntas has been let to the British Military Department for a Grass Farm. It is gathered that the rent for the first two years is at annas 12 per acre and that after two years it should be raised to one rupee. (*Vide* Government Order No. R. 2965-6 L. R. 142-10-2, dated 8th November 1910.) It is learnt that no orders have been received by the Taluk Amildar for the collection of this amount. These lands are situated close to the Malleswaram Extension, Bangalore, and not far from the extensive grounds appropriated to Tata's Research Institute. Taking the average assessment of Yesvantapur, Laggere, Peenya and Kethamarnahalli, the ordinary assessment alone is likely to be about Rs 1,400 per year. Moreover a compensation of Rs. 19,693-6-5 has been paid for 851 acres 8 guntas comprised in this area. Owing to the general rise in prices of land, the great demand which exists for these lands on account of their proximity to the Railway Station and to Bangalore as explained above, the Government is likely to get a round sum in capital value and in a shape of annual rent, if they are sold to the public.

	A.	g.	Assessment
Assessed lands	1,044	31	Rs. 231-8-0
Gomal	356	20	
Kharab	5	17	
Total	1,406	15	Rs 231-8-0

N. B.—(1) These figures include the extent acquired for the project and compensated for.

Extent	Assessment.	Compensation.
A. g.		
851 8	Rs 164-5-0	Rs. 19,693-6-5

(2) Out of these 851 acres 8 guntas an extent of about 500 acres have been converted into Kharab during re-survey.

The people assembled urged for the sale of these lands also by auction and, at a reasonable computation, I might have secured bids at the rate of 25 to 10 rupees per acre. As it is, a darkhast received at the time of sale offering to take back the lands on repayment of the compensation amount, is enclosed for reference. I would therefore submit, for the serious consideration of Government, the desirability of making these lands available to the public for cultivation.

15. *Conclusion.*—The final results of the sales held under my direction may now be briefly reviewed.

From the enclosed statement it will be seen that out of a total extent of about 1,698 acres 31 guntas of land remaining to be disposed of in December 1910, an extent of 1,550 acres 21 guntas, for which a compensation of Rs. 52,998-8-7 had been paid, was disposed of by me for Rs. 49,203-2-6 realising 92·8 per cent. This does not take into account malki, of about Rs. 9,013-14-0, paid therefor. It must be explained, however, that since a long time has elapsed since the acquisition, much of the malki was destroyed or stolen and it will be hard to expect any return from this source (*vide* remark at para 4). It has, however been stipulated that the purchasers should pay the value of the malki now standing on the land as fixed by panchayatdars. A small portion of the same will be realized.

I have also noted separately (*vide* Appendix V) points requiring special sanction to facilitate the orders of Government.

I must apologise for the statements of figures not being as accurate as they should be. Owing to the lapse of time and the matter having been handled by different officers at long intervals without keeping proper records, some discrepancies have crept in which it is difficult to unravel without patient examination. The Deputy Commissioner was naturally busy and could not devote much of his own attention or depute any of his clerks to attend to this work. The Sub-Division Officer, Mr. Ranganatha Rao Sahib, who took a keen interest in the sale proceedings, had much to do and was lately obliged to take long leave on account of domestic bereavement. The Amildar and his clerks who chiefly helped to prepare the statements and records and to conduct the sales have been busily engaged in Census work and Huzur Jamabandi and could not attend to this work immediately. But as great delay has already occurred and as there is no likelihood of the petty discrepancies being properly reconciled soon, I have decided not to lose any more time in submitting the report. I shall, however, issue necessary instructions to the officers concerned to have correct statements prepared after necessary records, as regards each individual sale, are completed, and to submit a final statement through my office for the information of Government before the end of the year.

It remains for me only to add that the disposal of the lands should not have been allowed to hang on for so long and that even when the district officers took up the disposal of the lands they could have set about the business more intelligently than they had done. They could not be said to have had a proper perception of the magnitute of the transaction or a correct mode of procedure when they adopted the trite procedure that is followed in the case of ordinary sales of lands on darkhasts. It was to illustrate how Revenue officers should proceed when large areas of lands have to be disposed of in small lots with due regard to special claims of individuals, that I have prepared this report in great detail.

If the Government agree with me in this view, it may be ordered to be printed in extenso for record and the future guidance of Revenue officers.

(Appendices I, II & III not printed, being unnecessary.)

Land Revenue, dated 22nd August 1911.

No. R. 1271—L. R. 112-10-7, dated Bangalore, 22nd August 1911.

Order thereon.—It is reported that out of 1,698 acres 31 guntas lying undisposed of, for which a total compensation of Rs. 67,098-15-1 (inclusive of the malki of Rs. 9,459-4-0) had been paid by Government, an extent of 1,550 acres 21 guntas has been disposed of by sale and a sum of Rs. 49,203-2-6 realized as against Rs. 52,998-8-7 paid by Government as compensation therefor, that as most of the trees which existed on these lands, for which a sum of Rs. 9,043-14-0, had been paid by Government, have disappeared, the value of the existing ones, which will not be much, will be fixed by panchayatdars hereafter and recovered from the purchasers and that the remaining lands will be disposed of in due course.

2. In approving of the sales of these lands, the Revenue Commissioner's proposal to allow the price of the lands to be paid in instalments to be fixed at his discretion, not exceeding a maximum of 15 in each case, with compound interest at 5 per cent, is also sanctioned, subject, however, to the condition that on failure to pay any instalment the entire balance will be recovered at once. The amount of the annual payment should be carefully calculated and entered in each man's khate. If possible, the number of years over which the payment is spread should be reduced to five, as the seasons are favourable and there can be no hardship in insisting on this payment.

3. As regards the several points specified in Appendix V to the letter read above as requiring the orders of Government, the proposal to grant fresh lands as service inam to the toti and talvar of the Peenya village, in lieu of their original inam land said to have been cut up and rendered unfit for cultivation by a jungle stream, should form the subject of a separate communication, wherein information should be furnished as to the extent, assessment, and jodi of the original inam land, the extent that would be equivalent in value thereto out of the lands now proposed to be granted and the jodi that has to be now fixed. It is observed that the extent of Survey Nos. 84 and 88 proposed to be assigned as inam, is shown as 10 acres 31 guntas in the sale notification published in the Gazette, while it is 12 acres 12 guntas according to the Revenue Commissioner's letter under disposal.

4. As regards the lands leased to the Military Grass Farm authorities, it is not possible to make any of them available for cultivation till the expiry of the lease which has recently been renewed for a period of three years from the 25th August 1910. The fact that there is a great demand for these lands for cultivation is noted for consideration, when the question of the renewal of the lease next comes up. The question of setting apart an extent of 70 or 80 acres out of these lands as additional gomal in favour of the villagers of Kethmaranahalli, is under consideration and it does not seem desirable to trench upon this area for purposes of cultivation. But there is nothing to prevent the local authorities from ascertaining what the local requirements really are and making any extra land available for cultivation.

5. The rest of the proposals of the Revenue Commissioner as detailed in Appendix V above referred to are approved.

Proceedings of the Government of His Highness the Maharaja of Mysore, Revenue (Forest), dated 4th August 1911.

READ—

Letter No. 9231, dated the 6th April 1911, from the Conservator of Forests in Mysore, enquiring whether the rules issued under Notification No. 7709—Ft. 13-05-18, dated the 25th March 1909, are applicable to sandal trees growing on lands in inam, jodi and kayamgutta villages, and whether the bonus to be paid under these rules is to be given to the inamdar, jodidar and kayamguttadar or to the actual holder of the land concerned.

No. R. 974-83—FT. 139-10-2, DATED BANGALORE, 4TH AUGUST 1911.

ORDER THEREON.—In inam villages the inamdar's right over lands held by kadim tenants is confined to receiving the rent due thereon as a superior holder and in such cases, he can have no claim to the bonus, which should be paid to the kadim tenant. In the case of other lands in the inam village, the inamdar will be entitled to receive the bonus.

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

Letter No. 7313—B & R 1209, dated the 1st June 1911, from the Comptroller, submitting the consolidated Civil Budget Estimates of Revenue and Expenditure for 1911-12.

No. FL. 544-87—G. F. 541-10-2, DATED BANGALORE, 5TH AUGUST 1911.

ORDER THEREON.—*Revised estimates for 1910-11.*—The Budget Estimates for 1910-11 provided for a total revenue of Rs. 225,98,000 and a total expenditure of Rs. 220,32,000, leaving a surplus of Rs. 5,66,000.

2. According to the revised estimate of the year, the total revenue is expected to amount to Rs. 246,29,000 and the total expenditure to Rs. 220,52,000 leaving a surplus of Rs. 25,77,000. This surplus is due to large increases in receipts under Land Revenue (Rs. 6,60,000), Forest (Rs. 3,71,000), Excise (Rs. 1,50,000), Mining Revenue (Rs. 3,58,000), Profit or Loss (Rs. 1,53,000) and Cauvery Power Scheme (Rs. 1,26,000), which account for Rs. 18,18,000 against an increase of Rs. 20,31,000. The other heads calling for notice are Public Works (Rs. 1,31,000) and Miscellaneous (Rs. 65,000). *Per contra*, there was a falling off of Rs. 53,000 under State Railways. On the expenditure side, however, it is expected that there will be a net increase of Rs. 20,000. The chief increases are due to an excess of Rs. 4,00,000 under Palace, Rs. 97,000 under Miscellaneous and Rs. 36,000 under General Administration. *Per contra* it is expected that there will be lapses under Education (Rs. 1,06,000), Medical (Rs. 28,000) Military (Rs. 82,000) and Cauvery Power (Rs. 2,23,000).

3. *Budget Estimates for 1911-12.—Revenue and Receipts.*—The estimates of revenue and receipts as provisionally accepted amount to Rs. 233,75,039. Government are of opinion that they should be raised by Rs. 2,05,000, *viz.*, one lakh under Land Revenue collections, one lakh under Interest and Rs. 5,000 under Scientific and Minor Departments. The total of revenue and receipts, as now accepted under all heads, will be Rs. 235,80,000.

4. *Expenditure.*—The total expenditure under all heads as provisionally accepted is Rs. 240,78,368. Certain items which, in the opinion of Government, are necessary have been subsequently added. These items aggregating Rs. 330,605 are shown in the Statement A appended to this Order. The provision of Rs. 5,00,000 included in the provisional budget for writing off irrecoverable loans from Agricultural Banks, is omitted from the final budget. With these modifications the total expenditure under all heads amounts to Rs. 239,09,000.

5. The Budget Estimates for the year 1911-12 providing for a total revenue of Rs. 235,80,000, and a total expenditure of Rs. 239,09,000, and resulting in a deficit of Rs. 3,29,000 as shown in the accompanying Statement B are hereby sanctioned and directed to be published in the *Mysore Gazette* for general information with an explanatory financial statement as usual.

6. The expenditure on account of the Delhi Durbar, provision for which has been made in the Budget, should be regarded as if it were an advance from the cash balance to be recouped by special appropriations in the next two years' budgets.

J. S. CHAKRAVARTI,
Financial Secy. to Govt.

To—The Comptroller, Mysore Government.
The Heads of other Departments.
The Deputy Commissioners of Districts.

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

Letter No. 7086—B. R. 1157, dated the 19th May 1911, from the Comptroller to the Government of His Highness the Maharaja of Mysore.

In inviting reference to the "Rules for operating on the Dewan's Account with the Bank of Madras" published with Government Order No. Fl. 4030-1—G. F. 136-09-2, dated 12th February 1910, I have the honor to state that the instruction contained in Rule (2), *viz.*, "Money should be withdrawn from the Branch Bank at Bangalore only by cheques signed by the Comptroller and countersigned by the Khajana Bakshi" requires to be modified as described below:—

2. In accordance with the arrangement between the Madras Bank and this office for the past five years, bills exceeding Rs. 5,000 in the aggregate presented at one time by the Bank for encashment at the State Huzur Treasury were paid not in cash but by means of a cheque on the Dewan's Deposit Account. As it appeared that, in transferring the ordinary receiving and paying business with the public from the State Huzur Treasury to the Bangalore District Treasury, the above facility to the Bank should be undisturbed, I have in consultation with the Bank made the following arrangements. When the total of the bills presented at one time by the Bank at the Bangalore District Treasury exceeds Rs. 5,000, the Treasury Officer pays them not in cash but by transfer credit to the head "Remittances from the Madras Bank" and issues a certificate in a special form, showing the adjustment under the remittance head (receipt) and under the service head (payment). The Bank can then on the authority of the certificate granted by the Treasury Officer, Bangalore District, treat the amount in question as remitted to the Bangalore District Treasury and also treat the bills in question as paid at that Treasury.

3. So far, the transaction is simple. But as, under the rules for operating on the Dewan's Account, a cheque seems necessary in support of every debit to the Dewan's account, the transaction cannot end there and to satisfy the requirements of the rules, a cheque is being issued from the Huzur Treasury for the amount specified in the certificate issued by the Treasury Officer, Bangalore, on its surrender by the Bank.

4. I beg to say that the latter part of this procedure, *viz.*, the issue of a cheque in lieu of the certificate seems hardly necessary and moreover involves some duplication of work. In all banks, payments on behalf of constituents are made not only on cheques drawn on the Bank but also, whenever necessary, on letters of authority general or special. Under clause 5 of the rules above referred to, the Madras Bank sends its pass-book weekly for verification in my office and if this verification is made after reference to the advices and accounts which have to be submitted by the Bangalore Treasury under the rules, the issue of cheques in respect of amounts treated as remitted to the Bangalore Treasury in the Bank's pass-books as above described may be safely dispensed with. Of course, in respect of all other cases of debit against the Dewan's Account, cheques will continue to be issued as at present.

5. I may here mention that I have got printed at the Government Press the form of certificates to be issued by the Treasury Officer, Bangalore. The Huzur Treasury Department will be kept informed by the simultaneous issue of duplicates of all such certificates signed by the Treasury Officer, Bangalore. Sufficient material will thus be available for a careful check of the debits to the Dewan's Account made by the Bank in respect of its bills paid by transfer at the Bangalore Treasury. Further the Treasury Officer's advice itself will, in due course, be examined in the Audit Branch of my office with reference to the Bank bills thus paid by transfer. The Bank cannot possibly debit more to the Dewan's Account as remitted to the Bangalore Treasury than the Bangalore Treasury will acknowledge as received in its Cash Account and the Bangalore Treasury cannot acknowledge more as received in this way than it can support by vouchers representing claims against Government duly discharged at the Treasury.

6. In these circumstances, the modification in Rule (2) that I herein propose for the approval of Government does not involve the slightest risk and I beg that Government will be pleased to pass early orders sanctioning the modification of the rule as follows:—

> Rule (2).—"Moneys should be withdrawn from the Branch Bank at Bangalore only by cheques signed by the Assistant Comptroller in charge of the State Huzur Treasury and the Comptroller. But when bills presented by the Bank of Madras, Bangalore, for encashment at the Bangalore District Treasury are paid by transfer credit to remittances by the Treasury Officer, the Bank may debit the Dewan's Account with the amounts of such bills on the authority of the Treasury Officer's certificate. The Assistant Comptroller in charge of the State Huzur Treasury and the Comptroller shall be competent so to withdraw by

means of cheques, specie to any amount (*a*) for the use of the Huzur and other Treasuries within the State, in either which case, the specie shall be brought into the Huzur Treasury in the first instance except when such specie is intended for the Bangalore District Treasury, in which case it may be sent direct to that Treasury or (*b*) for payment into the Resident's Treasury at Bangalore, in which case, the specie shall be paid into the Resident's Treasury."

7. It is also suggested that, for obvious reasons, the following alterations be made in the rules referred to above:—

Rule I (3).—For "the Comptroller and the Khazana Bakshi" substitute "the Assistant Comptroller in charge of the State Huzur Treasury and the Comptroller."

Rule I (5).—For "Khazana Bakshi" substitute "Comptroller."

Rule II (4).—For "attached in original to such requisition" substitute "sent in original by the Head of the Office concerned to the payee of the bill who will present it for payment at the Head Office."

Rule III. For "quarterly" substitute "monthly."

8 If Government approve of the above modifications, I beg that the rules be issued *de novo* embodying all the modifications up to date and copies sent to Messrs. Coutts & Co., and he Bank of Madras.

No. Fl. 602—G. F. 204-10-6, dated Bangalore, 7th August 1911.

Order thereon.—The proposals made by the Comptroller are sanctioned. The books containing forms for the Treasury Officer's certificate referred to in paragraph 6 of the letter read above should be kept under lock and key in the same manner as cheque books.

2. The rules as now revised are issued for facility of reference as an Appendix to this Order.

J. S. CHAKRAVARTI,
Financial Secretary.

To—The Comptroller, Mysore Government.

The following rules for operating on the Dewan's Account with the Bank of Madras, and with Messrs. Coutts & Co., London, have been sanctioned by His Highness the Maharaja's Government:—

I. Deposits in the Bangalore Branch of the Bank of Madras.

(1) All credits are to be made as at present, the Bank being competent to receive moneys paid by whomsoever to the credit of the Dewan's deposit account.

(2) Moneys should be withdrawn from the Branch Bank at Bangalore only by cheques signed by the Assistant Comptroller in charge of the State Huzur Treasury and the Comptroller. But when bills presented by the Bank of Madras, Bangalore, for encashment at the Bangalore District Treasury are paid by transfer credit to remittances by the Treasury Officer, the bank may debit the Dewan's account with the amounts of such bills on the authority of the Treasury Officer's certificate. The Assistant Comptroller in charge of the State Huzur Treasury and the Comptroller shall be competent so to withdraw by means of cheques, specie, to any amount (*a*) for the use of the Huzur and other Treasuries within the State, in either which case, the specie shall be brought into the Huzur Treasury in the first instance except when such specie is intended for the Bangalore District Treasury, in which case it may be sent direct to that Treasury, or (*b*) for payment into the Resident's Treasury at Bangalore, in which case, the specie shall be paid into the Resident's Treasury.

(3) For all other withdrawals from the Branch Bank at Bangalore the Assistant Comptroller in charge of the State Huzur Treasury and Comptroller are authorised to draw cheques for amounts not exceeding Rs. 30,000 for each cheque. No cheques shall be issued beyond the abovementioned limit without the written sanction of the Dewan recorded upon such cheques.

Financial (General Finance), dated 7th August 1911.

(4) The purpose for which a cheque is drawn should be specified in the advice given to the Bank. Printed advice in the Form (No. I) appended should be used with serial numbers and counterfoils, the duplicate counterfoils being submitted to the Dewan for information, from time to time as issued.

(5) The Madras Bank have kindly consented to have the Pass Book written up and returned to the Comptroller once every week, and at the same time to send to the Dewan an extract of the same, weekly, showing the balance on hand. The Comptroller should also submit to the Dewan, weekly, the balance according to the Treasury Cash Register, together with explanation of the difference, if any, between the Branch Bank Pass Book and Treasury Cash Register.

II. The Dewan's Account with the Madras Head Office of the Bank of Madras.

(1) Requisitions for withdrawing money from this account shall always be by means of printed letter in the appended Form (No. II), the duplicate counterfoils of which should be submitted to the Dewan, from time to time as issued.

(2) Transfers from this account to the credit of the Dewan's account at the Branch Madras Bank at Bangalore may be made to any extent upon the requisitions signed by the Comptroller.

(3) In all other cases the requisitions shall be signed by the Comptroller for any amount not exceeding Rs. 30,000 for each requisition. A requisition for more than Rs. 30,000 shall also bear the Dewan's sanction in writing.

(4) When any requisition is for payment of a bill at the Head Office of the Bank, such bill duly passed for such payment shall be sent in original by the Head of the office concerned to the payee of the Bill who will present it for payment at the Head Office.

(5) In every case, the purpose for which a requisition is made shall be specified in the margin of the same.

(6) The Madras Bank have kindly consented to send to the Comptroller a monthly statement of account, which will be submitted to the Dewan for inspection monthly.

III. Mysore Royalty Account with Messrs. Coutts & Co.

(1) On the requisitions of Heads of Government Departments, the Comptroller is authorised by means of requisitions to instruct Messrs. Coutts & Co., London, to make payments up to a total limit of £2,000 for each requisition. A requisition for more than £2,000 will bear the Dewan's sanction in writing.

(2) The requisitions should be in printed Form (No. III) or by letters, and the duplicate counterfoils of the forms and copies of letters should be submitted to the Dewan on the day following each mail day.

(3) The monthly accounts received from Messrs. Coutts & Co., London, should be submitted in original for the Dewan's inspection with the Comptroller's explanations and the original register kept in the Comptroller's office.

Proceedings of the Government of His Highness the Maharaja of Mysore, Financial (Separate Revenue), dated 17th August 1911.

READ—

Dasara Representative Assembly Subject No. 195 of 1910, in the matter of empowering Amildars to deal with applications for refund of the value of unused or spoiled stamp papers.

No. FL. 749-57—S. R. 84-10-1, DATED BANGALORE, 17TH AUGUST 1911.

ORDER THEREON.—Government are pleased to permit Amildars to receive applications under the Stamp Regulation for the refund of the value of unused or spoiled stamp papers addressed to Deputy Commissioners and presented within the time allowed by law. The applications when received should be forwarded to the Deputy Commissioners for orders and steps should be taken to expedite disposal of the claims.

C. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rev. Depts.

To— The Commissioner of Stamps in Mysore.
The Deputy Commissioners of Districts.

Exd.—C. V

Proceedings of the Government of His Highness the Maharaja of Mysore, Financial (Separate Revenue), dated 25th August 1911.

READ—

Letter No. 213, dated 5th July 1910, from the Excise Commissioner in Mysore, proposing to issue a circular in the matter of the unauthorised cutting and removal of leaves of date trees on Government lands, and suggesting that the rule issued under Notification No. 14550—Legis. 103, dated the 1st May 1901, may be so altered as to render such offences capable of being disposed of departmentally by the Deputy Commissioner.

No. FL. 869-79—S. R. 8-10-2, DATED BANGALORE, 25TH AUGUST 1911.

ORDER THEREON.—Government consider that a general rule prohibiting the cutting and removal of leaves from date trees and of dead wood except under a license should be added to the rules issued under Notification No. 14550—Legis. 103, dated 1st May 1901, and they direct that the following be inserted as Rule I A.

"I A. No person shall cut or remove dead date wood or leaves from date trees except under a license obtained in accordance with the rules hereinafter laid down."

2. This amendment renders it unnecessary to retain clause (*c*) of Rule II, which will therefore be deleted.

3. Government also deem it necessary that the authority to issue licenses under Rules I and II should vest in the District Excise Officers also. They accordingly direct that the words "the District Excise Officer" be inserted between the words "Amildar" and "or" in Rule IV.

4. Government observe that the penalty for the breach of the rules referred to above can only be inflicted on conviction before a Magistrate, but the offences can be compounded by a Forest officer, if they fall under Section 59 of the Mysore Forest Regulation. It is however considered desirable that this power to compound offences in so far as they relate to the rules of the 1st May 1901 should be conferred on the District Excise Officers rather than on the officers of the Forest Department as the former are specially interested in the conservation of date groves. The necessary notification for this purpose will be published in the Gazette.

5. In these circumstances there is no necessity for the issue of the circular proposed by the Excise Commissioner.

C. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rev. Depts.

To—The Excise Commissioner in Mysore.
The Conservator of Forests in Mysore.
The Revenue Commissioner in Mysore
The Deputy Commissioners of Districts.

READ AGAIN—

Para 3 of Government Order No. G. 5490-2—G. M. 103-09-5, dated the 19th April 1910, inviting opinion of the State Life Insurance Committee on the subject of alteration of the existing Rules 7 and 8 of the Insurance Rules.

READ ALSO—

(1) Application dated the 22nd April 1911, from certain officials of the General and Revenue Secretariat and other offices, praying that they may be allowed the option of paying premia in excess of 10 per cent of their pay with a view to their securing a higher bonus.

(2) Correspondence ending with letter No. 3,965, dated the 15th June 1911, from the Secretary to the Insurance Committee, forwarding, for orders of Government, a memorandum dated the 6th March 1911 in which the majority of the members of the Committee have recorded their opinions in favour of the suggested amendment to Rule 7 of the Insurance Rules, *viz.*, that the words "or more at his option" be inserted after the word "Insured" in the first line of Rule 7, with a view to enabling an officer of Government to insure at his option for the difference of premium between the compulsory ten per cent of pay and Rs. 50, and stating that the President has reserved his opinion.

No. Fl. 639—B. 45-10-4, DATED BANGALORE, 8TH AUGUST 1911.

ORDER THEREON.—The question of permitting officers of Government to insure at their option for amounts higher than what is admissible for the compulsory premium of 10 per cent of pay, has been engaging the attention of Government for some time past. The State Insurance Committee, to whom this question was referred for consideration, are in favour of the proposal and recommend the alteration of rules as suggested in their letter of 15th June 1911, read above.

2. Government are pleased to accept the recommendation of the Insurance Committee. The proposed alteration of Rule 7 is hereby sanctioned.

3. The amended Rule 7 which reads as follows will be published in the *Mysore Gazette*:—

> "Ten per cent of the pay of the Insured or more at his option shall be recovered every month as premium and credited to Government, in consideration of which an endowment bonus (according to the table appended to these rules) shall be payable from the Mysore Revenues on the Insured completing 55 years of age or at his death, if earlier. Fractions of a rupee other than multiples of eight annas, shall be excluded in calculating the monthly premium."

4. The alterations in the forms, consequent on the change of the rule, may be submitted for the orders of Government at an early date.

J. S. CHAKRAVARTI,
Financial Secretary.

To—The Secretary, Mysore State Life Insurance Committee, returning the enclosures to his letter No. 3965, dated 15th June 1911.

Proceedins of the Government of His Highness the Maharaja of Mysore, Financial (Salaries and Allowance), dated 28th August 1911.

READ—

Representative Assembly Subject No. 192 of 1910 re malnad allowance and quarters to officials of all Departments.

No. FL. 895-938—S. & A. 644-10-2, DATED BANGALORE, 28TH AUGUST 1911.

ORDER THEREON.—It is proposed that considering the costliness and unhelthiness of life in the malnad, the officials of the Departments of Education, etc., may also be provided with quarters and given a local allowance of not less than Rs. 5 per month as those of the Departments of Revenue, Police, etc. The question of providing quarters for all classes of Government officers cannot be taken up for financial reasons; and as regards malnad allowance, Government in para 3 of their Order No. Fl. 3981-4025—S. & A. 539-04-6, dated 29th November 1906, explicitly stated that they were not prepared to grant such allowances to the officials of any Departments who were not already in receipt of the same. In pursuance of this Order, they also declined to sanction the recommendation of the Excise Commissioner in Mysore when he recommended the extension of the concession to his Department in April last. The question of malnad allowances cannot, in these circumstances, be reopened.

J. S. CHAKRAVARTI
Financial Secretary to Government.

Proceedings of the Government of His Highness the Maharaja of Mysore, Judicial and Legislative (Courts), dated 5th August 1911.

No. J. 482-6—Cts. 44-11-1, dated Bangalore, 5th August 1911.

Order—The Government of His Highness the Maharaja are pleased to sanction the following arrangements with effect from the 21st August 1911 :—

(1) The ordinary original civil jurisdiction of a District Court and the ordinary original criminal jurisdiction of a Sessions Court over the Revenue Districts of Bangalore, Kolar and Tumkur, conferred on the Chief Court of Mysore in Notification No. J. 3298—Cts. 198-06-3, dated the 26th April 1907, are withdrawn from the Chief Court.

(2) A District and Sessions Court shall be established in Bangalore with civil and criminal jurisdiction over the Revenue Districts of Bangalore, Kolar and Tumkur.

(3) The unlimited original civil jurisdiction conferred on the Subordinate Judge of Bangalore in Notification No. J. 3296—Cts., 198-06-2, dated the 26th April 1907, is withdrawn and his jurisdiction shall extend to all original suits and proceedings of a civil nature of which the amount or value of the subject matter does not exceed Rs. 10,000.

2. The Chief Court is requested to forward proposals at a very early date, for providing the necessary accommodation, establishment and furniture to the new District Court. It is believed that a part of the existing establishment of the Chief Court will be available for the establishment of the new Court.

3. The Chief Court is requested to keep all the pending first appeals in civil cases on its own file and dispose of them as soon as possible. If desirable and necessary, some of these pending appeals may be transferred to the District Court.

4. It is considered unnecessary at present to withdraw the jurisdiction conferred on the Chief Court under Section 14 of the Chief Court Regulation, but it is expected that the District Judge will be able to dispose of all civil and criminal appeals that would, in the absence of such jurisdiction, lie to his Court, and which may be transferred to him by the Chief Court.

5. The necessary notification will be published in the Gazette and provision for the new Court will be made in the Budget of 1911-12.

C. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rev. Depts.

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

(1) Government Proceedings No. J. 482-6—Cts. 44-11-1, dated 5th August 1911, sanctioning the establishment of a District and Sessions Court in Bangalore with effect from the 21st August 1911.

(2) Letter No. 771—49, dated the 12th August 1911, from the Registrar of the Chief Court of Mysore, forwarding proposals in regard to the accommodation, establishment, furniture, etc., required for the new District and Sessions Court :—

"With reference to paragraph 2 of the Proceedings of Government No J. 482-6—Cts. 44-11-1, dated the 5th instant, I am directed to submit for the consideration and orders of Government, the following proposals in regard to the accommodation, establishment and furniture for the new District and Sessions Court, Bangalore.

2. *Accommodation.*—After a personal inspection of the District Office Buildings and after consultation with the Deputy Commissioner of Bangalore, the Judges of the Chief Court are of opinion that the most feasible and convenient arrangement would be to transfer the Inam Commissioner's Office from the District Office Buildings to the rooms now appropriated for the Sessions work of the Chief Court and consisting of one hall 30′ × 28′, an adjoining room 24′ × 18′ and another room 14′ × 13′, all on the ground floor of the Public Office Buildings. It is believed that the accommodation will be ample for the office establishment of the Inam Commissioner. To save time the Inam Commissioner has been written to demi-officially and his reply* is awaited. If the rooms occupied by the Inam Commissioner's Office are set free, the District Court can reoccupy its old Court-house and rooms in the District Office Buildings, now in the occupation of the Sub-Judge. The rooms occupied by the Revenue Sub-Division Office now abolished being also available for the Civil Courts, the necessary adjustment in regard to the location of the Subordinate Judge's and the two Munsiffs' Courts, including their process establishments, will be made in consultation with the Deputy Commissioner.

* Since received and copy is forwarded herewith.

3. *Establishment.*—Prior to the abolition of District and Sessions Court of Bangalore in 1898, the establishment of the Chief Court consisted of 32 hands. Owing to the transfer of Original jurisdiction, 4 more hands were sanctioned When the District Court was re-established in 1903, the establishment was reduced by two hands and the post of Assistant Registrar and Manager was also abolished. It was then represented in this office letter No. 1463-54, dated 31st August 1903, that a larger reduction was not feasible owing to the marked increase of work (especially Criminal work). When the District Court was abolished and original work was in consequence assigned to the Chief Court in July 1907, the same establishment of 34 hands continued and was not added to. In the revision of establishment effected from 1st July last, two hands were done away with in order that the revision might not entail any extra cost. Some reduction of work was also then anticipated as the re-establishment of the District Court was under contemplation. Though it is not very convenient to spare any out of the existing 32 hands, yet, as the establishment of the District Court has to be formed without much extra cost, one official on a salary of Rs. 70 will be spared to take the place of Head Munshi in the new District Court.

4. The Deputy Commissioner says that by the new arrangement the Dodballapur Sub-Division will be of the 1st class and will have to be strengthened by the addition of one clerk on Rs. 20 and one clerk on Rs. 15 and that thus will set free from the abolished office of the Bangalore Sub-Division 1 clerk on Rs. 50, 1 clerk on Rs. 35, and the difference between the pay of a clerk on Rs. 25 and a clerk on Rs. 15, *i. e.*, Rs. 10. The sanctioned scale of the the clerical establishment of District and Sessions Court is as under :—

	Rs.
1 Sheristadar and Nazir on	100
1 Assistant Nazir on	35
1 Head Munshi on	70
1 Deputy Munshi on	50
1 3rd Munshi on	40
1 4th Munshi on	25
1 5th Munshi on	20
1 Head Clerk on	50
1 Deputy Clerk on	30
1 3rd Clerk on	20
1 Apprentice Clerk on ...	10

The additional establishment which will have to be sanctioned by Government will be a Sheristadar on Rs. 100, 3 munshis on Rs. 40, 25 and 20, and 3 clerks on Rs. 50, 30 and 20.

Proceedings of the Government of His Highness the Maharaja of Mysore,

5. The scale of the menial establishment of the District Court is as shown below.—

		Rs.
1	Mutchi on	12
1	Dafadar on	10
1	Daffarband on	8
2	Peons on	7 each
2	Peons on	6 each
1	Masalchi on	5
1	Sweeper on	5
1	Lascar on	7

The Deputy Commissioner says that the dafadar (pay Rs. 9) of the abolished Sub-Division, 2 peons on Rs. 7, 2 peons on Rs. 6, and a lascar on Rs. 7 are available. Thus the extra hands to be sanctioned are a mutchi on Rs. 12, a dattarband on Rs. 8, a masalchi on Rs. 5 and a sweeper on Rs. 5, besides an increase of one rupee to the pay of the dafadar.

6. *Furniture.*—With regard to the furniture, the immediate requirements of the new District Court can for the present be met from the furniture available in the Chief Court, and if any extra furniture is required the same will be intimated to the Chief Court by the District Judge, when the necessary action will be taken.

7. *Library.*—The Law Reports and other books, with the almirahs in which they were kept were sent to the Revenue Commissioner when the District Court was abolished. They may be ordered to be returned to the District Court.

8. *Tents.*—The tents of the late District Court were returned to Government. It is presumed that the District Judge will have to hold Circuit Sessions at Kolar and Tumkur. A hill tent, a rowti and a necessary tent will have to be supplied.

9. *Stationery.*—The Superintendent of Stationery may be directed to comply with indents from the Chief Court for the forms, registers and stationery required for the new Court.

10. *Contingencies, etc.*—A sum of Rs. 600 has to be provided for the contingencies of the new Court, as also a sum of Rs. 650 for travelling allowance to the Judge, Rs. 450 for his establishment and Rs. 800 for batta to witnesses in Sessions Cases for the remaining portion of the current year. Against these items the batta amount provided in the budget for the current year for the Chief Court is available minus Rs. 100 spent under that head already.

11. *Work.*—As there are no Sessions cases for trial before the 1st September, 50 appeals of small value which are ready for hearing and in which the parties are represented by Advocates, will be transferred to the District Court from the Chief Court so as to give the District Judge sufficient work to start with on the 21st instant.

12. I am to request the favour of very early orders as the establishment will have to be constituted before the date fixed for the opening of the new Court.

No. J. 610-15—Cts. 44-11-4, dated Bangalore, 17th August 1911.

Order thereon.—*Accommodation.*—The suggestion of the Chief Court that the Inam Commissioner's Office may be transferred from the District Office Buildings to the rooms now used for the Sessions work in the Chief Court, and consisting of one hall and two rooms on the ground floor of the Public Office Buildings, is approved.

2. *Establishment.*—The Government are also pleased to sanction the marginally noted clerical and menial establishment at an aggregate cost of Rs. 523 per mensem for the newly established Court at Bangalore. As against this expenditure the establishment of the Chief Court will be reduced by one hand on Rs. 50-4-70 and a clerk drawing the maximum pay in that grade will be transferred to the District Court to take the place of Head Munshi. The establishment set free from the office of the Revenue Sub-Division in the Bangalore District, abolished in Government Order No. R. 1007-10—L. R. 21-11-1, dated 5th August 1911, *viz.*, three clerks, one on Rs. 50, one on Rs. 35, one on Rs. 25, and six menials, one on Rs. 9, two on Rs. 7 each, two on Rs. 6 each and one Lascar on Rs. 7 should be absorbed, in filling the places on the establishment of the District Judge's Court.

		Rs
1	Sheristedar and Nazir on ...	100
1	Assistant Nazir	35
1	Head Munshi	70
1	Deputy Munshi	50
1	Third Munshi	40
1	Fourth Munshi	25
1	Fifth Munshi	20
1	Head Clerk	50
1	Deputy Clerk	30
1	Third Clerk	20
1	Apprentice Clerk	10
		450
1	Mutchi	12
1	Daffedar	10
1	Daffarband	8
2	Peons ... each ...	7
2	Peons .. each ...	6
1	Masalchi	5
1	Sweeper	5
1	Lascar	7
	Total ...	73
	Grand Total ...	523

Judicial and Legislative (Courts) dated 17th August 1911.

3. *Stationery.*—The Superintendent of Stationery is requested to supply the necessary forms, registers and stationery articles required for the new District and Sessions Court at Bangalore.

4. *Contingencies and furniture.*—The proposal of the Chief Court to provide a sum of Rs. 600 for contingencies; Rs. 650 for travelling allowances to the District Judge and Rs. 450 for his establishment; and Rs. 800 for batta to witnesses in sessions cases, is also approved. The Chief Court is requested to transfer to the District Court the funds that can be spared out of their grants under contingencies, batta to witnesses, etc., in consequence of the reduction of work in the Chief Court. The proposal in para 6 in regard to the supply of furniture is approved.

5. Separate action will be taken in regard to the supply of tents and the re-transfer of the Law Reports and other books from the Revenue Commissioner's Office to the District Court.

6. Due provision has been made in the current year's budget for the expenditure involved in the proposals sanctioned above.

C. S. BALASUNDARAM IYER,

Proceedings of the Government of His Highness the Maharaja of Mysore, Local Fund and Sanitary (Medical), dated 28th August 1911.

READ—

Report on the working of the Special Hospitals in Mysore for the year 1910 received with letter No. 414, dated the 31st May 1911, from the Officiating Senior Surgeon with the Government of His Highness the Maharaja of Mysore.

No. 1671-3—MED. 241-10-7, DATED BANGALORE, 28TH AUGUST 1911.

ORDER THEREON.—Recorded.

2. The attention of the Officiating Senior Surgeon is invited to Government Proceedings No. 1132-3—Med. 187-10-2, dated the 3rd August 1911, passing orders on the proposition statement for the revision of the establishment of the Lunatic Asylum referred to in para 26 of the report on the Asylum.

3. With reference to para 36 of the report on the Lunatic Asylum and para 7 of the report on the Leper Asylum, the Senior Surgeon is informed that the work of improving the accommodation for European females in the Lunatic Asylum and the additions and improvements to the Leper Asylum buildings will be taken up when funds can be made available for the same. Meantime and owing to the cramped condition of the existing building it is a point for consideration whether friends and relations of the infirm people concerned cannot take charge of the latter.

C. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rev. Depts.

To—The Officiating Senior Surgeon with the Government of Mysore.
The Officiating Sanitary Commissioner with the Government of Mysore.
The Chief Engineer of Mysore.

Proceedings of the Government of His Highness the Maharaja of Mysore, Local Fund and Sanitary (Education), dated 16th August 1911.

No. 1455-6—Edn. 46-11-6, dated Bangalore, 16th August 1911.

Order.—The Government of His Highness the Maharaja of Mysore desire to place on record their high appreciation of the services of the late Mr. Weir, Inspector-General of Education in Mysore.

2. Mr. Weir entered the service of the State on the 13th June 1890, as Principal of the Maharaja's College and, with short breaks, held that appointment till the 1st November 1909, when he succeeded Mr. H. J. Bhabha, as Inspector-General of Education. As Principal and Professor his acknowledged abilities as a sound mathematician and teacher and his courteous manner and strict impartiality as the head of an important institution won for him the affectionate esteem of his students and the confidence and regard of his colleagues and subordinates and of the public.

3. During the short time that he remained at the head of the Educational Department, Mr. Weir proved himself a capable and conscientious administrator deserving the confidence of the Government. By his sudden and untimely death in the prime of life, Government have lost a trusted officer who would have been of great service in developing and carrying out various schemes which the Government have at heart for the improvement of education in the State.

4. In recording their sense of the loss sustained by the Service owing to this sad event, Government also desire to convey to Mrs. Weir and her children an expression of deep sympathy with them in their bereavement.

C. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rev. Depts.

To—The Inspector-General of Education in Mysore.
Mrs. Weir.

READ—

Letter No 7511—574, dated the 28th February 1911, from the Inspector-General of Education in Mysore, submitting the Budget Estimates of the Industrial and other Special Schools in Mysore for 1911-12, together with an explanatory memo

MEMORANDUM

Budget Estimates of the Industrial and other Special Schools in Mysore for the official year 1911-12.

(A) RECEIPTS

I *Industrial School, Mysore* —The amount of receipts provisionally accepted for the current year was Rs 28,250, but the estimate has been revised as suggested in para 4 of Government Order No 1574-5—Edn 330-09-2, dated 15th August 1910, and the details stand as follows —

	Rs	a	p
(*a*) Carpentry class . . .	6,500	0	0
(*b*) Rattan class	600	0	0
(*c*) Blacksmith and machine class	3,000	0	0
(*d*) Pottery and modelling .	7,000	0	0
(*e*) Fees and miscellaneous receipts	150	0	0
(*f*) Drawing class ...			
Total	17,250	0	0

The estimate for 1911-12, which has been based on the actuals of the past three years, amounts to Rs 17,450, the income from the items (*b*), (*e*) and (*f*) being expected to increase by Rs 200.

II *Other Industrial Schools* —The receipts from the schools at Dodballapur, Chiknayakanhalli, Molakalmuru, Channapatna and Holenarsipur have been arrived at by taking the average for three years of the amounts actually paid into the treasury from the different schools The income from the Sagar school which is a new school is expected to rise by Rs 50, a sum of Rs 772-3-1, having been actually realised in 1909-10 Thus the receipts estimated for 1911-12, under this head amount to Rs 4,000 as against Rs 3,950 sanctioned for 1910-11

III *Engineering School, Mysore* —The income in the shape of fees from the Engineering School is expected to rise from Rs 984 to Rs 1,032 as detailed below —

	Number in the class	Scholars, free students and shekdars not paying fees	Paying students	Rates of fees	Amount per month	Amount per annum
				Rs	Rs	Rs
1 Senior class . .	15	3	12	4	48	576
2 Junior class .. .	20	3	17	2	34	408
3. Shekdar students ..	10	8	2	2	4	48
Total			..			1 032

The total amount of receipts under the three heads is thus estimated at Rs 22,482 against the sanctioned provisional estimate of Rs. 33,184 and the revised estimate of Rs. 22,184 for the year 1910-11

(B) EXPENDITURE

I. *Industrial School, Mysore* —Subject to the sanction of the additional grants proposed for the school, the same figures have been repeated as for the current year under all the subheads except under machinery and tools where the normal provision of Rs 1,000 has been entered in place of the special grant of Rs 6,000 sanctioned for 1910-11

Proceedings of the Government of His Highness the Maharaja of Mysore,

II. *Other Industrial Schools.*—Under this head the special grant of Rs. 100 sanctioned for a platinum thermometer for the Channapatna Industrial School and included in the lump sum grant of Rs. 156 is omitted, and the provision for Hosdurga scholarships in the Molakalmuru Weaving School is reduced from Rs. 600 to Rs. 252 as per Government Order No. 3810-1–Edn. 127-10-2, dated 5th November 1910, the total reduction being Rs. 448. The other items remain unaltered.

III. *Engineering School.*—The following variations have been made under this head:—

(1) The pay of the Headmaster has been raised from Rs. 3,000 to Rs. 3,600 as per Government Order No. 6910-2—Edn. 100-10, dated 18th February 1911, in consequence of the appointment of a Headmaster on a higher pay.

(2) Provision has been made for the increment, Rs. 24, of an Assistant Master in the grade 40-2-50.

(3) The pay of the Assistant Master on Rs. 50, for the training of Sanitary Inspectors is omitted, as the Assistant Master will not be employed.

These variations account for an increase of Rs. 24 in the total expenditure.

IV. *Scholarships held in Technical Schools outside the State.*—Provision has been made for the normal number of 30 scholarships. There are actually in force now 14 scholarships at Rs. 20, 7 at 15, and 1 at Rs. 40 sanctioned by Government Order No. 6087-90—Edn. 86-10-9, dated 18th January 1911; 1 at 35 and 3 at 20 have to be renewed. Consequently, including 4 vacancies, there will be 1 at 40, 1 at 35, 21 at 20 and 7 at 15 for the first seven months of 1911-12. As 7 scholars at Rs. 20 and 1 at 15 finish their course in January next and 10 new scholarships will have to be awarded for the next calendar year, provision has to be made for 1 scholarship at Rs. 40, 1 at Rs. 35, 16 at Rs. 15 and 22 at Rs. 20 for the remaining five months of 1911-12.

V. *Grants-in-aid.*—The only variation under this head is the omission of the grant of Rs. 540 of the Mahomedan Industrial School, Bangalore, as per Government Order No 1753—Edn. 365-08-4, dated 22nd August 1910. The grant of Rs. 180 paid to the Brass Work class at Magadi has been repeated, as it will be required for an aided Weaving class at Dommasandra (*vide* Government Order No. 3604-5—Edn. 106-10-2 of 3rd November 1910).

VI. *Sericulture.*

VII. *Travelling allowance to the Superintendent of the Mysore Industrial School.*—The provision under these two heads remains unaltered.

Concluding Remarks.—The budget estimates provide for receipts amounting to Rs. 22,482 and expenditure amounting to Rs. 78,723, against Rs. 33,184 and Rs. 84,747, sanctioned towards receipts and expenditure respectively for the current year. The figures under expenditure are subject to alteration after the additional grants proposed under the heads I, II, and III are sanctioned by Government.

BANGALORE,
27th February 1911.

J. WEIR,
Inspector-General.

No. 1408-9—EDN. 312-10-2, DATED BANGALORE, 15TH AUGUST 1911.

ORDER THEREON.—The Inspector-General estimates the receipts and expenditure of the Industrial and other Special Schools maintained from the Local Funds General for 1911-12 as shown below:—

	1910-11	1911-12	Difference
	Rs.	Rs.	Rs.
Receipts	33,184	22,482	—10,702
Expenditure	84,747	78,723	—6,024

2. The receipts for 1910-11 were provisionally fixed at Rs. 33,184 and the Inspector-General was asked to revise the estimate. He now states that the revised estimate would be Rs. 22,184. The estimated receipts for 1911-12, *viz.*, Rs. 22,482, have been based on the actuals for the past three years and are accordingly accepted.

3. The expenditure estimated by the Inspector-General, *viz.*, Rs. 78,723, provides only for the ordinary and other sanctioned charges and the variations are explained in the Inspector-General's memo. To this a sum of Rs. 11,607 will be added on account of the following charges, making a total of Rs. 90,330.

	Rs
(1) Additional charges sanctioned for the Engineering School, Mysore, in Government Order No 8293-4—Edn 287-10-2, dated 8th April 1911	527
(2) Additional charges sanctioned for the Industrial School, Mysore, in Government Order No 8980-1—Edn 295-10-2, dated 1st May 1911, and No 10069-70—Edn 295-10 dated 10th June 1911	9,800
(3) Additional charges sanctioned for certain Industrial Schools in Government Order No 8363-4—Edn 294-10, dated 11th April 1911	780
(4) Amount sanctioned for expenditure by the Committee for the Improvement of Industrial Schools, sanctioned in Government Order No 9628-30—Edn 462-09, dated 22nd May 1911	500
Total .	11,607

4. With these remarks the budget estimates of the Industrial and Special Schools in Mysore for 1911-12 are passed providing for an income of Rs 22,482 and an expenditure of Rs. 90,330 as per details given in the accompanying statements, abstract whereof is given below.—

		1910-11	1911-12
Receipts—		Rs	Rs
1	Industrial School, Mysore	28,250	17 450
2	Other Industrial Schools .	3,950	4,000
3	Engineering School, Mysore .	984	1 032

READ—

Letter No. 7983—626, dated the 18th March 1911, from the Inspector-General of Education in Mysore, proposing with reference to the remarks and suggestions of the University Inspection Commission, certain items of additional expenditure required for the Central College during 1911-12.

2 Correspondence ending with letter dated the 24th July 1911, from the same officer on the subject.

No. 1501-2—EDN. 324-10-6, DATED BANGALORE, 19TH AUGUST 1911.

ORDER THEREON.—The following items of recurring and non-recurring expenditure proposed for the Central College are sanctioned and the total amount required, *viz.*, Rs. 17,712, has been included in the Education State Fund Budget for 1911-12:—

Recurring.

	Rs.
(1) A demonstrator for Mathematics	70 per mensem.
(2) Do for Geology	70 per mensem.
(3) Do for Zoology	70 per mensem.
(4) Two Laboratory Attendants for the new Physics Laboratory at Rs. 8-1-12	16 per mensem.
Total recurring charges .	226 per mensem or 2,712 per annum.

Non recurring.

	Rs
(1) Physical Science Apparatus . .	10,000
(2) Lump-sum Library grant . . .	5,000
Total non-recurring charges ...	15,000

2. The appointment of a Mechanic recommended for the Physics classes on Rs. 50 per mensem has already been sanctioned in Government Order No. 9732-3—Edn. 324-10-3, dated 26*th* May 1911.

3. The existing arrangements for teaching Natural Science will be continued for the present. The question of appointing a Professor with European qualifications for Natural Science will be reserved for future consideration.

4. The unutilized portion of the Laboratory grants sanctioned during 1910-11, *viz.*, Rs. 38,200, has already been ordered to be included in the Budget for 1911-12 as recommended by the Principal of the Central College.

(1) Government Order No. G 221-4—G. M. 278-10-6, dated 10th July 1911, sanctioning a grant of Rs 1,00,000 to meet expenditure relating to the Conference and requesting the Chairmen of the Committees to furnish estimates of expenditure for 1911-12.

(2) Memorandum No. 3, dated 10th July 1911, of the Chairman, Industries and Commerce Committee of the Mysore Economic Conference, submitting the estimates of expenditure for the year 1911-12.

(3) Letter No 4, dated 11th July 1911, from the Secretary, Education, Committee of the Mysore Economic Conference submitting the estimates of expenditure for the year 1911-12.

(4) Letter No 11—A. C, dated 21st July 1911, from the Chairman, Agricultural Committee, submitting among other things the estimates of expenditure of the Agricultural Committee for the year 1911-12.

No. G. 843-7—G. M. 36-11-17, DATED BANGALORE, 7TH AUGUST 1911.

ORDER THEREON.—The budget estimates received with the above are sanctioned with certain modifications as shown below:—

The Chairman of the Industries and Commerce Committee has provided for expenditure during the current year of the whole of the sum of Rs. 50,000 allotted to the Committee. But as the allotment was made for the work of the Committee as a whole and not necessarily for the current year alone, the estimates under some of the heads are revised. Provision is also made for a few minor items not provided for in the Chairman's estimate.

Establishment	Industrial Committee	Agricultural Committee	Education Committee
	Rs	Rs.	Rs
I.—

Add or deduct for rounding	—150	—115	—16
	40,500	21,000	17,000

General (Miscellaneous), dated 7th August 1911.

2. Should the Committee need more funds later in this year for the items noted in the margin, it would be open to them to apply to Government for a further allotment.

(a) Experiments in industries.
(b) Payments to experts

3. Out of the amount available for the general expenditure of the Conference, an allowance of Rs. 50 per mensem is sanctioned to the Provisional Secretary to the Conference, who is also Secretary to the Committee for Agriculture. Any other necessary items of expenditure will be incurred under the orders of the President.

4. Government trust that the sums placed at the disposal of the three Committees will be expended with a due regard to economy. It is observed that the budgets now submitted do not make any provision for expenditure that may be necessary in connection with the District Committees. The sums placed at the disposal of the Committees are intended to meet all expenditure in connection with the Conference including that referred to above.

5. With reference to para 3 of the Government Order No. G. 221-4—G. M. 278-10-6, dated 10th July 1911, read above, Government are pleased to issue the ollowing directions :—

The expenditure on account of salaries of officers and establishment should be drawn on the usual pay bill forms and pre-audited by the Comptroller. The travelling allowances of the Members and of the Secretaries of the various Committees will be drawn on the usual travelling allowance bill forms, countersigned by the respective Chairmen. In regard to any allowances or honoraria which may be proposed to be paid to salaried Government servants in connection with the work of the Conference, the sanction of Government should be obtained in accordance with Article 52 of the Mysore Service Regulations. Money for contingent expenditure will be drawn on abstract contingent bills and accounted for by detailed contingent bills in the usual way. Other expenditure incurred will be accounted for to the Comptroller either as contingent expenditure or by the submission of work bills, etc., as the case may be. In regard to all other charges, the Chairmen will have full discretion to incur expenditure up to the limit of the grant provided in their respective budgets. To meet emergent expenditure for which prepayment may be necessary, a permanent advance of Rs. 300 to each of the three Secretaries is hereby sanctioned.

6. The Chairmen will be good enough to forward at the beginning of each month, before the 10th, an abstract statement of expenditure under all items incurred during the previous month, for the information of Government.

C. S. BALASUNDARAM IYER.
Offg. Secy. to Govt., Gen. & Rev. Depts.

To—The Chairmen of the three Committees.

Proceedings of the Government of His Highness the Maharaja of Mysore, Military, dated 23rd August 1911.

READ—

Letter No. 747, dated 9th May 1911, from the Inspecting Officer, Hyderabad and Mysore Imperial Service Cavalry and Mysore Transport Corps, stating that much delay is sometimes experienced in the supply of ammunition to the Mysore Imperial Service Lancers as a result of the present complicated procedure adopted in sending the indents and that the delay will make it very difficult for the Regiment to complete its course during the musketry year as the new course is more complicated than the old one and suggesting that the following procedure be adopted instead of that now in vogue:—

(i) The Commandant, Imperial Service Lancers, to send empties to the Military Stores and report to the Inspecting Officer and the Chief Commandant, Mysore State Troops, and indent for ball ammunition required.

(ii) The Inspecting Officer to send the delivery and receipt vouchers direct to the Chief Commandant, who will forward them to the Superintendent, Military Stores, immediately for necessary action.

(iii) The delivery vouchers for ball ammunition to be sent by the Inspecting Officer direct to the Chief Commandant, Mysore State Troops, who will return the same direct to the Inspecting Officer after check in the Military Stores.

(iv) The Chief Commandant, Mysore State Troops, to report to the Government after each consignment is checked and issued to the Regiment.

2. Unofficial note dated 10th June 1911, from the Chief Commandant, Mysore State Troops, on the same subject.

No. MILY. 230—278-10-2, DATED BANGALORE, 23RD AUGUST 1911.

ORDER THEREON.—Government observe that the existing procedure is very round about and tending to delay. The Chief Commandant, Mysore State Troops, also considers that time should be saved and has no objection to the course suggested by the Inspecting Officer being adopted. Government are therefore pleased to direct that the revised procedure suggested by the Inspecting Officer, referred to above, be adopted with the modification that the Chief Commandant, Mysore State Troops, will send to Government for information a copy of the indent referred to in sub-para (*i*) as soon as it is received in his office, and that the procedure relating to the adjustment of the value of ammunition supplied will continue as at present.

C. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rev. Depts.

The Chief Commandant, Mysore State Troops.

GOVERNMENT OF H H THE MAHARAJA OF MYSORE, GENERAL AND REVENUE DEPARTMENTS

Dated Bangalore, 1st August 1911.

CIRCULAR

When submitting recommendations for the appointment of Dharmadarsis to major Muzrai institutions in accordance with the revised rules issued in Government Order No 2144-53--M. F. 121-05-11, dated 26th February 1910, the Deputy Commissioners should hereafter invariably furnish a full description with particulars of caste, age, position, local interest, etc, of the persons recommended, in the form appended below.

By Order,
C S BALASUNDARAM IYER,
Offg. Secy to Govt, Gen & Rev Depts.

To—The Deputy Commissioners of Districts

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

Letter No. 123, dated the 24th July 1911, from the Muzrai Superintendent, in Mysore :

"I have the honour to submit herewith for the sanction of Government, bills for excess expenditure incurred in the Sri Gangadhareswaraswami temple at Sivaganga in the Nelamangala Taluk in each month from July 1909 to June 1911 (September, October, November 1910 and February 1911 excepted) and to state as follows :—

2. The temple is endowed with inam villages and minor inam lands yielding approximately an annual revenue of Rs. 2,757-2-9 as specified in the margin. The temple has also an annual cash grant of Rs. 116-6-0 (*i.e.*, Rs. 9-11-2 a month). Further it has been endowed by one Narasimha Sastri of Chitnahalli with the marginally noted assessed lands in Mallasandra village in the Tumkur Taluk yielding annually about Rs. 42 for use during the Makara Sankramana Jatra.

Inam villages	Income		
	Rs.	a.	p.
Sivaganga	1,664	8	7
Kuthaghatta	440	1	6
Gangenapura	207	0	9
Gorapura	147	7	11
Minor Inams.			
Wet lands near Devara Amanikere in Tumkur	95	0	0
Wet lands near Dasankere in Bellur	3	0	0
	2,757	2	9

Serial No.	Extent		Assessment		
	A.	g	Rs.	a.	p
19	4	36	5	8	0
160	0	11	0	4	0
29	2	26	14	0	0
8	7	30	9	0	0
72	5	14	5	0	0
	20	37	33	12	0

3. In docket No. 5261, dated the 16th May 1906, from the Muzrai Secretary to the Comptroller, it has been intimated that the scale of expenditure in this institution is as specified in the margin ; and a remark has been added to the effect that the Nityakatle and Hechukatle charges had not been revised and that the figures had been entered as per old scale.

	Rs.	a.	p.	
Establishment ...	678	0	0	a year
	or Rs. 56	8	0	a month.
Nityakatle ...	589	0	0	a year
	or Rs. 49	1	4	a month.
Hechukatle ...	332	15	6	a year

4. Of the sum of Rs. 49-1-4 provided for Nityakatle expenses, Rs. 9-11-2 (which is the monthly cash tasdik) is used for cocoanuts, plantains, ghee, honey and sugar for abhisheka and camphor, frankincense, betel leaves, nuts, vermilion, turmeric, etc., and contingencies. The balance, *viz.*, Rs. 39-6-2, is to be used for the purchase of rice for Neivedya and oil for lighting.

5. It has been the practice in this temple since the year Khara (1831) to use 6½ seers of rice a day for Neivedya and distribute it among the servants and 5 seers of oil for lighting. Further ¼ seer of rice is used for Neivedya to Maramma on Tuesdays and Fridays. This quantity could be purchased out of the monthly allotment of Rs. 39-6-2 if the prices of rice and oil were Rs. 12 a palla and Rs. 4 a maund.

6. On account of the fluctuation in prices the allotment has not been found sufficient for purchasing the usual quantity ; and as any reduction of the quantity of rice will affect the emoluments of the servants, it has been the practice to purchase the usual quantities though the allotment is exceeded.

7. It has also been the practice for the Amildar to submit the monthly bills of this institution to the Muzrai Secretary and latterly to the Muzrai Superintendent for countersignature. These countersigned bills, though in excess of the allotment, were being passed by the Comptroller till about September 1908 when he first objected to such bills. Thereupon, the Amildar was asked to submit two bills, one for the sanctioned allotment and another for the excess.

8. The excess bills up to the end of June 1909 were submitted to Government and sanctioned by them in their Order No. 324-5—M. F. 87-09-2, dated the 3rd August 1909, with an enquiry (*vide* office note) if it was not possible to reduce the quantities when the prices rose. With a view to enquire into the matter I kept back till now the bills subsequently received and have now submitted them.

9. A reduction of the quantity of rice will, as already stated, affect the emoluments of the servants and is therefore not desirable. Perhaps the quantity of oil may be reduced ; but even that is not necessary during the current year as the contract rates are Rs. 11-2-0 per

palla of rice and Rs. 4-10-0 per maund of oil. At these rates the cost of the entire quantity required during the year will be Rs. 475, which exceeds the annual allotment of Rs. 472-10-0 (Rs. 39-6-2×12) by only a small sum. If the Nityakatle allotment is raised from Rs. 49-1-1 to the round sum of Rs. 50 there will be no more trouble for the present.

10. This opportunity may also be availed of to revise the rates for Hetchukatle about which also there is an objection by the Comptroller. The amount allotted for Makara Sankramana Jatra is Rs. 156-10-6 out of the temple funds. To this, a sum of Rs. 36 being the income from Narasimha Sastry's endowment (referred to in para 2 above) has to be added and provision made now. Mithuna Sankramana and Maramma's Rathotsava, which do not appear to have been provided for already, have also to be provided for now. Special worship on His Highness the Maharaja's Birthday may also be ordered.

11. I have appended to this letter a scale of expenditure which I request Government may be pleased to sanction tentatively. The Amildar may also be authorized to draw the money every month according to this scale without any countersignature.

Should any further revision appear absolutely necessary I shall submit proposals later on.

12. I also request that the enclosed bills aggregating Rs. 84-15-1 for excess expenditure, may, in the circumstances of the case, be sanctioned."

No. 399-401—Muz. 56-11-2, dated Bangalore, 11th August 1911.

Order thereon.—Government are pleased to sanction the bills amounting to Rs. 84-15-1 for excess expenditure incurred in the Sri Gangadhareswaraswami temple at Sivaganga for Nityakatle services in the years 1909-10 and 1910-11.

They are further pleased to sanction the scale of expenditure proposed by the Muzrai Superintendent and appended to this Order. The Comptroller to Government is requested to authorize the Amildar to draw the money every month according to the sanctioned scale without the countersignature of the Muzrai Superintendent.

C. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rev. Depts.

To—The Comptroller, Mysore Government, with the bills.
The Muzrai Superintendent in Mysore.

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

Para 2 of Government Proceedings No. 313-4½—Muz. 115-92, dated 10th January 1893, according sanction to the temple of Sri Lakshminarayanaswami founded by one Shroff Venkatanarayana Setti in Seringapatam and its endowments being taken charge of by the Muzrai Department

Letter No. 510, dated 30th June 1911, from the Deputy Commissioner, Mysore District, submitting for the sanction of Government a scale of expenditure in this temple.

No. 436-8—Muz. 35-11-2, dated Bangalore, 17th August 1911.

Order thereon.—The temple of Sri Lakshminarayanaswami in Seringapatam Pettah was built by one Shroff Venkatanarayana Setti who endowed it with the lands described below and also set apart for the maintenance of this temple the interest due to him on a sum of Rs. 12,000 lent out to people:—

No.	Village	Survey number	Extent A.	g.
1	Chinnaikanahalli	32, 33, 34, 35 185—2, 186	9	17
2	Allapatna	54, 56, 59	8	26
3	Nelamane	.....	1	30
4	Yamkarakoppalu, beriz or assessment Rs. 49-12-9	. ....	.....	
5	Khura (Bagayat)	... ..	0	17

2. Venkatnarayana Setti's request that the management of the institution should be assumed by Government was complied with by the local officers whose action was approved in the order of Government read above.

3. The founder is reported to have fixed a scale of expenditure as specified in the margin,* but as the income for some time was not enough to meet this, most of the Hetchukatle services were stopped and expenditure shown in the margin† was being incurred. The income of the temple would be deposited in the Savings Bank and the money required every month for expenditure would be withdrawn therefrom. This system having been put an end to in accordance with the instructions of the Comptroller and the money having been withdrawn from the Savings Bank and credited to Muzrai Funds in favour of the institution, it has now become necessary to sanction a scale of expenditure in this temple.

	Rs.	a.	p.
*Establishment	... 350	0	0
Nityakatle	.. 223	3	8
Hetchukatle	. 171	8	0
Clothes	. 15	0	0
Kandayam	187	9	8
Total	.. 930	5	4

	Rs.	a	p
†Establishment	.. 336	0	0
Nityakatle	171	0	0
Hetchukatle	16	0	0
Kandayam	... 187	9	8
	713	9	8

4. The Deputy Commissioner estimates the income of the temple from all sources at Rs. 910, but as the surplus of Rs. 12,000 has been invested in the Mysore Government 4 per cent loan of the year 1906, the income may, as shown below, be taken to be Rs. 1,030 a year:—

	Rs.	a.	p.
1. Interest on Mysore Government 4 per cent Loan papers...	480	0	0
2. Cost of paddy from the lands	498	0	0
3. Gutta from the produce of the garden	26	0	0
4. Gutta from the produce of the cocoanut trees in the temple compound	2	0	0
5. Rent from shops	24	0	0
Total ...	1,030	0	0

5. Government are pleased to sanction for this institution the scale of expenditure appended to this Order. The amounts required for expenditure according to the sanctioned scale will be drawn on monthly bills by the Amildar. The Comptroller is requested to issue needful instructions in the matter and to register this temple as a major institution.

C. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rev. Depts.

To—The Deputy Commissioner, Mysore District, returning the records.
The Comptroller, Mysore Government.
The Muzrai Superintendent in Mysore.

READ—

The following correspondence* relating to the application of the Mysore Fruit Syndicate for watersupply to their vineyards near Sankey's reservoir at Bangalore:—

(1) Memo dated the 7th February 1911 from the Fruit Syndicate

(2) D. O. Letter No. 478, dated the 23rd March 1911, with its enclosure, from the Deputy Commissioner, Bangalore District, to the Huzur Secretary.

(3) Letter No. 498, dated the 16th March 1911, with its enclosures, from the Executive Engineer, Watersupply and Stores Division, to the Huzur Secretary.

(4) D. O Letter No. 304, dated the 17th March 1911, from the Superintendent, Bangalore Palace, to the Huzur Secretary.

No. 715-23—7182-90, DATED BANGALORE, 8TH AUGUST 1911.

ORDER THEREON.—The concessions asked for by the Mysore Fruit Syndicate will be found summarised in the concluding paragraph of their memorandum dated the 7th February 1911.

They are:—

(1) the retention of the concession regarding waste water from the Jewell Filters;

(2) the grant of a loan to the Syndicate for installing a more powerful pumping plant;

(3) permission to shift their pumping machinery to any available site in the vicinity, other than the bund of the pond, should such a removal be found necessary hereafter; and

(4) the undisturbed continuance of their right to utilise the percolation water by means of rams, pumping machinery and otherwise.

2. The question relating to the concession to utilise the waste water from the Jewell Filters, temporarily for three years, need not be considered in this connection. It will be dealt with separately.

3. Any application for a grant or loan for machinery, etc., should be made to Government in the Revenue Department.

4. The pumps should not be shifted without the special sanction of Government in the Public Works Department.

5. Lastly, as regards the alleged right of the Syndicate to utilise the percolation water of Sankey's reservoir by means of rams, machinery and otherwise, it is seen that permission to use the hydraulic rams belonging to the Palace was given to Mr. Paul in para 1 of the Public Works Secretary's No. 961—6620, dated the 22nd September 1906, but this permission cannot be construed into a right to the permanent possession and use of the Palace property. The rams belong to the Palace and the power to grant or refuse permission for their use rests entirely with the Palace authorities.

6. Also, from the correspondence it is observed that permission was granted to Mr. Paul to utilise only *as much of the percolation water as the rams were capable of pumping.* This cannot be taken as an unqualified permission to use as much of the percolation water as they wish.

7. The company originally intended to sink wells in their land, but it is doubtful if any well will yield sufficient water for irrigating 33 acres in this neighbourhood unless it is sunk close to the tank and the tank supply is indirectly utilised.

The available storage in the tank in a year of deficient rainfall is not likely to be very much more than is required for the extensive grounds and gardens attached to the Palace; and whenever the tank fails, the Palace will have to use the springs or percolation water below the tank.

Printed as accompaniments.

Public Works, dated 8th August 1911.

8. Under these circumstances, Government are pleased to direct that the supply of percolation water to the Fruit Syndicate be continued, provided—

(*a*) in times of short supply the Palace has the first claim to any water-supply available above or below the tank embankment;

(*b*) a nominal rate of Re. 1 per acre per annum is paid for the use of the water; and

(*c*) the right to the percolation water ceases to exist (unless expressly renewed by Government) in the event of the Syndicate stopping its operations or transferring the land to any other company or individual.

9. In future, every question regarding Sankey's reservoir or the use of its water will be discussed between the Government and the Palace authorities before any decision is arrived at.

M. VISVESVARAYA.
Secretary to Government, Public Works Department.

To—The President, Municipal Council, Bangalore City.
The Deputy Commissioner, Bangalore District.
The Revenue Commissioner in Mysore.
The Secretary to Government, General and Revenue Departments, with G. R. S. File No. Ml. 537-08.
The Huzur Secretary to His Highness the Maharaja of Mysore.
The Superintendent, Bangalore Palace.
The Executive Engineer, Water-Supply and Stores Division.
The Executive Engineer, Bangalore Division.
C. S. Doraswami Iyer, Esq., Secretary to the Mysore Fruit Syndicate.

ENCLOSURES]

Memo, dated the 7th February 1911, from the Mysore Fruit Syndicate, Ltd.

Viticultural operations were first commenced in September 1906 on the piece of land (measuring 13 acres and 19 guntas) lying between Mr. Watson's Bungalow and the road leading to Sankey's reservoir and the Government then kindly permitted the use of the water rams for the irrigation of this area. The Municipality appears to have raised objections at the time to the use of the water percolating from Sankey's reservoir for this purpose. On Mr. Paul's representation the Government overruled the objections on the ground that the water "belongs to the Palace Department and not to the Municipality," and allowed him to "use the water percolating from Sankey's tank for irrigating his lands," *vide* letter No. 1223-3—8185-6, dated the 5th December 1906, from the Secretary to Government, Public Works Department, copy attached.

2. About January 1907, a Syndicate was formed for the extension of the business and another block of 20 acres of land was obtained for cultivation. For the irrigation of the additional plot permission was obtained from the Deputy Commissioner, Bangalore District, for sinking a well below the Sankey's tank to collect the percolating water and for pumping the same up by means of an engine and pump.

3 The hot weather of 1908 demonstrated the utter inadequacy of the arrangements. The spring in which the well was sunk and the percolation thereabouts frequently dried up and further, owing to the distance over which water had to be conveyed, trouble was often experienced in the pumping and transmission arrangements. On application to Government permission was kindly granted in May 1908 to our putting up the engine and pump on the bed of Sankey's Reservoir and taking water therefrom for the irrigation of the vineyards.

4. Owing to deficient rainfall during the previous two years, the water level in the reservoir got unusually low in the hot weather of 1909 and the Water Supply Department seems to have raised objections to our taking water from the Reservoir. The matter was represented to the Huzur Secretary to His Highness in February 1909, for His Highness' gracious orders to continue the existing arrangements pending the final settlement of the question in due course.

5. Soon after torrential rains fell on one night and our pumping machinery was submerged in water. We were thereupon advised to shift the machinery to a spot on the bund of the pond below Sankey's reservoir. We approached the Deputy Commissioner, Bangalore District, who after personal inspection, selected the spot on which the plant is now placed as one unobjectionable from every point of view and permitted us to instal our pump on this site. Some months after the verbal permission was confirmed by an official communication dated the 10th March 1910, of which a copy is enclosed, stating that the well sunk near the pump was enough to meet our requirements and intimating "that the supply of water to the pond used as bathing ghat and also to the lands below, irrigated by the percolation water of the tank, should not be appreciably interfered with and that, in case this condition is not observed, the permission now granted will have to be withdrawn."

6. The limitation placed by the Deputy Commissioner in the letter quoted above seems to be inconsistent with the orders of Government conveyed in Mr. McHutchin's letter No. 1222-3—8185-86, dated 5th December 1906, by which unqualified permission has been given to us to use the water percolating from Sankey's tank, but we refrained from pursuing this point further at the time as we had meanwhile taken steps to obtain the waste water from the Jewell Filters.

Owing to the small pumping power of our plant and the height and distance over which water has had to be conveyed from the place where the engine is now installed, considerable difficulty was experienced in the irrigation of our vineyards. With a view to find a permanent solution of the water difficulty, we applied to the Government, in August 1909, for permission to use the waste water from the Jewell Filters, and at the suggestion of the present Chief Engineer, who has evinced much

interest in the industry, we submitted to him on the 13th March 1910 a representation explaining our proposals in some detail, the adoption of which, it was estimated, would involve an initial expenditure of Rs. 15,000. In June 1910 the Government gave us permission to use the waste water for three years on payment of Rs. 365 a year. The unexpected death of the Company's esteemed Chairman, the late Rao Bahadur A. Maigandadeva Mudaliar, in the same month, was a severe blow to the concern and the scheme could not be taken on hand as originally contemplated.

7. In our memo of the 28th December 1910 submitted to the Huzur Secretary, a proposal was made to shift our pumping plant to a spot outside the premises of the Palace Pumping Station below the Sankey's reservoir, and in a letter addressed to the Chief Engineer on the 21st January 1911, we expressed our desire to retain the concession regarding the waste waster from the Jewell Filters and suggested that this water might, for the present, continue to flow into the Sankey's reservoir. Our representations were discussed at a meeting held at the Palace Pumping Station on the 2nd instant, at which the Chief Engineer, the Huzur Secretary, Mr. Krumbiegel, the Deputy Commissioner and the Secretary of the Fruit Syndicate were present.

8. The Company are much beholden for the kind and sympathatic consideration which has been given at the meeting to the question of water supply. The drawbacks in the existing arrangements are these:—

First.—The intimation contained in the concluding portion of the Deputy Commissioner's letter of the 10th March 1910, which is referred to in paragrah 5 *supra*, might possibly be regarded as importing a temporary character to the permission granted for the use of the percolation water.

Secondly.—The inadequate capacity of our existing plant to convey water to the vineyards.

The first is apparently the result of a misapprehension. As pointed out above, the Government have already given us permission to use the water percolating from Sankey's reservoir, and as advised by the Deputy Commissioner, our plant is placed near a well ahead of the pond and not on the bund as originally intended. The present arrangements can scarcely interfere with the use of the pond for bathing purposes.

The second is a serious drawback and can be got over only by the replacement of the present pipes and plant by a bigger pipe line and more powerful machinery. We are informed that this would involve an initial expenditure of about Rs. 3,000 which the Company is hardly in a position to incur at present. The Company has spent much and has unexpected difficulties to contend against in establishing this industry, the success of which is in sight. But the water supply problem has been a drag in its course and the lamented death of Mr. Maigandadeva Mudaliar and the heavy expense at which every stage in the process of development has to be reached have crippled their resources.

9. It was under these peculiar circumstances that we were obliged to approach His Highness again through the Huzur Secretary for permission to remove our plant and machinery higher up near the hollow in which the waste water from the Palace Pumping Station is collected, and the Huzur Secretary was so kind as to arrange for a conference in which the whole matter was threshed out in all its detail in a most sympathetic manner. In pursuance of the result then arrived at, the Company are prepared to withdraw their application for the removal of the pump from the present site, but they apprehend that unless new machinery of a greater capacity is installed and a bigger pipe line is laid on, the water supply will continue to be precarious. They therefore beg to request—

(*a*) that their rights to utilise the percolation water of the Sankey's reservoir by means of the rams, pumping machinery and otherwise may be continued undisturbed;

(*b*) that their pumping machinery may be allowed to remain in the site in which it is installed at present, and that it may be permitted to be shifted to any other suitable place in the vicinity other than the bund of the pond, should such removal be found necessary hereafter.

(c) that a sufficient grant for the purpose of procuring a suitable pumping machinery and a bigger pipe line may be kindly sanctioned.

As the question of water-supply is pressing hard, we will be thankful if very early orders can be passed in the matter.

D. O. Letter No. 478, dated the 23rd March 1911, from the Deputy Commissioner, Bangalore District, to the Huzur Secretary to His Highness the Maharaja of Mysore.

With reference to your D. O. letter No. 661, dated the 13th February 1911, calling for an expression of my views about the concessions asked for by the Mysore Fruit Syndicate in regard to the irrigation of their vineyards, I beg to state that the question of granting the prayer of the Syndicate involves a consideration of how far vested interests would be affected.

The Sankey's reservoir is connected with the Dharmambudi tank near the City Railway Station and the latter tank depends for the supply of water on the former, the feeder channels being still in fairly good condition. It is true that after the completion of the Hessarghatta water project, the people of the Bangalore City do not depend for their drinking water supply on the Dharmambudi tank. But the proposal of converting the Dharmambudi tank into a park with two reservoirs in it for bathing and washing purposes having fallen through, it has become necessary to have water always in it to a sufficient depth to prevent (as remarked by the Senior Surgeon and Sanitary Commissioner in another connection) the formation in the tank bed of small pools of water which give rise to the breeding of malarial germs. In view to secure a constant and sufficient supply of water to the Dharmambudi tank, it may be necessary to conserve, as far as possible, the available quantity of water in the Sankey's reservoir after meeting the requirements of the Palace gardens.

Now as regards the water percolating from the bund of the Sankey's reservoir, the claims of the Mysore Spinning and Manufacturing Company, the owners of the wet and garden lands situated on both sides of the percolation channel and lastly of the residents of the Malleswaram extension, have to be considered. The water percolating from the Sankey's tank feeds not only the pond above the dam below the reservoir which is used by the residents of Malleswaram extension as a bathing ghat, but it also helps in raising the level of water in the irrigation wells in the gardens alongside the water course. It is ascertained both from local enquiry and the records, received from the Survey Department, that several wet and garden lands of jodi Ranganathapura and Jakkasandra villages are dependent either directly or indirectly on the water of the Sankey's reservoir. Further, the surplus percolation water feeds the Jakkarayana tank which is the only source of water for working the mill since its construction and commencement of operations about 25 years ago. It may be mentioned here that the Mysore Government have a large interest in the Mills.

The circumstances under which and the conditions subject to which, permission was given to the Mysore Fruit Syndicate to sink a well on the outskirts of the pond wherein the percolation water is collected and to pump up water therefrom for irrigating their vineyards, are fully set forth in my letter to Government No. S. 488, dated the 18th March 1910, copy of which is enclosed for ready reference. The irrigational facilities now granted to the Fruit Syndicate, which could at least be considered as only tentative, have already given rise to loud complaints on the part of the Malleswaram residents and the Agent of the Mysore Spinning and Manufacturing Company. The latter has put in a petition to Government (which has been received here for report) in which he has among other things objected to the grant of permission to the Fruit Syndicate to utilise the percolation water, and has further alleged that much difficulty is likely to be experienced in working the mill during summer for want of an adequate supply of water in the Jakkarayanakere, owing to the Fruit Syndicate drawing off the percolation water for irrigating their lands.

It was in consideration of the fact that viticulture was a new industry and as such deserved encouragement at the hands of Government, that permission was granted to the Fruit Syndicate to utilise the percolating water for irrigating their gardens, so as not to *appreciably* interfere with the supply of water to the pond used as bathing-ghat and to the lands below which depend for their irrigation on this percolation water. Any further grant of the concessions now asked for by the Syndicate seems to be inexpedient, as it is likely to affect prejudicially the interests of the parties referred to above, inasmuch as the tentative grant itself has been loudly complained of.

All circumstances considered, I think the Mysore Fruit Syndicate would do well to make their own arrangements for their water supply at an early date, either by availing themselves of the use of the waste water from the Jewell Filters, or by sinking irrigation wells, as originally contemplated by the Fruit Syndicate, and till then, the present arrangements may continue.

Letter No. S. 488, dated 18th March 1910, from the Deputy Commissioner, Bangalore District, to the Secretary to the Government of His Highness the Maharaja of Mysore, General and Revenue Departments.

With reference to your docket No. 274—Ml. 537-08-2, dated the 8th July 1909, forwarding for report the petition from the residents of the Malleswaram Extension *in re* the well sunk near the reservoir to the south of the Sankey's tank by the Mysore Fruit Syndicate, I have the honor to state that Mr. J. Paul to whom an extent of 13 acres and 19 guntas of land forming part of the catchment area of the Sankey's tank was granted by Government for fruit culture in Proceedings No. R. 5191-3—L. R. 123-06-6, dated 21st November 1906, applied for permission to use the hydraulic rams and the water percolating from Sankey's tank for irrigating the said land and the same was sanctioned by Government (*vide* Public Works Department Secretary's letter No. 1222—8185, dated 5th December 1906, to the address of the President, Bangalore City Municipal Commission, copy of which is herein enclosed for ready reference). It will be seen from the said communication that the objection raised by the President to Mr. Paul's using the percolation water was overruled by Government on the ground that the amount of water which the rams are capable of pumping belongs to the Palace Department and not to the Municipality.

2. In January 1907, Mr. Paul requested the Deputy Commissioner to grant him permission to sink a well below the Sankey's tank and erect a small building for fixing the engine and pump in view to enable him to irrigate the 20 acres of land applied for by him for viticulture and subsequently sanctioned by Government in Proceedings No. R. 8119-20—L. R. 123-06-8, dated the 8th March 1907. The then Deputy Commissioner (Mr. Sparkes) granted the permission sought for on the ground that the land in which the well was proposed to be sunk is kharab and that the sinking of a well there would in no way diminish the supply of water in the reservoir, (*vide* letter No. R. 2476, dated the 18th January 1907, to Mr. Paul, copy enclosed).

3 It may be stated here that the water in the well referred to above was that formed by the percolation from the bund of the Sankey's tank above. Lower down to the south of the tank a big reservoir has been constructed by Government by putting up a masonry dam across the percolation channel. This reservoir or pond is being used by the residents of the Malleswaram Extension as a bathing-ghat.

4. In April 1908, Mr. Paul represented to me that the earthen bunds put up round the well for storing the percolation water were often damaged by stray cattle, etc., resulting in much wastage of water and expenditure in repairs and further that the locality where the pump and the engine were put up in pursuance of the permission granted by Mr. Sparkes was found unsuitable in practice. He therefore requested permission to remove the engine and pump from their original site, and place the same on or near the lower pond into which the percolating water finally enters. After inspecting the locality Mr. Paul was informed by me that his request to set up the engine and pumping machine on the bund of the pond could not be

complied with as any direct interference with the water of the pond might be objected to by the residents of the Malleswaram Extension who are using the pond as bathing-ghat. In view, however, of the fact that Mr. Paul of the Mysore Fruit Syndicate had already been allowed by Government to use the percolating water and also to sink a well in the kharab land below the Sankey's reservoir, he was informed in my letter No. R. 3740, dated 26th May 1908 (copy enclosed) that there was no objection to his sinking a well anywhere in the locality below the Sankey's tank or near the pond lower down.

5. The Chairman of the Syndicate in his application dated the 20th April 1909, having again applied for permission for using the pond as an alternative source of supply for irrigating their vineyards by means of engine and pumps, his attention was drawn to the reply already given to Mr. Paul in the matter.

6. On the authority of the permission granted in this office letter No. 3740 of 26th May 1908, the Mysore Fruit Syndicate have sunk a well just on the outskirts of the pond at its northern end and are pumping up water therefrom to their garden by means of an oilengine and pumping machine. It is against this that the petitioners have complained to Government.

7. I beg to state that usually the water in the pond overflows the dam in the rainy season, but during the summer season the surplus water runs only through the sluice in the dam. I delayed the submission of this report with a view to see what the effect of pumping up water in the well sunk by the Fruit Syndicate would be on supply of water in the pond. But till now there has not been any appreciable diminution of supply of water in the pond. But as a safeguard against the possibility of the water in the pond being drained off by the Syndicate for irrigating their lands to the disadvantage of the Malleswaram residents and others, I have intimated to the Chairman of the Syndicate in my letter No. R. 2092, dated 10th instant (copy enclosed) that the grant of permission to use the percolation water in the well sunk by them is subject to the condition that the supply of water to the pond and also to the lands below which are irrigated by the percolation water of the tank is not appreciably interfered with.

8. The petition received with the docket under reply is herewith returned.

Letter No. 498, dated the 16th March 1911, from the Executive Engineer, Water Supply and Stores Division, to the Huzur Secretary to His Highness the Maharaja of Mysore.

With reference to your D. O., dated the 13th February 1911, enclosing a petition from the Secretary, Fruit Syndicate, regarding the question of their using the water from Sankey's tank and requesting my opinion in the matter, I have the honour to enclose herewith a memo giving a history of the case as far as I am aware. From this you will see that the Syndicate has been steadily establishing one right after another in their favour ever since they started. First of all they were content with the percolation water from the tank, as much as the rams can pump; then they supplemented their plant by adding an oil engine and pump and now want to replace the latter plant by a more powerful one. As long as the Syndicate were content with the use of the percolation water from the tank, I had nothing to complain; but when they erected the plant inside the tank bed and wanted to use the tank water directly, I raised a strong protest.

As regards the present request of the Syndicate, I have appended a memo giving my opinion on each of the requests of the Syndicate. You will note from my replies that I have tried to explain clearly that, (1) the water available in the Sankey's tank is not much; (2) that it is barely sufficient for the requirements of the Palace. So any concession given to the Syndicate should be such as not to affect prejudicially the needs of the Palace.

The proposal casually mentioned in the letter by the Syndicate to lead the wash water of the Jewell Filters to the Sankey's tank and their paying for the same, implies, if I am not mistaken, permission to take that much water from the tank again. For obvious reasons such an arrangement is not desirable and should be therefore not sanctioned.

MEMO.

The history of the case is as follows :—

(1) Mr. Paul got a piece of land lying between Mr. Watson's Bungalow and Sankey's tank, measuring 13 acres and 19 guntas, from Government for vine culture as per Notification No. R. 5191-3—L. R. 123-0-6, dated the 21st November 1906.

(2) The extent of land was increased by 20 acres as per Government Notification No. 2119-20—L. R. 123-06-2, dated the 8th March 1907.

(3) Mr. Paul, in reply to a petition to the Dewan, got permission for the use of the water rams erected below the bund of Sankey's tank for the use of pumping water to Palace grounds before the erection of the oil engine pumping installation. See Public Works Secretary's No. 961-6620, dated the 22nd September 1906 to the address of Mr. Paul.

(4) Mr. Paul further obtained permission of Government to the use of percolation water below the tank to the extent of the pumping capacity of the rams.

(5) The pumping capacity of rams was gauged by this Department and found to be 6 gallons per minute or 8,640 gallons per day of 24 hours.

(6) Sometime afterwards the Fruit Syndicate purchased an oil engine and a force pump and installed it near the rams. The water for the pump was obtained from a well dug below the tank bund and where the percolating water from the tank was all collected.

(7) As long as there was plenty of water in the Sankey's tank, there was a liberal supply from percolation, but when the tank ran almost dry in the hot months of the year 1909, the Syndicate had no water to pump.

(8) They then shifted the pumping plant into the bed of the tank and began to use the water directly from the tank.

(9) This Department objected to the use of water of the tank, as it was specially reserved for the use of the Palace Department.

(10) On a special request made by the Syndicate, the Huzur Secretary permitted the use of the water tentatively till the final solution of the question.

(11) On the Sankey's tank filling again at the end of this year, the Syndicate again shifted the plant and located it this time close to the "Katte" below the Sankey's tank.

MEMO.

REQUESTS OF THE FRUIT SYNDICATE.	OPINION OF THE EXECUTIVE ENGINEER, WATER SUPPLY AND STORES DIVISION.
(a) That their rights to utilize the percolation water of the Sankey's reservoir by means of the rams, pumping machinery and otherwise may be continued undisturbed.	As regards the utilization of the percolation water from the tank for pumping to the Syndicate gardens, I have no objection, provided there is a limit to their pumping capacity. The average amount of water stored in the tank every year is from 28 to 30 units. Allowing 50 per cent for evaporation and percolation, the supply available for pumping is 14 to 15 units. The capacity of the present Palace pumping plant is 150 gallons per minute or $\frac{1}{10}$ million gallons per day of 12 hours. Assuming 250 pumping days, the total quantity pumped is 25 M. G. or 16 units. The supply in the tank is just barely sufficient for the requirements of the Palace.

	The supply lost by the tank in evaporation and percolation is, as above stated, 14 to 15 units. Out of this ⅓ of the quantity can be taken as that percolating through the bund *i.e.* 5 units. As long as the Syndicate do not draw more than this quantity, there is no fear of their utilizing the storage reserved for the Palace. This gives the pumping capacity of the plant to be 30,000 gallons per day.
	The rams are the property of the Palace and the further use of these by the Syndicate for pumping purposes can be done only if the Palace authorities have no objection.
(*b*) That their pumping machinery may be allowed to remain, etc.	As regards the first point, I have no objection to their stopping at their present place, but I do not like their idea of their moving up close to the Palace Pumping Station, as I am sure there will be continual friction between the staff of both Pumping Stations if they were close together
(*c*) That a supply, etc.	This is a point for the Government to decide.

D. O. No. 304—P., dated the 17th March 1911, from the Superintendent of the Bangalore Palace, to the Huzur Secretary to His Highness the Maharaja of Mysore.

I am sorry not to have been able to reply earlier to the reference regarding Sankey's tank, but I have been trying to get definite information on some points connected with the rams and their supply-pipe but which does not seem to be available.

2. Now as to the water requirements of the Palace garden, it must, at the outset, be stated that the present supply is insufficient.

His Highness has had good lawns made around the Palace at great expense, and these improvements are to be extended so as to include the ground as far as the Ferneries, Main Gate, Old Gunshed, Racquet Court and Sewage Farm. Then come the Orchard, which is now growing up, and the proposed fountains.

3. To get adequate pressure for more careful watering and also increase the quantity, it is necessary as already discussed, that an electric motor of required horse power be put in, and the present engine be kept as a stand-by. It is also necessary that the number of the rams be increased by two and the four rams be used as an independent supply for watering the new shrubberies and orchard by irrigation, for, if we take the water required for this from the pipe-system, the sprinklers will not have enough pressure to work them. Moreover, in times of drought when the Sankey's reservoir runs low, these four rams will be the only means of supply; they will then have to be connected up with the pipe distribution-system and open irrigation will have to be stopped.

4. During the last scarcity we lost a considerable number of plants and the garden generally suffered, because the Fruit Syndicate not only had the entire use of our rams for pumping all the percolation water, but with complete disregard of our requirements, they also put their engine into the bed of the tank itself, cutting off even that small original source from our engines until, on the complaint of the Executive Engineer, we remonstrated.

Of course, we tided over the difficulty as best we could and did not even reclaim the use of the rams so as not to put any difficulties in the way of the Syndicate, for we all sympathise with their endeavours.

5. The Syndicate's position in this crisis was this:—

They had, in the first place, the concession to use our rams and the percolation water, which concession I consider the late Chief Engineer was hardly authorised to make without reference to the Palace. In the second place they had (as stated in para 3 of their memo now under correspondence), permission from Government to put their engines in the reservoir itself. I have not seen the correspondence granting this permission and cannot judge its nature, still the Syndicate had evidently done nothing they were not authorised to do.

Two facts, however, stand out:—

(1) That as shrewd business men they must have known that there were weak points in the concessions; that the concession during this very crisis vitally conflicted with the interests of the Palace.

(2) That, in spite of this, full use of the concession was claimed and more were lately asked.

6. It would therefore be a false sympathy to shirk at this stage the duties of effecting a clear settlement of the question by understanding our requirements, because in the event of another water-famine this would put both the Syndicate and ourselves in a false position and in renewed difficulty.

7. In view of our requirements as stated in para 3, our position towards the concession now asked for in the Syndicate's memo must be:—

(*a*) The use of the rams should be discontinued as they will be generally required during ordinary seasons and absolutely during a water scarcity. The use of the percolation water so far as it accumulates at the present site of their engine, can I think, be granted without detriment to our requirements, though it is the best source during a scarcity continuing even after the tank itself is dry.

(*b*) No removal of the engines towards or into the tank is feasible as that could only be required during scarcity.

The Syndicate under sub-para (*c*) ask for a grant, which question does not concern us directly, but better engines and pipes are their pressing need, and if the Syndicate can sink a good well, for use during any water scarcity, grant in this direction will be of more real service to them than any untenable permission to the use of the tank water.

Proceedings of the Government of His Highness the Maharaja of Mysore, Public Works, dated 23rd August 1911.

READ—

Government Proceedings No. 291-324—2149-82, dated the 26th March 1908, promulgating modified rules for the levy of rents on Government buildings used as residences, their maintenance and improvement, etc.

No. 761-799—7648-86, DATED BANGALORE, 23RD AUGUST 1911.

ORDER THEREON.—The present procedure under which a building is entrusted to the charge of the Public Works Department, while in occupancy, and to the Revenue Department, when unoccupied, has in practice been found inconvenient. Government, therefore, direct that the following paragraphs be substituted for paragraph 7 of the Government Order read above :—

"The custody of all unoccupied buildings will hereafter rest with the Public Works Department which will be held responsible for their condition and cleanliness. All proposals for their occupation either for public purposes or as residences of Government officers or others will be sanctioned in that Department."

"Watchmen may, if considered necessary, be employed at Government cost only when a building is vacant."

Proceedings of the Government of His Highness the Maharaja of Mysore.

No. 411-443, DATED BANGALORE, 22ND AUGUST 1911.

ORDER.—The subject of the rules under the Mysore Mines Regulation, IV of 1906, has been under the consideration of Government for some time past. After careful study of the working of the rules prescribed under the Mines Regulation, III of 1897, and after consultation with those actully engaged in mining industry in Mysore, the Government of His Highness the Maharaja of Mysore are pleased to direct the issue of the following Notification.

E. W. WETHERELL,
Offg. Secy. to Govt., Geol. Dept.

To—The Chief Inspector of Mines in Mysore.
The Deputy Commissioners of Districts.
The Secretary to Government, General and Revenue Departments.
The Registrar, Chief Court of Mysore.
The Inspector-General of Police in Mysore.
The Superintendents of Mines in Mysore.

NOTIFICATION.

No. 444, dated Bangalore, 22nd August 1911.

In supersession of the rules prescribed under Sections 11 and 28 of the Mysore Mines Regulation, III of 1897, and published under Government Notification (Geological) No. 94-M., dated 9th December 1897, and subsequently amended, the Government of His Highness the Maharaja of Mysore, in exercise of the powers conferred on them by Sections 21 and 37 of the Mysore Mines Regulation, IV of 1906, are pleased to prescribe the following Rules:—

By Order,
E. W. WETHERELL,
Offg. Secy. to Govt., Geol. Dept.

RULES PRESCRIBED UNDER SECTIONS 21 AND 37 OF THE MYSORE MINES REGULATION (IV OF 1906).

I. Preliminary.

1. In these Rules the word "Regulation" shall mean the Mysore Mines Regulation, IV of 1906, and all words defined in that Regulation shall have the same meaning in these Rules.

2. In these Rules—

(1) "Chief Inspector of Mines" means the Senior Inspector of Mines for the time being.

(2) "Chief Underground Agent" is the officer of the mine who is in charge of the whole of the underground portion thereof under the direction of the Superintendent.

(3) "Assistant Underground Agent" is an officer whose duty it is to assist the Chief Underground Agent.

(4) "Chief Engineer" is the officer in charge of all the machinery of the mine.

(5) "Assistant Engineer" is an officer whose duty it is to assist the Chief Engineer.

(6) "Mining Officer" includes the Superintendent, Chief Underground Agent, Chief Engineer, Accountant, Assayer and Cashier and their respective assistants, and others holding posts of equal importance.

(7) "Underground Foreman" is a subordinate official of the mine to whom the detailed execution of part of the duties of a Chief or Assistant Underground Agent is delegated.

(8) "Timberman" means a miner whose duty it is to see that the fixing of timber is done in a proper and workman-like manner.

(9) "Workman" includes every person engaged in mining operations, and inferior in position to an Underground Foreman or Timberman.

(10) "Working place" means any place above or below ground where any mining operation is being carried on, and includes any winze, pass, way or other means of access thereto which is not used for general travelling purposes.

(11) "Working party" means a party of two or more men working at the same working place.

(12) "Blaster" means a workman employed in blasting operations, who prepares charges of explosives, charges holes and fires shots.

(13) "Mestri" means any workman in charge of a working party.

(14) "Banksman" means a workman stationed at the shaft top, specially appointed to superintend the raising and lowering of materials, tools and persons, and the transmission of signals between the shaft top and the Engine Driver and between the shaft top and the stations below ground.

(15) "Platman" means a workman specially appointed to superintend the loading and unloading of materials, tools and persons at any station below ground, and the transmission of signals between such station and the shaft top.

(16) "Contractor" is a person who contracts to drive, sink, or stope, clear dirt or do any other work for a consideration calculated on the work performed, and who employs workmen who are paid by him and are not in the direct employment of the company.

(17) "Contractor's Mestri" means any mestri in charge of a working party working under a contractor.

(18) The "Immediate Superior" of any person employed in a mine is the person, whether a Mining Officer or Foreman or Timberman or Contractor or Mestri, from whom he takes orders. In the case of a workman other than a mestri, it will generally be the person in charge of his working place.

(19) "Medical Officer" is the duly qualified person appointed by the Proprietor to have medical charge of the persons employed. Any person with the qualification required for an Assistant Surgeon in the Mysore Medical Service or any superior qualification shall be considered duly qualified for the purpose of these rules. If no Medical Officer shall be appointed by the Proprietor, the Civil or Assistant Surgeon of the District shall be the Medical Officer of the mine for the purpose of these rules.

(20) "Shaft" means any adit or vertical or inclined way or opening leading from the surface to the underground workings or from one portion of the underground workings to another, which is or might be used for winding, draining, travelling or ventilating purposes in connection with prospecting or mining operations.

(21) A "Sinking Shaft" is a shaft exclusively devoted to its depth being increased.

(22) "Winze" means a small underground shaft, either vertical or inclined.

(23) "Timber work" shall include masonry, iron-work or other means of securing ground.

(24) The expression "these rules" includes any general or special rules prescribed by the Government under Sections 21, 22 and 37 of the Mysore Mines Regulation, 1906.

Geological, dated 22nd August 1911.

II. Protection of the Surface.

3. Places where mining operations have caused large cracks and falls of earth on the surface, or where such are likely to occur, must be properly fenced in.

4. For the protection of public squares, roads, railways, cemeteries, rivers, water-rights, buildings and other property on the surface, the reefs, or other mineral deposits must be left intact for such depth below them and for such horizontal distance as an Inspector of Mines shall prescribe.

5. All excavations made contrary to the provisions of the preceding rule shall be immediately filled up with rock, sand or earth by the person or persons responsible for such excavations, failing which they shall be filled up by the Proprietor of the mine or by the Government at his expense.

6. The top and side entrances of all shafts that are more than 10 feet deep must be kept securely fenced or covered, except so far as may be necessary to allow of mining operations being efficiently carried on. The fence may be removed for necessary work if due precautions are taken.

7. When any shaft, trench or other excavation more than 10 feet deep, made in the course of mining operations, is or has been abandoned or the working thereof discontinued at whatever time the abandonment or discontinuance occurs, the Mining Proprietor and every other person interested in the land in which such excavation is situated shall, without delay, either fill up such shaft, trench or other excavation, or protect the same by a substantial stone barrier on all sides at least 3 feet, 6 inches high and 2 feet thick.

Provided that this rule may be relaxed with the consent of an Inspector of Mines or of the Deputy Commissioner of the District in the case of an open working of which no side has a steeper slope than 45°, and which is not considered to be dangerous.

8. In digging prospecting trenches the materials excavated must be used to form approximately equal ridges on all sides.

9. In open workings the overburden and all loose ground and materials shall be removed sufficiently far from the edge or otherwise, and made secure to prevent danger to persons employed in the mine.

10. The sides of open workings shall be sloped, stepped or secured in such a manner as to prevent danger from falls of material, and no side shall be cut or worked so that any portion of it projects or overhangs.

11. When any side of an excavation or open working, or portion thereof, which exceeds 10 feet in depth, has a slope which is steeper than 45°, the top of such side shall be protected by a suitable fence or barrier to prevent persons inadvertently falling into or entering the same.

12. Entrance to, or working in, any portion of an open working which is considered to be dangerous is prohibited, and access thereto shall be prevented as far as possible by efficient barriers.

13. Inadvertent access to water which contains poisonous or injurious chemicals used in mining operations must be prevented by fencing or other effectual means, and notices must be put up in suitable places warning persons against using such water.

III. Workmen.

14. Registers shall be kept at every mine of (1) the names of all persons directly employed by the Proprietor; (2) the names of all contractors with the number of persons they respectively employ; (3) the names of all platmen, mestris, blasters and engine drivers (if any) employed by contractors; (4) the number of females engaged in mining operations; (5) the number of persons below the age of twelve years engaged in mining operations.

The register shall also state whether such persons are employed above or below ground.

15. Every driver of a winding engine or locomotive and every blaster and underground mestri is required to hold a certificate in that capacity from an Inspector of Mines or one of his Assistants duly authorized to grant such certificates.

If in the opinion of an Inspector of Mines the holder of the certificate has been guilty of negligence or of misconduct in connection with the discharge of his duties, his certificate may be suspended or cancelled by an Inspector of Mines subject to confirmation by the Chief Inspector of Mines.

16. The following fees shall be paid by each applicant for a certificate under the preceding rule:—

	Rs.
Engine-driver, 1st class	15
Do 2nd class	5
Underground Mestri	5
Blaster	5

[NOTE.—Engine-drivers of the 2nd class are not permitted to raise and lower persons except with the special sanction of an Inspector of Mines.

Underground Mestris presenting themselves for examination may at the same time qualify as blasters without payment of any additional fee.]

17. Every applicant shall appear before an Inspector of Mines for examination and, after satisfying the latter as to his competency, shall be entitled to receive a certificate and a metal check marked with the registered number of the certificate.

Any applicant who fails to obtain a certificate may reappear for examination on payment of half the original fee prescribed by Rule 16.

18. Every certificate granted under these rules shall be kept in the possession of the Superintendent of the Mine at which the holder thereof is employed, and when the holder ceases to be employed at that Mine, the certificate shall be returned at once to the office of the Inspector of Mines, Oorgaum.

19. The metal check given with each certificate shall remain always in the possession of the certificate-holder and must not be transferred or disposed of in any way. The possession of these checks by any person other than the holder of the corresponding certificate is strictly prohibited, and any person finding one shall return it to the office of the Inspector of Mines, Oorgaum, without delay.

20. Any person who engages a workman who is new to the Mine must arrange that he is properly looked after until he is acquainted with the Mine.

21. Any workman sending a substitute in his place shall first obtain the permission of his immediate superior, and shall at the same time inform him whether the substitute is acquainted with the Mine. If he is not, the person so informed shall see that he is properly looked after. In the case of a substitute for a mestri or blaster, the consent of an Underground Agent; and in the case of a substitute for an engine-driver, the consent of an Engineer must be obtained.

22. At every mine a room must be provided, proportionate in size to the number of persons employed and likely to require such a room, where underground workmen can change and dry their clothes. Engine and boiler rooms must not be used for this purpose.

23. No person shall be employed underground or in attendance on machinery who is under the age of twelve years.

IV. Underground Workings.

24. Every working place where work is being carried on shall be placed under the charge of an Underground Foreman or Timberman in the direct employment of the Company or a certified mestri or blaster who shall be responsible for the safety of such place and must be present.

Geological, dated 22nd August 1911.

25. The person in charge of a working place or place where men are stationed or pass shall take all precautions to ascertain if the place is safe. If there is reason to suppose that there is any danger to persons working, stationed, or passing therein, he shall proceed at once to remove the source of danger, and if he is unable to do so himself, he shall inform an Underground Agent or other mining officer or (unless he is himself an Underground Foreman or Timberman) an Underground Foreman or Timberman of the fact as soon as possible, and in any case before leaving the mine. He shall, in the meantime, stop all work or access to such working place, except for the purpose of making the place safe or saving life. A Foreman or Timberman who receives information, under this rule, of danger to a working place shall be then considered in charge of such working place.

26. Every working place and every place where persons are stationed or pass shall be inspected at least once every day, when work goes on there, during the morning shift, and as far as practicable at least once a week in each of the other shifts by an Underground Agent or Underground Foreman or Timberman who shall satisfy himself that the place is in a safe condition, and he shall report to the Superintendent any case of serious neglect on the part of the person in charge.

27. The examination under the above rules of any shaft by which men enter or leave a mine must be made by an Underground Agent or specially selected Underground Foreman, or Timberman, and the result of one such examination in every week must be entered in a book to be kept on the mine.

28. All shafts in use and all underground workings in which the ground is not sufficiently firm must be made secure with suitable timber work, and such timber work must be renewed as often as necessary to ensure the safety of the workmen, and until so secured or renewed no person shall travel or work therein, except for the purpose of making the place secure. When it is absolutely necessary to work below ground suspected to be unsafe which cannot be removed or permanently timbered at once, temporary supports shall, where practicable, be employed.

29. In timbering a shaft care shall be taken that the wood employed in places where the ground is dry shall not be of an easily inflammable nature, and suitable means shall be provided for checking any outbreak of fire.

30. Where a place is likely to contain a dangerous accumulation of water, a working approaching it shall not at any point within 40 yards exceed 8 feet in width, and 8 feet in height, and there shall be constantly kept at a sufficient distance, not being less than 5 feet, 6 inches, in advance, at least one bore-hole near the centre of the working and sufficient flank bore-holes on each side.

31. In all underground mining operations, the ground on the inside of the boundary lines must be left intact for a width of 6 feet from such boundaries, but the working, cutting through or removing these boundary pillars is allowed by agreement between the Proprietors of the adjoining mines.

32. An underground workman commencing work shall proceed to his working place by the recognized travelling road, and shall not without due cause stop or loiter on the way. On leaving work he shall again proceed to leave the mine as directly as possible along the recognized travelling road.

33. A workman having reached his working place shall commence work under the direction of his mestri and shall not leave the working place until the end of his shift without permission of his mestri.

34. Every mestri or other person in charge of a working party shall see that none of the workmen forming the party leave the working place without his permission. He shall report to an Underground Foreman any workman so leaving without permission.

35. Every mestri or other person in charge of a working place shall see that no other person except those workmen who are on duty at the said working place remain in or at the place, and shall report to an Underground Foreman any unauthorized person so doing.

V. Prevention of Falls of Things and Persons.

36. Tools, wood, stones, or any other loose articles shall not be put down or allowed to remain in such a position in or near shafts or winzes, or openings into stopes where work is going on, as may result in their falling into them. When a shaft, winze, rise, shoot or stope leads directly into a travelling road or place where persons are stationed or at work, the traffic at such places must be guarded against danger from falling articles.

37. Every opening into a shaft, winze, shoot, or sliding hole, and any opening into a stope more than 10 feet deep below a drive, and other dangerous openings shall be provided with a barrier or cover in order to prevent persons or things from falling into them; the barrier or cover may be temporarily removed when necessary, provided proper precautions are taken to prevent danger to persons.

38. No person shall cast any material down any shoot, pass, stope or other place until he has made himself sure that no person is in the way.

39. Men engaged in sinking or in repairing any portion of a shaft must be protected by a suitable covering from objects falling from above. The ladder-way may form part of such covering.

VI. Shafts and Outlets.

40. No Proprietor, Agent, or Superintendent of a mine shall employ any person in a mine, or permit any person to be in a mine for the purpose of employment therein, unless—

(*a*) There are at least two shafts or outlets with which all the underground workings of the mine have communication, so that such shafts or outlets afford separate and efficient means of ingress and egress available to all persons employed in the mine, whether the shafts or outlets belong to the same mine or to more than one mine.

Provided also, that such shafts or outlets must not at any point be nearer to one another than 30 feet: and that there is between two such shafts or outlets, a communication in the mine not less than 4 feet high and 4 feet wide, and that sufficient means of ingress and egress are provided at each shaft.

41. The provisions of Rule 40 shall not apply—

(1) to any shaft which is actually being sunk;

(2) to any work for the purpose of opening up communication; or

(3) to any work for the purpose of opening out the mine or proving or searching for minerals which does not continue for more than one year, or does not extend for more than 50 feet from the shaft.

42. The provisions of these rules shall also not apply—

(1) to any other work for the purpose of opening out the mine or proving or searching for minerals;

(2) in case of an accident to a shaft;

(3) if the mineral would not repay the cost of a second shaft;

(4) in other cases where the circumstances of the case would render the provision of two shafts not reasonably practicable and where the rock is firm and there is no reason to apprehend danger from water or noxious gases.

Provided that the consent of an Inspector of Mines is previously obtained.

43. Where there is only one shaft and it exceeds 100 feet in depth and is not merely a sinking shaft, it shall be provided both with ladders and with other means of raising and lowering men.

VII. Inclines.

44. Every underground plane on which persons travel on foot, which is self-acting (that is to say, the motive power is the weight of the load in the waggons),

or worked by an engine, windlass or gin, shall be provided (if exceeding 30 yards in length) with some proper means of communicating distinct and definite signals between the stopping places and the ends of the plane, and shall be provided in every case with sufficient man-holes or places of refuge at intervals of not more than 20 yards. No person shall be allowed to travel on foot on any such plane, if there is not room for a person to stand between the tracks and one of the walls.

45. Every man-hole and space for a place of refuge shall be constantly kept clear, and no person shall place anything in a man-hole or such space so as to prevent access thereto.

VIII. Winding Generally.

46. Windlasses, whims and whips in use at shafts and winzes shall be provided with a stopper, lynch-peg or other reliable holder.

47. The connection between the rope and the bucket, skip or other conveyance must be of such character that no accidental disconnection can take place, and care must be taken that the hooking on and off of buckets is done without danger to the workmen.

48. Before an unguided bucket, or other conveyance, is raised or lowered it must be steadied under the supervision of the workman in charge. Vertical shafts exceeding one hundred feet in depth shall be provided with guides for buckets, unless exempted in writing by an Inspector of Mines.

49. In hoisting, the bucket, skip or other receptacle shall not be filled to such a height that any of the contents can fall out, and in no case above the level of the brim.

50. In hoisting or lowering timber, tools, etc., ends projecting above the top of the cage, skip or bucket must be securely fastened to the rope or bow. If a detaching hook is employed between the rope and the conveyance, care must be taken to secure it to any material which may project above it.

51. Entering any section of a winding compartment of a shaft while winding is going on in that section is prohibited except in cases of necessity.

52. When winding is effected by means of an engine, each drum must be provided with an adequate brake so arranged that it can be easily manipulated by the engine-driver when standing at the levers controlling the engine.

53. Ropes used for winding must be in good condition and of good quality and manufacture. The wires used in the construction of the ropes shall be of sizes suitable for use with the sheaves and drums fitted.

54. The rope shall be securely fastened to the drum, and there shall be at least two turns of rope on the drum when the cage, skip or bucket is at its lowest point in the shaft.

55. Whether detaching hooks for releasing the rope and hanging up the cage or skip in case of an overwind are provided or not, the runners shall be sprung or provided with 'dogs' or other device for holding up the cage or skip.

56. The brakes, rope, shackle and all other parts of the winding gear shall be carefully examined once in every twenty-four hours by a competent person specially appointed for the purpose, and a report of every such examination shall be entered forthwith in a book provided for the purpose. An Inspector of Mines shall have power to exempt small winding gears and hoists from the provisions of this rule.

57. (*a*) A Register shall be kept at every mine in which the following particulars (obtained from the makers) of all new winding ropes shall be entered in ink and certified to by the Superintendent. Each rope, as soon as received, shall be given a serial number in the Register.

Particulars—

Name and address of manufacturer.
Date of manufacture.
Date of receipt at mine.
Length of rope in feet.

Diameter and circumference of rope in inches, or (in the case of flat ropes) width and thickness of rope in inches.
Weight per foot in lbs.

Construction of rope—

Number of strands.
Class of core.
Character of 'lay,' etc.

Construction of strands—

Number of wires in strand.
Diameter of wires (decimals of an inch)
Class of core.
Class of steel of which wire is made.
Breaking stress of steel of which wire is made (tons of 2,000 lbs. per square inch).
Breaking stress of rope (tons of 2,000 lbs.)

(*b*) A Rope Record Book shall be kept at every mine, in which the following particulars of all ropes in use on winding gears which have not been exempted from the provisions of Rule 56, shall be entered in ink, each entry being signed by the person responsible for the examination of the rope.

Particulars—

Name of shaft at which rope is in use.
Compartment in which rope is in use.
Serial number of rope in Register.
Whether rope is new or, if not, reference to previous record.
Date on which rope is put on.
Dates of shortening and number of feet removed.
Dates of recapping.
Dates of turning end for end.
Dates of tests after shortening (if any).
Breaking stress of wires at these tests.
Dates when rope taken off.

IX. Special Rules for the Raising or Lowering of Persons.

58. No winding plant shall be used for raising and lowering persons unless permission, in writing, has been obtained from an Inspector of Mines. Before giving his permission the Inspector of Mines shall satisfy himself that the provisions of the Rules have been duly and reasonably complied with, not only in regard to the winding plant proper, but also in regard to the head gear, shaft, runners, cages or other conveyances, landing arrangements and signals; and that the condition of the same is satisfactory.

59. The head gear shall be of such height and construction that the cage or other conveyance can travel freely for a height of at least twenty-five feet above its position at the surface landing stage for persons.

60. Every winding plant used for raising and lowering persons shall be provided with a reliable depth indicator, plainly visible to the engine-driver, which shows the correct position of the cage or other conveyance in the shaft, and which, in the case of shafts exceeding three hundred feet in depth, will ring a bell in the engine room when the ascending conveyance is sixty feet below the collar of the shaft.

61. Every cage or other conveyance used in a vertical or steeply inclined shaft shall be provided with a roof or top cover and with proper safety catches where practicable. Cage entrances shall be provided with doors designed to prevent any portion of the body of any person travelling therein from coming in contact with the sides of the shaft. The doors shall be constructed so that they cannot open outwards, and shall be provided with a latch or other fastening to prevent them opening of themselves.

62. Rules 58, 59 and 60 shall not apply to sinking or prospecting shafts not exceeding 200 feet in depth.

Geological, dated 22nd August 1911.

63. The maximum number of persons allowed to travel in a cage or other conveyance shall be fixed by an Inspector of Mines, and shall be kept posted up at each landing place.

64. Every person who travels in a cage or other conveyance shall ride in it and not outside or on the edge. This does not apply to a person who is slowly lowered or raised for the purpose of examining the shaft.

65. At any shaft where the winding plant is not provided with a suitable device for preventing overwinding, the cage or other conveyance shall not be hoisted at a speed exceeding two hundred and fifty feet per minute when it is within sixty feet of the collar of the shaft.

66. Whilst persons are riding in a shaft, the winding of rock or other material must be discontinued, except where a separate engine is used for winding persons.

67. No person shall travel in any cage, skip or bucket with any heavy articles, especially drills or other tools. This rule shall not apply to persons specially authorized to travel with, and distribute, such articles, nor to persons in charge of underground works, sinkers, or workmen employed in repairing the shaft.

68. In the case of cages or other conveyances which do not conform to the rules regarding the winding of persons, the Superintendent may obtain the special sanction of an Inspector of Mines to permit mining officers and officials, certificated mestris and blasters and sinkers, and workmen engaged in repairing the shaft to ride therein, provided all available precautions are taken.

69. After any stoppage of winding for repairs or for any other purpose exceeding two hours' duration, the cage or other conveyance must be run a complete trip up and down the working portion of the shaft before any person is allowed to ride therein.

70. Where winding of persons in accordance with the foregoing rules is permitted, the following rules must be strictly observed:—

(*a*) One, or more than one, competent person, specially deputed by the Superintendent for the purpose, and whose name or names must be registered by him in a record book, termed the Machinery Record Book, shall carefully examine—

(1) every winding rope newly put on and its attachments to the drum and cage or other conveyance, and the same shall be used for the transport of persons only after the conveyance, loaded to the full authorized extent, has been run two complete trips up and down the working portions of the shaft;

(2) at least once a week, the guides and the winding compartments generally the signalling arrangements, and the external parts of the winding engine;

(3) at least once a year, the winding engine as to the working condition of the internal parts;

(4) at least once a month, the structure of the rope for the purpose of discovering the amount of deterioration of same. For the purpose of this examination, the rope must be thoroughly cleaned at selected places.

A true report of the result of every examination above mentioned shall be recorded without delay in the Machinery Record Book which must be kept at the mine specially for the purpose, and shall be signed by the person who made the inspection. Should, as the result of such examination, any weakness or defect be discovered by which life or limb may be endangered, the defect shall immediately be reported to the Superintendent, and remedied; and no person shall be lowered or raised until the defect is made good.

(*b*) Winding ropes shall not be used for raising and lowering persons when, owing to deterioration or from any other cause, the breaking stress has become reduced to below six times the maximum working load.

(*c*) So soon as a rope becomes defective, it shall no longer be used for the transport of persons, unless the damaged part be at the end, and be cut off.

(*d*) A rope out of which any defective portion has been cut and the ends again spliced, and ropes which have been previously in use in places beyond the Superintendent's control, shall not be used to raise or lower persons.

(*e*) At every mine, at least one spare rope, suitable for use in any shaft in which persons are raised and lowered, shall be kept in reserve.

(*f*) A single linked chain shall not be used for raising or lowering persons or for attaching the rope to the skip or cage, except with the sanction in writing of an Inspector of Mines.

X. Signals.

71. At all winding shafts, exceeding one hundred feet in depth, arrangements must be provided for transmitting distinct and definite signals from the various levels in use and the shaft top, and between the shaft top and the engine driver. Where persons are raised and lowered arrangements shall also be made for return signals.

72. The engine-driver shall not set the engine in motion without having received a definite signal to do so. Neither the engine-driver nor banksman shall act on any signal of the correctness of which he has any doubt, unless he believes it may possibly be the signal to stop.

73. The banksman shall not permit the cage, skip or bucket to be moved from any landing or filling place in the shaft unless he has received a signal from that place, and if persons are to be raised or lowered, has returned the same.

74. Only persons specially authorized by the Superintendent for the purpose are allowed to give signals.

75. The following signals must be uniformly adopted in all mines :—

"One"—meaning to stop.
"Two"—meaning to lower.
"Three"—meaning to raise.

Additional signals shall be sanctioned by the Superintendent, and must not interfere with the above code.

76. Notices explaining the meaning of all permanent signals must be kept posted up in the engine room, at the shaft top and at all signal stations below-ground.

XI. Ladder Ways.

77. In shafts having an inclination of more than 65° with the horizontal, platforms or sollars must be provided at intervals not exceeding 35 feet. The manhole in any sollar shall be placed behind the ladder leading up from such sollar whenever the inclination of the shaft exceeds 70° with the horizontal.

78. In shafts having an inclination exceeding 45°, but not exceeding 65°, with the horizontal, the sollars shall be placed at intervals of not more than 55 feet, measured along the underlie of the shaft.

79. No ladder shall have a steeper inclination than 80° with the horizontal, except under special circumstances and with the consent in writing of an Inspector of Mines. This consent shall not be necessary for the lowest 30 feet of a sinking shaft.

80. Ladders must be securely fixed to the timbering of the shaft, and maintained in proper repair. Except at sollars or resting places, ladders must be made continuous or without perceptible overlapping or break.

81. Ladders must project at least three feet above the shaft top and above every sollar or landing place in shafts, and other travelling ways or strong holdfasts must be provided at all such places in convenient positions.

Geological, dated 22nd August 1911.

82. Travelling on foot in any shafts or shaft compartments except those specially provided and equipped for this purpose is strictly prohibited, except for purposes of inspection or repair.

83. In shafts having an inclination steeper than 45°, any compartment which is used as a foot travelling way shall be closely fenced off from the other compartments. In shafts less steeply inclined than the above, the ladder way shall be sufficiently railed off to prevent persons inadvertently entering the adjoining compartments.

84. Carrying tools or other loose materials up or down a ladder way having an inclination steeper than 45° is prohibited except when absolutely necessary. When tools are carried in a ladder way they must be secured in a sling to the person carrying them.

XII. Ventilation, Lighting, etc.

85. Sufficient ventilation must be provided to render all working places and travelling roads in a mine, under ordinary circumstances, fit for working in, and as far as possible free from fumes, smoke, dust or noxious gases.

86. A working place shall not be deemed to be fit for working in if a candle will not burn erect when shielded from a draught.

87. All doors which are required to be kept shut for purposes of ventilation shall be made self-closing.

88. All holes drilled in dry ground must, as far as practicable, be kept moist to prevent the atmosphere being charged with dust.

89. Unauthorized entrance into abandoned or disused workings is prohibited and should, as far as possible, be prevented by boarding or otherwise. Underground works (especially shafts, sumps, winzes and rises) which have been unused for some time shall, before work is started, be examined with a light, and if the air is foul, no work shall be permitted there until the foulness has been removed.

90. Stationary lights shall be provided at all stations and other places in shafts which are for the time being in use, also in all places where pumps or other machinery or appliances are in motion, unless the same are fenced off so as to render it impossible for any one to come in contact with them inadvertently; and at night at all working places on surface.

91. Moving about without a light in any unilluminated part of the mine is prohibited.

92. The Superintendent shall make all necessary sanitary arrangements as shall be approved by the Medical Officer, and shall appoint some person or persons who shall be responsible that all surface and underground workings and spaces are constantly kept sanitarily clean. A supply of pure drinking water shall be provided underground at suitable and convenient places.

XIII. Explosives.

93. No explosives shall be stored in or about a mine except in accordance with the provision of the Mysore Explosives Regulation and Rules, or as provided for in Rules 94 to 105 hereunder.

94. A daily supply magazine may be placed in the neighbourhood of each shaft for the daily requirements of the mine. The position and construction of every such magazine shall be approved of by an Inspector of Mines, who shall determine the maximum amount of explosives—not exceeding 300 lbs.—to be stored therein. Blasting powder shall not be stored with high explosives, but must be kept in a separate compartment having a separate entrance. Detonators shall not be stored in a compartment with any other explosives.

95. The storage of explosives underground is prohibited, except in the following cases:—

(*a*) A small amount of explosives may be kept in boxes for unforeseen contingencies; each box must be securely made and kept locked, and may not contain except in cases coming under (*b*), more than half a pound of cartridges, six detonators and three yards of fuse. The detonators must be in a distinct compartment of the box, separated by a strong partition from the rest. No box shall be so placed that there is any risk of its being exploded or ignited by the explosion or ignition of any other box, or otherwise.

(*b*) When all the charges fired in a single shift are not fired at the same time, the explosives for the uncharged holes may be kept in the meantime at a safe distance. They must be placed in charge of some person responsible for them, where there is no risk of their being exploded or ignited.

(*c*) A magazine may in special cases be provided underground for storing the daily requirements of a mine or part of a mine in blasting materials, provided that the quantity of explosives of all kinds stored in such magazine shall not exceed an amount to be fixed by an Inspector of Mines, and provided that the magazine shall be placed at a sufficient distance from any portion of the mine in which work is going on or which is used as a thoroughfare, as will in the opinion of an Inspector of Mines prevent the risk of injury to any person from the explosion of the maximum amount of explosives allowed in the magazine, or from the fumes of the gases resulting from the combustion of such maximum amount, and provided that every precaution is adopted which an Inspector of Mines may require to be taken to prevent the explosion or ignition of such explosives and the injury to any person thereby. Detonators shall not be stored in a compartment containing or immediately adjoining one containing other explosives.

96. Explosives must be in their ordinary manufactured form and of good quality and as far as can be practically known in good condition when distributed for use. Only one kind of detonator shall, except with the permission of an Inspector of Mines, be used in the same mine. It shall be of sufficient power for every kind of explosive used.

97. No working place must be supplied with a greater quantity of explosive material than will probably suffice for the requirements of the shift.

98. A book must be kept to record the quantity of explosive material supplied to each contractor or blaster.

99. Explosives issued from the magazine shall be taken directly to the working place, and any unused explosives must be returned to the magazine near the shaft without any delay. Any one finding any explosive must take it at once to the nearest magazine.

100. The removal of explosives to any place not authorized by these rules, and the sale or purchase of explosives in the mine are strictly prohibited.

101. Explosives including fuse, when issued from the magazine, must be carried at all times in secure cases or canisters, and no case or canister may contain more than fifteen pounds of explosives.

102. Detonators must not be carried in the same case or canister with other explosives.

103. Explosives shall not be sent down in a bucket, skip or cage, unless there is a distinguishing mark attached to the bucket, skip or cage, or they are accompanied by some one who is responsible for them. If taken down by ladder, each case or canister must be securely fastened to the person carrying it.

104. All explosive material must be distributed, whether above or below ground, only by the person or persons appointed for that purpose by the Superintendent.

105. No fuse or explosives are allowed to be taken into the mine other than the brands specially authorized by the Superintendent.

Geological, dated 22nd August 1911.

XIV. Blasting.

106. All blasting operations shall be conducted by a blaster holding a blaster's certificate under Rule 15. In cases of emergency, a person who does not hold a blaster's certificate may be authorized to conduct blasting operations by the Superintendent or an Underground Agent who shall be responsible that such person is competent.

107. The blaster shall himself prepare the fuze, detonator and primer for use and shall charge every hole, but he may be assisted otherwise in the preparations of charges and in firing the shots by one or more competent assistants.

108. During the preparation of charges and the charging of holes, all lights must be kept at a safe distance, and smoking shall be strictly prohibited while explosives are being handled.

109. Every blaster must carry a knife in order to be able to cut a burning fuze, if necessary, and also a pair of pliers for crimping the detonator on to the fuze.

110. The fuze with its attached detonator shall, after being inserted in the primer cartridge, be securely fastened thereto by string or other suitable material so that it cannot be easily withdrawn from the cartridge. The fuze and detonator shall not be inserted in the primer until it is required for immediate use.

111. In charging or stemming holes the use of any iron or steel tool, scraper or rod is prohibited, and no explosive shall be forcibly pressed into a hole of insufficient size.

112. A wad of paper about one inch thick must be inserted immediately on top of the primer and below the tamping which shall be at least six inches deep. Only sand loosely filled in or soft clay lightly pressed home or water shall be used as tamping for any explosive requiring the use of a detonator.

113. Not more than eight holes, unless the fuzes are ignited by more than one person, in which case the number may be increased to twelve holes, shall be fired in one round in any drive, stope, end or shaft, or unless the charges are fired electrically, or unless the special permission of an Inspector of Mines has been obtained. No holes shall be charged except those which are to be fired in the next round, and all those which have been charged shall be fired in one round.

114. Blasting gelatine or other high explosive shall not be lighted in order to set fire to fuzes, but a small portion of such explosive may be attached to the end of a fuze to assist it to ignite.

115. Before any shots are fired, due warning shall be given in every direction by shouting the fire signal, and all approaches to the place where the shots are being fired shall be guarded. The blaster shall be responsible that no person is allowed to remain in, or to come into, dangerous proximity to the shots.

116. Whenever any working place approaches another so closely that any further blasting will reduce the intervening rock to a thickness of six feet or less, such further blasting must be conducted from one working place only at any one time. The Underground Agent in charge shall be responsible that the working parties are duly warned of the near approach of the two places, and the blaster in charge of the operations in the one place shall take steps to ensure that no person remains in the other place while shots are being fired.

117. The number of shots which explode must be counted by at least two persons, one of whom shall be the blaster. Unless both are certain that all the charges have exploded, the working place must not be re-entered for at least thirty minutes after the first explosion.

118. If all the charges have exploded properly or if they have been fired electrically, the working place may be re-entered as soon as it is sufficiently clear of fumes provided that in the case of electric firing the source of electricity shall have first been disconnected.

119. After blasting has taken place, the blaster, or person in charge of the working place shall be the first to re-enter the place, and until he has pronounced it

to be safe and sufficiently free from fumes he shall not permit any other person to enter except for the purpose of making it safe.

120. In clearing the stuff broken by the blast, loose unexploded cartridges, detonators, etc., must be carefully looked for and, if found, removed at once by the blaster or mestri in charge to a safe place.

121. Before drilling is commenced all loose rock must be removed from the working faces, and if any sockets or portions of holes which have not broken are found, they shall be securely plugged with wooden plugs, of which a supply shall be provided.

122. In the event of a mis-fire (or charge failing to explode properly) having occurred or being suspected, the blaster himself must be the first to re-enter the working place. He shall search for the mis-fire and, if necessary, may have the place cleaned up for this purpose; but he shall permit no other work.

123. As soon as the mis-fire has been found the blaster shall refire it without delay, for which purpose he shall insert a fresh primer with detonator and fuze in the hole. If necessary, the tamping may be gently removed with a wooden or copper scraper; but not the paper wad.

124. If the mis-fire cannot be found or reblasted, the blaster shall, before leaving the mine, inform the mestri in charge, of the next shift, and also an Underground Agent, Foreman or Timberman who shall then be considered to be in charge of the working place. The blaster shall, before leaving the mine, cause a report of every mis-fire to be entered in a book kept for the purpose at the shaft top. Unless the mestri is present at the working place, the blaster shall, before leaving, post a man to prevent access thereto, and warn persons of the existence of the mis-fire.

125. The mestri in charge of the next shift may have the place cleaned up and made secure, but no drilling shall be permitted until the mis-fire has been reblasted, or until the place has been inspected by an Underground Agent, Foreman or Timberman and instructions obtained from him as to the course to be followed. The Agent, Foreman or Timberman shall take steps to ensure that his instructions are properly carried out, and both he and the mestri shall be held responsible for this being done.

126. No portion of a charge shall be withdrawn from a hole either before or after blasting. The deepening of or tampering with holes or portions of holes, in which explosives have once been charged, is strictly prohibited.

127. The person in charge of the working place shall point out the position and direction of every new hole to be drilled, and shall be responsible that the drillers do not deviate therefrom. The greatest care shall be taken that no new hole shall be bored in such a direction that it can come in dangerous proximity to any old hole or socket in which explosives have previously been charged.

XV. Machinery.

128. All steam-boilers, compressed air-receivers and driving-gear must be in the personal charge of competent men appointed by the Chief Engineer. Every steam-boiler and air-receiver shall have attached to it a proper safety-valve and steam gauge and water-gauge or air-gauge, and shall be inspected by an Engineer once a week at least.

129. (*a*) Before a boiler or air-receiver is cased in or put in commission, it shall be subjected to hydraulic test by the Chief Engineer or a competent person appointed by him. The test shall be repeated after any important renewals or repairs, and in any case at least once in every twelve months in the case of a boiler, and once in three years in the case of an air-receiver. A record of every such test shall be entered in books kept for the purpose.

(*b*) In the case of an air-receiver the hydraulic pressure shall be 1½ times the maximum working pressure permitted.

(*c*) In the case of a boiler the hydraulic pressure shall be twice the maximum working pressure allowed when the latter does not exceed 75 lbs. per square inch, and at least 75 lbs. per square inch above the maximum working pressure in other cases.

(*d*) The working pressure shall be measured as the pressure in excess of that due to the atmosphere.

130. A notice shall be posted in every engine-house specifying the highest pressure to which the steam or air in every boiler or receiver, in or adjoining such engine-house may be raised, and the minimum height of water allowable in each boiler shall be clearly marked on the water gauge and on the boiler shell.

131. The weight of every safety-valve shall be fixed on the lever so that it cannot be inadvertently shifted so as to increase the pressure.

132. Every boiler shall be cleaned out and examined internally at least once in every twelve months, and a record shall be kept at the office of the mine of the condition at the time of every such cleaning.

133. All exposed parts of machinery, which are dangerous when in motion, must be railed or partitioned off in such a manner that no accident can occur except through carelessness.

134. Every person in charge of any boiler, engine or other appliance, apparatus or machine shall see that it is in proper condition before commencing work, and if there is any defect shall remedy the same or report it to a Chief or Assistant Engineer; he must see that boilers are kept properly supplied with water, that no extra weights of any kind are added to the safety-valves of boilers and receivers, and that the allowed pressure of steam or air is not exceeded. If anything occurs to prevent a boiler being adequately supplied with water, he shall damp or draw the fire without delay, and in case of any dangerous defect shall stop work until it is remedied.

135. Engine-drivers and firemen are not allowed to work longer than the ordinary shift prescribed at a mine, unless it is absolutely necessary. If the driver or fireman of a winding engine shall work longer than the prescribed shift, an entry of the fact must be made in a book kept for the purpose. During his shift an engine-driver or fireman shall not leave his post except when absolutely necessary, nor without leaving some person in charge. He shall not allow any one else to handle the engine unless with the order or permission of the Chief, or an Assistant, Engineer, or in case of emergency.

136. In the case of an engine-driver of a winding engine in which persons are raised or lowered, the shift shall not exceed eight hours in twenty-four, and in the case of an engine-driver of any other winding engine, shall not exceed ten hours, except in the case of small mines not exceeding 400 feet deep, or with the permission of an Inspector of Mines.

137. The repairing, adjusting, cleaning or lubricating of machinery in motion shall not be permitted when there is a risk of personal injury.

138. Shipping and unshipping driving belts while the machinery is in motion is prohibited, unless a satisfactory mechanical appliance is provided for the purpose. This shall not apply to the customary shifting of light belts on the coned pulleys of machine tools.

XVI. Electrical Plant and Fittings.

139. All Electrical Apparatus and Conductors shall be sufficient in size and power for the work they may be called upon to do, and, so far as is reasonably practicable, efficiently covered or safeguarded, and so installed, worked and maintained as to reduce the danger through accidental shock or fire to a minimum; and shall be of such construction and so worked that the rise in temperature, caused by ordinary working, will not injure the insulating materials.

140. All metallic covers, armouring of cables, other than trailing cables, and the frames and bed-plates of Transformers and motors, other than portable motors;

shall, as far as is reasonably practicable, be efficiently earthed when the pressure at the terminals, where the electricity is used, exceeds 250 volts.

141. Main and distribution switch and fuse boards must be made of incombustible insulating materials, and be fixed in as dry a situation as practicable.

142. Every sub-circuit must be protected in one of the three following alternative methods:—

(*a*) By an automatic maximum cut-out on each pole;

(*b*) By a detachable fuse on each pole, constructed in such a manner that it can be removed from a live circuit with the minimum risk of shock.

(*c*) By a switch and fuse on each pole.

143. Fire buckets, filled with clean, dry sand, shall be kept in electrical machine rooms, ready for immediate use in extinguishing fires.

144. Gloves and mats or shoes of India rubber, or other non-conducting material, shall be supplied and used where the live parts of switches or machines, working at any pressure above 250 volts, have to be handled for the purpose of adjustment.

145. No person shall wilfully damage, interfere with, or without proper authority remove or render useless, any electric line, or any machine, apparatus or part thereof, used in connection with the supply or use of electricity.

146. Where a Generating Station, under the control of the Mining Company on whose property it is situated, is not within 400 yards of any shaft down which the current is led, an efficiently enclosed locked switch box or a switch-house shall be provided near the pit-mouth, for the cutting off the supply of electricity to the underground portions of the Mine.

147. Every transmission line, carried overhead, on the surface, must be efficiently supported upon insulators, and clear of traffic, and provided with efficient lightning arrestors.

148. All terminals and live metal on machines or switchboards working at a pressure exceeding 250 volts underground, or 600 volts on surface shall, where practicable, be protected with insulating covers, or metal covers connected to earth, when situated in any position in which it is easily possible for a person to come in contact with them.

149. No unauthorized person shall enter a motor room, or interfere with the working of any motor or apparatus connected therewith. Suitable screens, guards or partitions of non-inflammable material shall be fixed so as to prevent the space at the back of transformers and high tension switchboards being used as passage ways.

150. Unless fixed, as far as is reasonably practicable, out of reach of injury, all conductors, other than armoured cables, must further be protected by a suitable covering. Where lead-covered cable is used, the lead shall be earthed and electrically continuous throughout.

Where main or other roads are being repaired or blasting is being carried out, suitable temporary protection must be used, so that the cables are reasonably protected from damage.

151. The fixing with metallic fastenings of cables and wires, which are not provided with metallic coverings, to walls or timbers, is prohibited.

152. Fuses and automatic cut-outs shall be so constructed as effectually to interrupt the current when a short circuit occurs. Fuses shall be adjusted or replaced only by an authorized person.

153. All live parts of switches, fuses and cut-outs, not in machine rooms or compartments specially arranged for the purpose, must be covered.

154. Where unarmoured cables or wires pass through metal frames or into boxes, transformers or motor casings, the holes must be substantially bushed with insulating bushes.

Geological, dated 22nd August 1911.

155. In all machine rooms and other places underground, where a failure of electric light is likely to cause danger, lamps or other proper lights shall be kept for use in the event of such failure.

156. Instructions shall be posted up in one or more suitable places on every mine, containing directions as to the restoration of persons suffering from electric shock.

157. All proper precautions must be taken to prevent electric signal and telephone wires from coming into contact with other electric conductors, whether insulated or not.

158. Notwithstanding anything contained in these rules, any electrical plant or apparatus installed or in use before the coming into force of these rules, may be continued in use unless an Inspector of Mines shall otherwise direct, or subject to any conditions affecting safety that he may prescribe.

159. Under special circumstances or in case of emergency, an Inspector of Mines shall have power to grant exemption from the requirements of any of the rules in this section upon such conditions as he may consider desirable or necessary.

XVII. Accidents, Ambulance, etc.

160. Whenever an accident occurs at a mine which results in the death of, or serious injury to, any person, the Superintendent shall at once send notice thereof in writing to an Inspector of Mines, stating fully all particulars regarding such accident, in accordance with the form in the schedule to these rules. The notice shall be accompanied or followed by a certificate from the Medical Officer regarding the nature of injury or cause of death. Where practicable, a brief notice of the accident shall also be sent by telegraph or telephone.

161. By serious injury is meant an injury which results, or is likely to result, in total or partial loss of, or permanent damage to, any limb or organ, fracture of any of the larger bones (including the bones of the skull), dislocation of the hip or knee, great loss of blood, internal bleeding or prolonged unconsciousness, or which may be declared to be serious by the Medical Officer.

162. If death results from the effects of an accident, whether such death occurs at the time of the accident or subsequently, the Superintendent shall send notice of the same forthwith to the nearest Magistrate or Police Officer as well as to the Inspector of Mines.

163. The place where an accident involving the death of, or serious injury to, any person has occurred shall be left untouched after removal of the injured person or persons until it has been examined by an Inspector of Mines or until the expiry of forty-eight hours, unless the stoppage of work at that place would seriously impede the work of the rest of the mine, or unless the consent of the Inspector of Mines to the resumption of work has been obtained.

In the event of the Inspector of Mines being unable to proceed to the scene of the accident himself or to send a qualified deputy, he shall, if he considers an enquiry to be necessary, inform the nearest Magistrate, who shall thereupon cause an investigation to be made on the spot into the cause of the accident. A copy of the evidence taken at such investigation shall be forwarded to the Inspector of Mines.

164. In every case in which death has resulted from an accident, and in all cases resulting in serious personal injury, in which any wilful or negligent breach of these rules has been disclosed, the Inspector of Mines shall furnish a report of his investigation to the nearest resident Magistrate, who shall thereupon make such further investigation or take such action as he may consider necessary. The Magistrate shall inform the Inspector of Mines of the date of such further investigation or action, and the latter shall be at liberty to appear and examine any witness.

165. Whether personal injury is caused or not, every accident occurring under the following classification shall be reported without delay to the Inspector of Mines:—

(1) Engine running out of control;

(2) Fracture of any essential part of winding engine, crank shaft, couplings, bearings, gearings, clutch, drums, or drum shaft.

(3) Fracture of winding rope or of its attachment to skip, cage, or drum;

(4) Fracture of pit-head sheave or axle or bearings of same;

(5) Failure of efficiency of brake;

(6) Failure of safety catch to act when required;

(7) Failure of device for prevention of overwinding or of detaching hook to act when required;

(8) Overwinding of cage or skip;

(9) Bursting of anything containing steam, compressed air or other substance at high pressure;

and a record shall be kept at every mine of all cases of jamming or derailment of skip and cages.

166. The proprietor shall see that the following medical provision is made for persons employed in mining operations:—

(1) If the number of persons so employed exceeds 1,500, one qualified Medical Officer residing within three miles;

(2) If the number of persons so employed exceeds 250 and does not exceed 1,500, one qualified Medical Officer residing within ten miles, and if the Medical Officer does not reside within three miles, then in addition one trained Hospital Assistant within three miles.

(3) If the number of persons so employed exceeds 50 but does not exceed 250, then one trained Hospital Assistant within five miles;

These distances will be measured from any part of the mine where more than 50 persons are employed.

167. If any Medical Officer who is not employed by the Proprietor shall attend on any person employed in mining operations, the Proprietor shall pay such amount for his services as the Senior Surgeon in Mysore shall direct.

168. In order to render immediate assistance in cases of injuries such as broken bones, wounds, bleeding, contusion, scalding and suffocation, there must be ready at hand at every mine all such necessary articles and medicines as the Medical Officer shall direct, and also an ambulance for the removal of injured persons; and so far as possible every person in charge of any work below ground shall be acquainted with the means of giving first aid to persons injured.

169. Every workman receiving any personal injury in any mining operations shall, before leaving the mine, report the same to one of the Mining Officers or the watchman at the top of a shaft or to his immediate superior; and any person to whom such report is made shall, as soon as possible, communicate the same to the Superintendent.

XVIII. Mine Plans.

170. A general plan, made by a competent surveyor, of the land, which is in the possession of the Mining Proprietor for mining purposes or over which he holds any mining rights, to a distance of 600 feet from any point where mining operations are or have been carried on, but not beyond the limits of such land, must be kept at the mine, and be made up at least every four months.

171. The general plan must show the Government survey marks (if any), the boundaries of the land, the outcrops, as well as the actual strike and dip of the reefs or other mineral deposits so far as known, all open surface workings, shaft

openings, bore-holes, water-furrows, reservoirs, tailings-sites, public roads and railways and the principal buildings and sites of mining and metallurgical plant. It must also show the geographical meridian.

172. Besides the general plan referred to above, the Superintendent must keep in the office of the mine an underground working plan and section or sections showing clearly all the workings surveyed up to within four months from date.

173. The underground plans and sections must in particular show clearly all shafts, bore-holes, drives, crosscuts, winzes, rises, excavations (stoped ground) and any tunnels and passages connected therewith, and the position of all permanent winding gear, pumps, ventilating fans, brattices and doors for regulating ventilation, and all underground bench marks, and stations of the underground survey, and in addition thereto the vertical depth of bore-holes, the depth at which the mineral deposits have been intersected, the general strike of the reefs or mineral deposits, with their dips at different points, and the dislocations of the strata.

174. All underground plans must be on the scale of 30 or 60 feet to one inch.

175. All bench marks or stations of the underground surveys must be properly marked with holes and plugs, and care taken to preserve them in view of subsequent surveys.

176. The plottings of every survey must be made from a line or lines representing on the plan the true geographical meridian.

177. In case of a mine or any considerable part of it being intentionally abandoned, the general and underground plans and underground sections must first be completed up to date, and the same or exact copies thereof must be sent to the Chief Inspector of Mines within two months of such abandonment.

178. All underground workings must, when it is possible, first be surveyed before being allowed to become inaccessible.

179. Any Proprietor, Agent or Superintendent or other person engaged in mining operations, who wilfully withholds any portion of a mine plan, or conceals any part of the workings, or knowingly allows the mine plans to be incorrect, shall be guilty of a breach of these rules.

180. A true copy, on mounted paper or tracing cloth, of the general plan and of every underground plan or section, referred to in Rules 170 and 172, shall be deposited with the Chief Inspector of Mines, and the said copies shall be brought up to date once every year by the Superintendent.

For this purpose the said copies may be obtained by the Superintendent from the Chief Inspector of Mines any time subsequent to the 31st of December, and shall be returned to the Chief Inspector of Mines not later than the 1st of June following.

XIX. Government Returns and Inspections.

181. The Superintendent of a Mine shall furnish to the Chief Inspector of Mines a statement showing the quantities of ore obtained and treated, and the quantity of metal or other finished products obtained, and other returns and statistics in such form and at such time as may be prescribed by the Government.

182. Where any working is commenced for the purpose of opening a mine, or where the working of a mine is temporarily or permanently discontinued or abandoned, or where the working of a mine is recommenced after any such discontinuance or abandonment, the Proprietor or his Agent or Superintendent shall immediately give written notice thereof to the Chief Inspector of Mines.

183. The Proprietor or his Agent or Superintendent shall, without delay, furnish the Chief Inspector of Mines with the following information :—

(1) Name of Mine.

(2) Name and address of Proprietor.

(3) Name and address of Agent or Superintendent,

and shall likewise give notice of any change in their names or addresses within three days of such change.

184. In case of the abandonment of a mine, the Proprietor, at the time of such abandonment, shall continue to be responsible for the carrying out of the rules regarding the protection of the surface under Section III, the furnishing of plans, under Section XVIII, and the sending in of returns under Section XIX, until such rules have been complied with.

Upon the Chief Inspector of Mines being satisfied that such rules have been duly complied with, he shall issue a certificate to that effect, and the Proprietor shall thereupon be relieved from all further responsibilities.

185. An Inspector of Mines or his authorized representative shall at all reasonable times have access to the plans and sections in order to examine and inspect them, take copies thereof, and make extracts therefrom; and shall be entitled to enter upon any part of the mine above or below ground, and inspect and examine the state and condition thereof, and of the mines and buildings and mining and metallurgical plant therein or thereon, and the mode in which operations are carried on, and hold enquiries as to accidents; but so far as possible in such a manner as not to impede or obstruct the working of the mine, and the Proprietor, Agent and Superintendent shall, with proper persons employed in the mine and acquainted with mining and metallurgical operations and with the engines, machinery and apparatus and other mining and metallurgical plant upon or within the mine effectually assist in the conduct of every such inspection or examination, affording all information required therefor, and producing any books or records required to be maintained under these rules.

186. Notice shall be given to the Chief Inspector of Mines if any working approaches within a horizontal distance of a railway equal to twice its depth below the surface, or to 500 feet, whichever is less.

187. If any mine is worked in a manner which, though not expressly forbidden by the provisions of these rules, is nevertheless dangerous, an Inspector of Mines may require the matter to be remedied, and the representative of such mine shall comply with such requisition, or else submit the matter to arbitration.

188. An Inspector of Mines is also entitled to take, or cause to be taken, such samples of ore, quartz or other minerals from any reefs, beds or deposits or from any intermediate or final products extracted, obtained or produced in the course of any mining operations, as he in the execution of his duty may think fit, but if they be of more than two pounds weight, or contain more than five grains of gold, or be taken more than once in three months, the Government shall pay for the same at a fair valuation.

189. Every person who wilfully obstructs an Inspector of Mines in the execution of his duty, and every Mining Proprietor, Agent or Superintendent, who refuses or neglects to furnish to an Inspector of Mines the means necessary for making any entry, inspection or enquiry, under the Mysore Mines Regulation, 1906, or these rules, shall be deemed to commit a breach of these rules.

190. An order by an Inspector of Mines suspending or postponing the operation of any of these rules or giving any permission under these rules shall not be valid unless it is in writing. Any such order may be subsequently revoked by an Inspector of Mines.

191. The Superintendent, or in his absence the highest Mining Officer who may be present, shall, upon application by any local Magistrate or Police Officer not below the rank of Chief Constable, whose duties require him to visit the mine, give him every facility for the purpose.

XX. Bribery and other undue influences.

192. Any person who shall render any service, or use any threat to any other person, with the view of preventing any workman, contractor, foreman, Mining

Geological, dated 22nd August 1911.

Officer, Government servant, or other person engaged or expecting to be engaged in mining operations or in work connected with the Government inspection of mines from exactly complying with these rules, or from performing duly, honestly and without favour to any person or persons the duty he is employed to perform, or shall attempt or agree to render any such service, or use any such threat, or shall accept or attempt or agree to accept any such service, or shall on receiving any such threat fail to at once inform a Mining Officer thereof, shall be guilty of a breach of these rules.

193. Any workman, contractor, foreman, Mining Officer, Government servant or other person engaged or expecting to be engaged in mining operations, or in work connected with the Government inspection of mines, who shall accept any service from any person or persons who is concerned or is likely to be concerned in any operation, proceeding or business transacted or likely to be transacted by the person accepting such service, or having any other connection with the duties he or any person to whom he is subordinate, or likely to be subordinate, is employed to perform, or from any person who is interested in, or related to, the person so concerned or likely to be concerned, shall also be guilty of the breach of these rules.

194. For the purpose of these rules a service shall be considered to include the payment of any sum, the gift or sale without adequate consideration of any thing, and every other favour or gratification of any description, whether estimable in money or not; but not recognised and legitimate remuneration for mining work.

XXI. General Rules.

195. The working of the mine shall be under the general control and responsibility of the Superintendent.

196. The Superintendent or other Mining Officer acting under his instructions, shall, at least once in three days, while the men are at work, visit and examine every working place in the mine and all machinery and other mining operations of every description below ground or on the surface, and shall see that safety in every respect is ensured.

197. Except under the provisions of these rules, no person shall enter a mine who has not previously obtained the consent of the Superintendent or his representative.

198. No person shall be allowed to enter a mine in an intoxicated condition, or if known to be subject to any complaint which might place his life in danger.

199. Unauthorized entrance into any shaft or other working or into any shed or enclosure or into any place where machinery or boilers or receivers are erected, or other mining operations are carried on, is prohibited, and notices to this effect must be posted up at all entrances.

200. No workman shall, except in cases of emergency, go to any part of the mine, except where it is necessary for him to go in the course of, or when coming to, or from, his work.

201. For the purpose of making these rules known to all persons in and about the mine, printed copies thereof must be posted in conspicuous places at the mine where they can be conveniently read, and every person employed in or about the mine is enjoined to thoroughly acquaint himself with them so far as they affect his duties.

202. All rules and notices shall be printed or written in such languages as an Inspector of Mines shall direct, and must be posted up in a position where they can be easily seen by persons frequenting the place.

203. All rules and notices posted in or about the mine must be authorized by the Superintendent.

204. Any person pulling down or otherwise defacing any rules or notice, when posted up, is liable to punishment.

205. In all cases where any person is required by these rules to make any report he shall sign his name to it. If he is unable to write, he shall be present when his report is written, and shall have it read over to him and shall attach his mark to such report in token of this having been done. The name of the person writing the report shall also be entered at the end of the report, together with a statement of its having been read over to the person on whose behalf it is written.

206. All persons are enjoined to thoroughly acquaint themselves with and carry out the sanitary arrangements in the mine which may from time to time be made by the Superintendent with the approval of the Medical Officer. Any person who does not conform to these arrangements shall be deemed to commit a breach of these rules.

207. Where the duties of more than one post are entrusted to the same person, that person shall be bound by, and observe, the rules attached to each such post.

208. No person shall depute any one to do his work without the sanction of his immediate superior.

209. No person shall wilfully damage, or without proper authority remove, or render useless any fence, fencing, manhole, place of refuge, casing, guide, signal or means of signalling, chain, flange, horn, brake, indicator, steam-gauge, watergauge, safety valve or other appliance or thing, which has been provided for the purpose of carrying out these rules, or for the safety of the workmen or otherwise for the purpose of properly carrying on mining operations, or which may be obtained or produced in the course of mining operations; nor is any one permitted to alter, remove, or in any way render useless any arrangement in the mine provided for the above purposes, without the consent of the Superintendent.

210. If any person employed in a mine shall, by any act or omission wilfully or negligently do anything which may allow or facilitate injury to, loss, destruction or theft of any property employed in or produced in the course of mining operations, he will be deemed to commit a breach of these rules.

211. Any person employed in or about the mine who shall, by any act of omission, wilfully or negligently do anything likely to endanger life, or shall wilfully or in a careless or thoughtless manner expose himself to danger, will be deemed to be guilty of a breach of these rules.

212. Every person who shall forge or falsify a certificate granted under these rules, or use a certificate falsely purporting to be granted under these rules, or use a certificate granted under these rules as his own which was granted to another person, or shall sell or dispose of a certificate granted or falsely purporting to be granted under these rules, shall be guilty of a breach of these rules.

213. Fines and deductions from wages, other than fines levied under the Mysore Mines Regulation, 1906, shall be levied and made only by a Mining Officer.

214. No person shall refuse or neglect to obey any orders issued with a view to the safety or the convenience or proper discipline of the mine, not being inconsistent with these rules, by any person under whose orders he is placed, nor shall he interfere with, impede or obstruct any person in the discharge of his duties, or interfere with or obstruct the working of the Mine.

215. All workmen shall strictly adhere to these rules, and to any directions issued by the Superintendent with a view to their safety or convenience or the proper discipline of the mine, not being inconsistent with these rules, contained in the notices posted in or about the mine for the guidance of the workmen.

216. Any person who may observe or be aware of any neglect or infringement of these rules shall report the case to his immediate superior or to the Superintendent or an Underground Agent or other Mining Officer, or (if the person reporting the same is a workman) to an Underground Foreman or Timberman, so that immediate means may be taken to rectify it and to prosecute the offender.

Geological, dated 22nd August 1911.

217. Any one who shall knowingly permit any person over whom he exercises authority to commit, or shall otherwise abet, a breach of these rules, or shall observe or be aware of a breach thereof, without reporting the same as aforesaid, shall himself be deemed to commit a breach thereof.

218. Every person employed in mining operations (other than the Proprietor, Agent or Superintendent) who is wilfully or negligently guilty of any act or omission which in the case of a Proprietor, Agent or Superintendent would be a breach of rules, shall be deemed to commit a breach of these Rules.

219. All workmen who neglect to observe any of the provisions of these rules, may be suspended or discharged and ordered out of the mine by the Superintendent or other Mining Officer.

220. No person shall be selected or allowed to perform or shall perform any duty in connection with any mining operations unless he is fully competent and qualified to carry out the work allotted to him.

221. The Proprietor, Agent and Superintendent shall provide for the safety and proper discipline of the men employed above and below ground, and appoint such persons as may be necessary for carrying out the provisions of these rules, and, in the case of any contravention of or non-compliance with these rules by any person whatsoever, the Proprietor, Agent and Superintendent shall each, unless he proves that he has taken all reasonable means, by publishing and to the best of his power enforcing these rules, to prevent such contravention or non-compliance, be deemed to have committed a breach of these rules. It shall be the duty of the Superintendent to prosecute any person employed on the mine who is guilty of a breach of these rules, except in cases which are so trivial that a prosecution is inadvisable.

223. If there is anything in the construction of any mine which at the time of the issue of these rules is not in accordance with these provisions, the Inspector of Mines shall have power to postpone the operation of these rules in such cases for such period as he shall think fit.

By Order,
E. W. WETHERELL,
Offg. Secy. to Govt., Geol. Dept.

(SCHEDULE).

Year *Accident No.*

REPORT OF ACCIDENT (1.)

Date of accident—
Class of accident (2)—
Number killed—
Number injured—
Name of mine—
Name of shaft—
Level (3)—
Locality (4)—
Time of accident (5)—

Persons killed—Names	Age	(6) Occupation	Hours worked before accident	Nature of injury causing death and date of death

Persons injured—Names	Age	(6) Occupation	Hours worked before accident	Nature of injury

How the accident happened—

Whether the work was being carried on by a contractor or by the Company (or mine-owners)—

Name of contractor and certificate No —

Name and certificate No. of mestri or blaster, and if present—

Name of Foreman in charge of the safety of the part of the mine where the accident happened—

Name and title of Mining Officer in charge of that part of the mine—

Superintendent.

EXPLANATIONS

(1) Every accident resulting in death or serious injury and every accident causing personal injury (whether serious or not) arising from an explosion of any kind, or from the fumes of an ignited explosive, or from the bursting of anything containing steam, compressed air or other substance at high pressure, must be reported.

An injury is to be considered as serious when it incapacitates the person injured from work for not less than seven days.

Geological, dated 22nd August 1911.

(2) Insert numbers corresponding to the following classes:—

1. Falls in mine.—Falls of hanging-wall.
2. Falls in mine.—Falls of sides or roof.
3. Falls in mine.—Falls of ore from working places.
4. In and at shafts.—Overwinding.
5. In and at shafts.—Ropes and chains breaking.
6. In and at shafts.—Whilst ascending or descending by machinery.
7. In and at shafts.—Falling into shaft from surface.
8. In and at shafts.—Falling from part way down.
9. In and at shafts.—Things falling from surface
10. In and at shafts—Things falling from part way down.
11. In and at shafts.—Miscellaneous.

(Winzes and rises are not to be considered shafts for the purpose of this report.)

12. Miscellaneous below ground.—Suffocation by gases.
13. Miscellaneous below ground.—Explosion due to misfire.
14. Miscellaneous below ground.—By explosives (other than misfires).
15. Miscellaneous below ground.—Falls of persons or things in Rises, Winzes and Stopes.
16. Miscellaneous below ground.—On inclined and engine planes. (Where the inclination of a shaft to the horizontal is not more than 30°, it is to be considered an incline for the purpose of this report.)
17. Miscellaneous below ground.—By trams or tubs, but not on inclined and engine planes.
18. Miscellaneous below ground.—By machinery.
19. Miscellaneous below ground.—By other causes.
20. On surface.—By machinery.
21. On surface.—Boilers and steam pipes bursting, etc.
22. On surface.—On railways, tramways, or aerial ropeways belonging to mine.
23. On surface.—Miscellaneous.

(3) If on surface, say so. All accidents on the surface works of the Company must be reported.

(4) If in stope, state which stope, and whether underhand or back stope. Also in what part of the stope.

(5) The twenty-four hours should be used as in railway time-tables.

(6) If the person is a female, the fact should be noted in this column in addition to her occupation.

This report, after being filled in and signed by the Superintendent or other superior officer of the mine at the foot of page 2, should be folded and despatched forthwith.

By Order,
E. W. WETHERELL,
Offg. Secy. to Govt., Geological Dept.

Proceedings of the Government of His Highness the Maharaja of Mysore, Geological, dated 22nd August 1911.

No. 445-474, DATED BANGALORE, 22ND AUGUST 1911.

ORDER.—The Government of His Highness the Maharaja of Mysore are pleased to direct that all general and underground plans or sections of Mines in Mysore deposited with the Chief Inspector of Mines in Mysore, in accordance with Rule 180 of the Rules prescribed under the Mysore Mines Regulation, IV of 1906, and published under Government Notification, Geological No. 444, dated 22nd August 1911, and all other information obtained under the said Rules shall be regarded as confidential and shall not be disclosed to any person without the consent of the Superintendent of the Mine. This shall not be taken to preclude the official publication of such information as the Government may consider desirable.

E. W. WETHERELL,
Offg. Secy. to Govt., Geol. Dept.

To—The Chief Inspector of Mines in Mysore.
The Deputy Commissioners of Districts.
The Superintendents of Mines in Mysore.

Exd.—C. V.

PART II.

REVENUE

SECTION 1—LAND REVENUE

TABULAR STATEMENT OF MATTERS OF ROUTINE FOR AUGUST 1911.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
1	R 914—L R 41-11-10 ...	1	Rev. Commissioner ...	Recording his letter reporting the occurrence of an accidental fire at the Chillapalli village of the Kolar Taluk, resulting in the destruction of four thatched houses worth about Rs. 47-4-0, and in the death of a male child, aged six months.
2	R 915—L R 46-10-15 ...	1	Do ...	Recording his letter forwarding a copy of his order awarding punishments to certain officials of the Kadur Taluk in connection with the misappropriation of Government money by Ranga Rao, late Revenue Gumasta of that taluk, and passing observations on the conduct of Amildars Messrs. M. S. Ramachandra Rao, and G. S. Ramaswami Iyengar, who were in charge of that taluk.
3	R 916—L R 38-11-6 ...	1	Do ...	Sanctioning the acquisition of Survey No. 32—3, measuring 2 acres and 31 guntas and assessed at Rs. 4-8-0, of Nernahalli village, Mulbagal Taluk, for a new village site.
4	R 917—L R 38-11-7 ...	1	Compiler, *Mysore Gazette*	Notifying the declaration statements in respect of the above land.
5	R 918—L R 30-11-4 ...	1	Rev. Commissioner ...	Sanctioning the acquisition of 2 acres and 7 guntas of land out of Survey Nos. 15—1 and 15—2 of the Tumkurlahalli village, Molakalmuru Taluk, for extending the village site.
6	R 919—L R 30-11-5 ...	1	Compiler, *Mysore Gazette*	Notifying the declaration statements in respect of the above lands.
7	R 920—L R 30-11-6 ...	1	Rev. Commissioner ...	Sanctioning the acquisition of 5 acres of land out of Survey No. 3 of Chandrenahalli, Bechirak village, Davangere Taluk, for forming a new village site.
8	R 921—L R 30-11-7 ...	1	Compiler, *Mysore Gazette*	Notifying the declaration statements in respect of the above survey number.
9	R 922—L R 30-11-8 ...	1	Rev. Commissioner ...	Sanctioning the acquisition of 2 acres of land out of assessed and occupied Survey No. 1 of Venkatapura village, Molakalmuru Taluk, for extending the village site.
10	R 923—L R 30-11-9 ...	1	Compiler, *Mysore Gazette*	Notifying the declaration statements in respect of the above land.
11	R 924—L R 70-11-2 ...	1	Do ...	Notifying the grant of fourteen days' privilege leave to Mr. K. Chandy, B.A., Deputy Commissioner, Chitaldrug District, with effect from the 3rd August 1911, or such subsequent date on which he may be relieved by Mr. K. Krishna Iyer, Senior Assistant Commissioner, Davangere Sub-Division, who is recalled to duty and appointed to act as Deputy Commissioner and District Magistrate of the Chitaldrug District, during the absence of Mr. Chandy or until further orders.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
12	R 931—L R 36-11-7 ...	2	Comptroller ...	Sanctioning a potgi bill for Rs. 8-0-4, on behalf of the patel of Mallapura village, Chamrajnagar Taluk, for the year 1903-04
13	R 932-3—L R 37-11-7 ...	2	Rev. Comr. and Comptr.	Recording the Revenue Commissioner's letter submitting a copy of the statement of promotions given to officials in the Kadur District during the quarter ended 31st March 1911, with the observation that S Lakshminaranappa, who has been appointed as Shekdar, should be informed that he will be reverted to his former post, if he does not pass the Revenue test and undergo the necessary training for Shekdari at an early date.
14	R 934—L R 464-10-2 ...	2	Dy. Comr., Shimoga ...	Stating that no action need be taken in pursuance of Government Order No. G. 4811-57—G. M. 200-10-1, dated 21st February 1911, so far as the records of Revenue Offices are concerned, as the rules regarding them published with Government Order No. R. 1800-9—L. R. 591-03-10, dated 20th September 1910, are sufficiently exhaustive.
15	R 935-7—L R 392-10-7...	2	Rev. Comr., Consvr. of Forests, and Supt. of Rev. Sur. and Settlt.	Sanctioning the appropriation of 5 acres of land out of gomal Survey No. 102 of the Nadaballi village, Manjarabad Taluk, for cardamom cultivation, with the observation that the water-course running through the land will be reserved.
16	R 940—L R 52-10-5 ...	2	Rev. Commissioner ...	Sanctioning the acquisition of 17 acres and 19 guntas of land assessed at Rs. 21-4-0, out of Survey Nos. 4, 3, 2, 10, 125 and 34 in the Paduvarahalli village, Mysore Taluk, for the formation of the new Ventikoppal village.
17	R 941—L R 52-10-6 ...	2	Compiler, *Mysore Gazette*	Notifying the declaration in respect of the above.
18	R 945—L R 67-11-2 ...	3	Do ...	Notifying that Mr. G. S. Ramaswamiengar, B.A., Acting District Sheristadar, Hassan, will continue to act as Amildar and 3rd Class Magistrate, Hassan Taluk, during the absence of Mr. S. N. Appanna Iyengar, Amildar, on twenty-six days' privilege leave, granted to him in Revenue Commissioner's Notification No. 705, dated 17th July 1911.
19	R 950-1—L R 179-11-2 ...	3	Dy. Comr., Kadur, thro' Rev. Comr. and Comptr.	According sanction to the expenditure of Rs. 160 on account of certain articles of furniture required for the use of the District and other offices in the Kadur District, being met out of the current year's budget.
20	R 952—L R 412-09-4 ...	3	Rev. Commissioner ...	Recording his letter reporting that the amount of money embezzled by Shanbhog Lakshminarasiah of Kanathur firka, Turuvekere Sub-Taluk, has been adjusted out of the amount remitted by him to the Taluk Treasury, Tiptur, and that he has been sentenced to two years' rigorous imprisonment.
21	R 953—L R 36-11-5 ...	3	Comptroller ...	Sanctioning a potgi bill for Rs. 67-8-0 of the Mandya Taluk, for the year 1907-08.
22	R 962-3—L R 465-10-6...	4	Inam Supt. and Dy. Comr., Mysore	Recording the Inam Superintendent's letter reporting that the Devadaya Inam belonging to Maridevaru at Yachigahalli, Nanjangud Taluk, has now been struck off the Inam Registers, the fact of its resumption to Government in 1886-87 having been intimated to him only lately, and observing that the delay on the part of the taluk authorities in reporting the resumption to the Inam Superintendent and the absence of information as to why the Inam was resumed are unsatisfactory.

Serial No.	Proceedings: Number	Proceedings: Date	Proceedings: To whom sent	Subject and Order
23	R 967-8—L R 155-11-2...	4	Rev. Comr. and Comptr.	According sanction to a special *imprest* of Rs. 50, being placed at the disposal of the Mysore Deputy Commissioner for getting kharab Survey No. 61 of the Dollipur village in the Chamrajnagar Taluk, cleared of Jungle growth.
24	R 969-70—L R 157-11-2	4	Rev. Comr. and Survey Supt.	Sanctioning the appropriation of Survey No. 6, measuring 3 acres and 22 guntas and assessed at Rs. 6, in the Haliyur village, Chitaldrug Taluk, for purposes of a burial ground and for storing manure, the assessment being written off the accounts in communication with the Survey Superintendent.
25	R 971-2—L R 181-11-2...	4	Rev. Comr. and Comptr.	Sanctioning the purchase of wooden planks and leaving boards at a cost of Rs. 205-5-0, for the use of the Taluk officials of the Malnad taluks of the Shimoga District.
26	R 973—L R 33-11-2 ...	4	Inam Superintendent...	Recording Inam Superintendent's letter submitting lists of books and furniture in his office for the year 1910-11.
27	R 988—L R 80-11-1 ...	4	Compiler, *Mysore Gazette*	Notifying the following temporary promotions of Deputy Commissioners, ordered with effect from 24th April 1911:— (1) Mr. M. Kantharaja Urs, B.A., Deputy Commissioner, 2nd Class, to act as Deputy Commissioner, 1st Class, *vice* Mr. K. S. Dorasami Iyer, appointed to act as Excise Commissioner. (2) Mr. B. J. Kumaraswami Naik, B.A., Deputy Commissioner, 3rd Class, to act as Deputy Commissioner, 2nd Class, *vice* Mr. Kantharaja Urs, acting in the 1st Class.
28	R 1007-1010—L R 21-11-1	5	Rev. Comr., Dy. Comr., Bangalore, Regtr., Ch. Court, and Comptr.	Directing that the grouping of taluks in the Bangalore District, sanctioned in November 1906, be cancelled and the taluks be regrouped as shown below with effect from the 21st August 1911:— (1) The Bangalore Taluk to be under the direct charge of the Deputy Commissioner, with the Civil officer, Bangalore, as his Personal Assistant. (2) The Anekal, Hoskote, Devanhalli, Doddaballapur and Nelamangala Taluks to be under the charge of an Assistant Commissioner, with headquarters at Bangalore. (3) The Channapatna (including Closepet Sub-Taluk) Magadi and Kankanhalli Taluks to be under the charge of an Assistant Commissioner, with headquarters at Closepet; also reinvesting the Amildar of the Bangalore Taluk with Magisterial Powers; and requesting the Deputy Commissioner to report at the end of a year as to how far this redistribution of duties works with efficiency.
29	R 1011—L R 74-11-2 ...	5	Compiler, *Mysore Gazette*	Notifying that C. B. Shama Rao, B.A., Acting Head Clerk of the Shimoga District Office, is appointed to act as Amildar and 3rd Class Magistrate of the Sorab Taluk, during the period of one month's privilege leave granted to Mr. Murudappa, *sub pro tem* Amildar of that taluk, in Revenue Commissioner's Notification No. 1253, dated 23rd July 1911.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
30	R 1019-20—L R 47-11-5...	7	Rev. Comr. and Comptr.	Approving of the action of the Revenue Commissioner in allowing the Amildar of the Davangere Taluk to continue in charge of the Harihar Sub-Taluk, during the extension of two days' privilege leave granted to S. Sundararaja Iyengar, Acting Deputy Amildar of Harihar.
31	R 1021-2—L R 39-11-6...	7	Do ...	Sanctioning the grant of a charge allowance at 10 per cent on the pay of an Amildar of the last class to K. Srinivasa Murti, Taluk Sheristadar of Goribidnur, for having been in charge of that taluk from the 22nd to the 28th February 1910.
32	R 1029-30—L R 20-11-2...	8	Do ...	Sanctioning the Revenue Commissioner's proposal to write off the accounts a sum of Rs. 10, being the allowance paid in excess to one H. V. Subba Rao, while acting as Revenue Gumasta of the Yedatore Taluk in 1906 and which is now irrecoverable, as the man is undergoing a sentence of imprisonment.
33	R 1031—L R 81-11-2 ...	8	Compiler, *Mysore Gazette*	Notifying the cancellation of the unexpired portion, namely two days, out of the ten days' privilege leave granted to Mr. N. Madhava Rao, B.A., B.L., Assistant Commissioner in charge of the Gubbi Sub-Division, in Notification No. R. 6875—L. R. 436-10-2, dated 20th June 1911.
34	R 1037—L R 76-11-2 ...	8	Do ...	Notifying the grant of privilege leave of absence for two months and a half, from the 1st September 1911, to Mr. C. B. Lakshmana Rao, B.A., B.L., Acting Amildar of Mandya and of the continuance of Mr. C. Ramachandra Rao, B.A., B.L., Police Inspector, who has been appointed to act as Amildar and 3rd Class Magistrate of the taluk during Mr. Lakshmana Rao's deputation for Survey training in August 1911, to act as such during the above period also.
35	R 1038—L R 82-11-2 ...	8	Do ...	Notifying the grant of privilege leave of absence for two months to Mr. N. Gopalakrishna Iyengar, B.A., B.L., Amildar of Magadi, the appointment of B. Lingiah, Deputy Amildar of Closepet, to act as Amildar and 3rd Class Magistrate of the Magadi Taluk, and the appointment of A. Shama Rao, Sub-Registrar of Tarikere, as Acting Deputy Amildar and 3rd Class Magistrate, Closepet Sub-Taluk, during the above period.
36	R 1041—L R 148-11-31...	8	Do ...	Notifying the appointment of J. F. D' Costa, Excise Inspector of Shimoga, as Acting Deputy Amildar and 3rd Class Magistrate of the Kumsi Sub-Taluk, during the employment of Mr. B. Mohadin Sheriff as Acting Amildar of Shimoga.

61	R 1192—L R 112-09-12 ...	17	Appanna Bhatta, Agent, Tirthamattur Matt, Tirthahalli	Rejecting his petition appealing against the order of the Revenue Commissioner in Mysore holding that the Matt is entitled to be exempted from the payment of interest on arrears of land revenue due from it only till the 5th August 1905 and not up to date.
62	R 1197—L R 14-11-2 ...	17	Chief Engineer ...	Recording Chief Engineer's letter forwarding statements of certain tanks, ordered by Government to be restored and of certain others ordered to be abandoned, in the Lower Vedavati Series, Krishna Basin.
63	R 1199—L R 45-11-4 ...	17	Dy. Comr., Mysore ...	Stating that the application of K. Hanumantha Rao, Accountant, District Forest Office, Mysore, for the post of a Deputy Amildar, cannot be considered favorably, as the official has lost all touch with Revenue work and that if the Deputy Commissioner considers him specially fitted for such an appointment, arrangements may be made for the transfer of the official to the Revenue Department in the Mysore District Office, and get his name included in the list of eligible candidates for Deputy Amildari.
64	R 1202-5—L R 21-11-5 ...	17	Rev. Comr., Dy. Comr., Bangalore, Comptr. and Regtr., Chief Court	Directing that three clerks and six menials, who can be spared by the Deputy Commissioner of the Bangalore District, consequent on the formation of a new Revenue Sub-Division in the Bangalore District, as per Government Order No. R. 1007-1010—L. R. 21 11-1, dated the 5th August 1911, be transferred to the new District and Sessions Court to be opened at Bangalore, with effect from the 21st August 1911, that the newly formed Sub-Division be styled the Doddaballapur Sub-Division and that Mr. G. Aravamudu Iyengar, *sub pro tem* Senior Assistant Commissioner, may continue in charge of that Sub-Division.
65	R 1209-10—L R 144-11-2	18	Rev. Comr. and Comptr.	According sanction to a bill for Rs. 43-6-2, being the arrears of pay due to three process peons of the Kankanhalli Taluk, for the months of March, April and May 1907.
66	R 1211—L R 41-11-13 ...	18	Rev. Commissioner ...	Recording his letter reporting the occurrence of an accidental fire in the Konnarahalli village, Mandya Taluk, on the 10th February 1911, and stating that necessary help was given to the sufferers.
67	R 1212—L R 37-11-12 ...	18	Do ...	Recording the Revenue Commissioner's letter submitting statements of fresh men entertained and of promotions given to officials in the Chitaldrug District, during the quarter ending with 31st March 1911, with the observation that H. R. Suryanarayen Rao of the list, who has been appointed a Shekdar should be informed that his confirmation will depend upon his passing the Revenue test at an early date.
68	R 1213-4 -L R 39-11-7 ...	18	Rev. Comr. and Comptr.	Sanctioning the grant of a charge allowance at 10 per cent on the minimum pay of a Taluk Sheristadar, *viz.*, Rs. 40 to Venkatanaranappa, Head Gumasta of the Mysore Taluk, for having been in charge of the Taluk Treasury of Mysore from the 30th May to 7th June 1910, during the absence of the Taluk Sheristadar on privilege leave.
69	R 1215-6—L R 39-11-9 ...	18	Do ...	Declining to sanction a bill for Rs. 5-12-11, claimed by B. Narayana Iyer, Acting Head Accountant of the Kolar District Office, for having been in charge of the Srinivaspur Taluk,

Serial No.	Proceedings: Number	Proceedings: Date	Proceedings: To whom sent	Subject and Order
				for two days, during the absence of both the Amildar and the Taluk Sheristadar of that taluk, on examination leave.
70	R 1218—L R 50-11-3 ...	18	Compiler, *Mysore Gazette*	Sanctioning privilege leave of absence for one month, with effect from the 1st August 1911, to Mr. Gulam Mahomed Meccai, Amildar, (now under orders of transfer to the Koppa Taluk).
71	R 1238-9—L R 150-11-2...	19	Rev. Comr. and Comptr.	Sanctioning the writing off the accounts of the sum of Rs. 12-15-1, outstanding in the accounts as interest on the arrears of local cess, which had to be paid by the authorities of the Sringeri Jahgir, in respect of the Sarvamanya village of Belwadi in the Chikmagalur Taluk, for the years 1908-09 and 1909-10
72	R 1252—L R 431-10-2 ...	19	Rev. Commissioner ...	Recording Revenue Commissioner's letter forwarding, for the information of Government copy of notes of Inspection of the Kankanhalli Taluk Office, made by him on the 12th March 1911, with the observation that the Amildar should be reprimanded for the unsatisfactory character of his itineration and that the Sub Divisional Officer and the Deputy Commissioner should pay personal attention to the work of this taluk
73	R 1253—L R 173-11-3 ...	19	Supt, Rev Survey ...	Informing him that his proposal regarding the training of Assistant Commissioners and Probationary Assistant Commissioners in Survey work, along with Amildars, Deputy Amildars, etc., in September 1911, has been dropped by Government, for the present, for this year, as the notice is far too short and the deputation of Assistant Commissioners, etc., now will dislocate work considerably.
74	R 1259—62 L R 140-11-39	19	Rev. Comr., Sur. Supt, and Dy Comrs. of Kadur and Kolar	Cancelling the deputation of Mr. Mahomed Syed Shariff, *sub pro tem* Amildar (under orders of transfer to Chikballapur), for Survey training, during September 1911.
75	R 1265—L R 101-10-2 ...	21	Rev. Commissioner	Requesting him to dispose of appeal Case No 130 of 1909-10, on the file of his Court regarding a dispute concerning some land in the Sogale village, belonging to the Palace, Channapatna Taluk, in the light of the order contained in Government Order No. 1643-7—R. 601, dated the 7th August 1895.
76	R 1266-7—L R 27-09-22..	21	Rev Comr., Supt, Rev Survey and Settlement	Directing that the portion of land out of Survey No. 44 of Miltahalli village, Sidlaghatta Taluk, which is liable to submersion be demarcated and included in the tank bed and the remaining portion formed into a separate Survey number and granted for cultivation

11	Fl 650-2—548-10-4 ...	11	Comptr. and Dy. Comr., Bangalore, and Mily. Secy. to H. H. the Maharaja of Mysore	Sanctioning the grant of an advance of one year's pay to Syed Khador, Farrier Major, Imperial Service Transport Corps for building a house in Malleswaram extension, Bangalore City.
12	Fl 670-3—102-09-13 ...	12	Dy. Comr., Mysore and Comptr., Chief Engr., and Comptr. P. W. and Rys.	Directing under the circumstances explained that the advance sanctioned for the purchase of the building known as Artware Manufactory, Mysore, be adjusted by debit to the Public Works Department against the sum of Rs. 9,000 provided for the purpose in the supplemental reappropriation statement of the Public Works Department already sanctioned, and requesting the Chief Engineer to recover the rent at the usual rate from the Municipality for the occupation of the building
13	Fl 674—102-09-14 ...	12	Dy. Comr., Mysore ...	Informing him that there now exists no necessity to purchase on behalf of Government the articles of the Artware Manufactory, Mysore, at any reduction of their labelled prices, since the loan account of the debtors Ahmed Ali and Mahomed Makdum has already been adjusted under Government Order No. Fl. 5986-7, dated 2nd June 1910.
14	Fl 683—294-10-6 ...	12	Mily. Secy. to H. H. the Maharaja of Mysore	With reference to his request for providing a sum of Rs. 400 in the final Budget for 1911-12 for eradicating lantana and prickly pear in Amrut Mahal Kavals, stating that it was not found possible to make the provision in question
15	Fl 694-7—49-11-2 ..	14	Comptr. and Dy. Comr., Bangalore, and Regr., G. R. S., and R. Ranga Rao	Sanctioning the grant of an advance of one year's pay to R. Ranga Rao, clerk, General and Revenue Secretariat, for building a house in the New extension, Bangalore City
16	Fl 698-9—52-11-2 ...	14	Rev. Comr. and Comptr.	With reference to the Comptroller's letter No. 395, dated 19th July 1911 reporting among other things that no estimate has yet been received from the Revenue Commissioner in respect of the receipts and payments in the current year on account of advances and loans, inviting the Revenue Commissioner's attention to Government Orders Nos. Fl 3715-21 and 2911-20, dated 23rd May and 2nd December 1910, with the observation that Government agree with the proposals of the Comptroller and direct that the necessary data for the compilation of the Ways and Means. Estimates may be furnished by the various officers concerned every year by the 15th May, necessary arrangements being made by the administrative sections of the Secretariat to have the Funds Budgets submitted to Government in proper time to enable them to communicate the sanctioned figures to the Comptroller by the 15th May.
17	Fl 742—228-10-4 ...	16	Comptroller ...	With reference to his recommendation for granting certain concessions to the Auditors of Local Audit Department in respect of their daily allowances and rent-free accommodation in travellers' bungalows, musafirkhanas and rest houses while employed in auditing work out of Headquarters, stating that the staff of the Local Audit Department and the Assistant Comptroller in charge are accorded general sanction under Article 580, Mysore Service

SECTION 2—SEPARATE REVENUE

TABULAR STATEMENT OF MATTERS OF ROUTINE FOR AUGUST 1911.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
1	Fl 443—S R 10-11-2 ...	1	Excise Commissioner ...	Forwarding for disposal a petition received from one Mr. Frank Hayes residing in Richmond Town, Bangalore, praying for an appointment in the Excise Department, with the observation that, if he is found by the Excise Commissioner to be otherwise suitable for his Department and if he proposes to employ him, Government will be prepared to accord sanction under Article 34 of the Mysore Service Regulations in respect of his age limit.
2	Fl 470-1—S R 152-10-2...	2	Ex. Comr. and Comptr.	Sanctioning the refund of Rs. 875-13-9, being the amount of toddy revenue payable to the Inamdar of Garni village, Maddagiri Taluk for the years 1908-09 and 1909-10.
3	Fl 472-3—S R 137-10-2...	2	Do ...	Sanctioning the refund of Rs. 249-7-9, being the amount of toddy revenue payable to the Inamdar of Madavankodi village, Krishnarajpete Taluk, for the years 1908-09 and 1909-10.
4	Fl 474-5—S R 6-10-2 ...	2	Do ...	Sanctioning the refund of Rs. 2-6-5, being one-fifth of the grove farm rent payable to the Inamdar of Koogur village, Hoskote Taluk, for the years 1892-93 to 1896-97.
5	Fl 476—S R 208-10-2 ...	2	Excise Commissioner ...	Sanctioning the writing off the accounts the irrecoverable arrears of Rs. 817-4-0 and 479-8-8 shown as outstanding against one Subbaraya, licensee of Karagada and Hanakosante toddy shops in the Bolur Taluk for the years 1902-03 and 1903-04, with the observation that it would be more satisfactory if the erring officials in such cases are brought to book for irregularities which result in loss to Government.
6	Fl 477-8—S R 126-10-4...	2	Dy. Comr., Mysore, and Comptr.	Sanctioning, as a very special case, a bill for Rs. 16 claimed by the Public Prosecutor Mysore for giving his opinion in the matter of instituting proceedings under Section 64 of the Mysore Stamp Regulation against one Doddanna and others of Attigode village, Hunsur Taluk, and observing that the Deputy Commissioner was not in order in consulting the Public Prosecutor, that under Section 70 of the said Regulation, he is the officer who is charged with the duty of sanctioning prosecutions and is, as such, bound to use his own discretion in deciding such cases, that he cannot, therefore, be allowed to consult a lawyer and throw the consequent expenditure on public funds or shift his responsibility in the matter and that in cases of considerable importance and complexity, the Government Advocate should be consulted and that too through Government.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
7	Fl 482 3—S R 17-10-2 ...	3	Comr. of Stamps and Comptr.	Sanctioning the purchase of four pieces of parchment at a probable cost of Rs. 17-1-0 from Messrs Oakes & Co, Madras, for the use of the Court Fee Stamp Machine of the Stamp Manufactory.

44	Fl 956—S R 37-11-1 ...	30	Compiler, *Mysore Gazette*	Notifying for general information that receipts given in the Bangalore City and requiring to be stamped under the Mysore Stamp Regulation 1900, to be valid, should, as in the rest of the State, be stamped with the Mysore Receipt Stamp, and that the Stamp Commissioner's Notification No. Mis 1650, dated 7th January 1908, published on page 63 of Part II of the *Mysore Gazette*, dated 16th January 1908 applies to the whole State including the Bangalore City.
45	Fl 957- S R 11-11-4 ...	30	Do ...	Notifying the grant of 4 days' privilege leave to Mr. C R Narayanswami Mudaliar, District Excise Officer, Hassan, in continuation of the 8 days' leave sanctioned to him in Government NotificationNo Fl. 272—S. R 11-11-2, dated the 22nd July 1911

GENERAL AND REVENUE SECRETARIAT.
Bangalore, 31st August 1911.

C. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rev. Depts.

SECTION 3—BANKING

TABULAR STATEMENT OF MATTERS OF ROUTINE FOR AUGUST 1911.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
1	Fl 608-9—B 7-11-2 ...	7	Comptr. and Registrar of Co-operative Societies	Requesting the Comptroller to pass until further orders the pay bills of the establishment of the Registrar of Co-operative Societies in Mysore at the present scale and rates of pay.
2	Fl 640—B 45-10-5 ...	8	Compiler, *Mysore Gazette*	Notifying the amendment of Rule 7 of the Insurance Rules as follow:— Ten per cent of the pay of the Insured or more at his option shall be recovered every month as premium and credited to Government, in consideration of which an endowment bonus (according to the table appended to these rules) shall be payable from the Mysore Revenues on the Insured completing 55 years of age or at his death, if earlier. Fractions of a rupee, other than multiples of eight annas, shall be excluded in calculating the premium.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
3	Fl 690—B 56-10-2 ...	14	Registrar of Co-operative Societies	In the matter of the charge allowance bill submitted in favor of Mr. E. Rama Rao, Senior Inspector of Co-operative Societies, observing that there is no reason to grant it, as the Inspector was not appointed by Government to be in charge of the Registrar's Office and that this case is analogous to that of a Munsiff or a Judge handing over charge to his Head Munshi or Sheristadar on transfer, which gives rise to no claim for any allowance.

Serial No.	Proceedings: Number	Proceedings: Date	Proceedings: To whom sent	Subject and Order
4	Fl 767—B 5-6-11-2 ...	18	Dy. Comr., Shimoga ...	Forwarding for disposal or report if necessary a petition received from M. R. Ry. Mallappa, President of the late Agricultural Bank at Gonasingunni village, Sagar taluk, praying for postponement of the adoption of coercive measures for recovery of the debt due by him to the Bank.
5	Fl 769—B 6-11-3 ...	18	M. R. Ry. Mallappa ...	Informing him of the above.
6	Fl 781-5—B 5-11-14 ...	19	Dy. Comrs. of Kadur and Hassan, Comptr., Rev. Comr., and Mr. Pilkington	Sanctioning the retention of the services of Mr. H. Pilkington as Inspector of Coffee estates for another year from 1st June 1911 up to the end of May 1912, with the observation that in view of the appreciable reduction in the number of estates to be inspected by him, he will be paid a consolidated salary of Rs. 150 instead of Rs. 175 during the previous term of engagement.
7	Fl 791-2—B 9-10-26 ...	21	Comptr. and Dy. Comr., Kadur	Directing that the further sum of Rs. 1,223 and odd pointed out by the Comptroller as outstanding against Mr. A. Shama Rao, an indebted member of the late Agricultural Bank at Chickmagalur be written off the accounts.
8	Fl 827—B 8-11-2 ...	23	Registr. of Co-operative Societies	Informing him that intimation has been received from the Residency that there will be no Conference of Registrars of Co-operative Societies this cold weather.

SECTION 4—SALARIES AND ALLOWANCES.

TABULAR STATEMENT OF MATTERS OF ROUTINE FOR AUGUST 1911.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
1	Fl 445-6—S & A 92-11-2	1	Comptr. and Regtr., Ch. Court	Sanctioning a pension of Rs. 33-13-6 to B. Venkataramayya, late clerk, Chief Court of Mysore
2	Fl 453-4 - S & A 75-11-2	2	Comptr. and Offg. Secy to Govt., G.R.S. (Mily.)	Sanctioning a pension of Rs. 5 to Syed Yassim, late Sowar "B" Squadron, Imperial Service Regiment.
